## HUGE PARK SQUARE REALTY PROJECT IS GIVEN OUT IN DETAIL

Development of 17 Acres of Property Worth \$4,500,000 One of Largest American City Enterprises.

### STREETS APPROVED

Plan to Take Land on St. James Avenue to Give 100-Foot Approach Is Being Considered.

The proposed development of the old Park square railroad station property is expected to prove one of the most notable real estate projects that has ever been put through in any large American city. It will open up approximately 17 acres in Boston's business section which have lain idle since the Boston & Providence railroad moved into the South Station terminal.

This land is now assessed for \$4,500,000, but it is impossible to estimate the probable increase in real estate values in the vicinity that would naturally follow the pending improvements.

Final permission of both the Boston street commissioners and the mayor has now been obtained for the cutting of a 70-foot thoroughfare lengthwise through the entire tract. This will be known as Stuart street extension, and will run from Clarendon street to Columbus avenue near its junction with Ferdinand street.

Only the mayor's approval is now needed to authorize construction of another wide highway, to be called Arlington street extension, from opposite Ferdinand street northerly to Providence street, whence it will turn and run to Park square. Arlington street extension will probably eventually be prolonged, after demolition of intervening buildings, so as to run through to Arlington and Boylston streets.

Plans have also been considered for the taking of some \$1,800,000 assessed value of land on the south side of St. James avenue and its extension as a 100-foot avenue to Park square. This would relieve the congestion at the Public Garden entrance to the subway, but the cost, especially in view of the damage to Westminster Chambers and adjoining properties, would be exceedingly heavy.

It had been the intention, in the event of the widening of St. James avenue, to rely on an act of 1904, permitting such land-taking. Some question as to the constitutionality of that act has just been raised, however, in the recent opinion given by the Massachusetts supreme court to the Legislature with reference to the feasibility of a North-South station tunnel boulevard. However, if a pending amendment to the state constitution is adopted, it is probable that any constitutional objections to this St. James avenue taking will be removed.

It is probable that actual work on the Stuart-Arlington street extensions will begin within 60 days. The expense, amounting to slightly under \$100,000, will be borne by the Park Square Real Estate Trust.

Following the completion of these streets it is expected that several commodious buildings will be erected. The money, for some of them at least, will be furnished by the trust, although no definite plans as to what the buildings will be have as yet been made.

The situation up to the present is that the New Haven railroad has placed the property in the hands of four trustees with full powers for its development on broad lines. A most adequate carrying-out of the plan would seem assured, not only from its railroad backing, but also from the fact that the trustees are men of exceptional business experience and caliber. These trustees, as appointed by the trust deed of last year, are Moses Williams, Amory A. Lawrence, Alfred Bowditch and Laurence Minot.

The trust deed also authorized an issue, already outstanding, of \$5,200,000 certificates, all of which is held by the New Haven road in formal payment for the property. Further future issues of shares and the putting out of not exceeding \$4,000,000 notes or bonds are provided for.

A public offering of the outstanding shares, now owned entirely by the New Haven, will probably be made.

### Advantages to Be Gained By Opening Park Square Realty for Investment

PROJECT will open up 17 acres of downtown Boston property which has long lain idle.

Two streets will be extended to give access to land that is to be developed.

Land is now assessed for \$4,500,000, but its improvement will greatly increase values.

Bonds of \$5,200,000 are outstanding and will be offered to public later.

Work on the extension of the streets will begin within 60 days.

## The New King of England

His Majesty George V., successor to Edward VII.

## The Late King Edward

MONARCH IN ROYAL ROBES. As Prince of Wales he won hearts of all Americans during his visit here in 1890.

## HAIL GEORGE V. KING OF BRITISH DOMAINS IN CEREMONY TODAY

Erstwhile Prince of Wales Is Sworn Before the Privy Council in Throne Room of St. James Palace.

### ACCEPTS HIS TRUST

First Proclamation of New Monarch Is for All Officially to Proceed With Their Regular Duties.

LONDON—King George V. was formally administered the oath of office as the reigning monarch in succession to the late King Edward from the quadrangle of St. James Palace at 4 o'clock this afternoon.

The privy council met at the palace in accordance with the time-honored custom and formally declared King Edward deceased. Immediately afterward the government leaders visited King George who had driven to the palace and was in an adjoining room. The lord chancellor advanced and administered the dual oaths of office affecting England and Scotland, which were responded to amid a silence that was impressive.

The new ruler at once announced that he would ascend the throne as King George V. The heir apparent, Prince Edward Albert, then stepped forward and the oath of succession was administered to him, following the ancient ritual of the British throne.

The new king in his speech of acceptance, if such it might be called, made several touching allusions to the father of whom he had just been bereft and to the trying circumstances under which he was being called to the throne.

The ceremony of swearing the new king was begun by the firing of the royal salute of 101 guns, which was concluded just as the king finished his speech.

The administering of the oath and the speech of the king were to have been followed by the reading of the royal proclamation from the quadrangle of the palace, the proclamation having been prepared by the privy council. Owing to the lateness of the hour, however, the proclamation was postponed until Monday morning at 9 o'clock. This proclamation reads as follows:

"Whereas it has pleased Almighty God to call in his mercy our late sovereign, King Edward, of blessed and glorious memory, from whose decease the imperial crown of Great Britain and Ireland solely and rightfully comes to the high and mighty Prince George;

"We, therefore, as lords of the spiritual and temporal realm, being here assisted by these members of his late majesty's privy council, with numbers of other principal gentlemen of quality, and with the lord mayor, aldermen and citizens of London, hereby with one voice consent, and with tongue and heart publish and proclaim that the high and mighty Prince George, now by the death of our late sovereign of happy memory, becomes our only rightful liege lord, George V. by the grace of God, of the United Kingdom of Great Britain and Ireland and of the British dominions beyond the seas, King, defender of the faith, and Emperor of India, toward whom we acknowledge all faith and constant obedience, and with all hearty and humble affection beseeching God, through whom kings and queens reign, to bless the royal King George V. with long and happy years to reign over us."

"Given at the court of St. James on this seventh day of May, 1910."

A fanfare from the heralds followed.

(Continued on Page Eleven, Column One.)

## The New Queen of England

Mary Victoria who succeeds Queen Alexandra.

## HERE IS ANALYTICAL STUDY BY A HARVARD PROFESSOR

Frederick C. de Sumichrast, Former President of the Victorian Club of Boston, Tells About the Complex Problems Confronting New King of England.

Prof. Frederick C. de Sumichrast of Harvard University, a native of England, today said:

"King George V. was aware that some day he, in his turn, would have to undertake the grave duties of ruler of the British empire. The need for his doing so has arisen with startling suddenness, and the new sovereign is confronted with some problems that demand, for their safe solution, the highest statesmanship and the greatest prudence. In the forefront is the complicated situation in Great Britain.

"The ministry which is now in power is admittedly a weak one, the slave of conflicting interests and claims put forward with fierce intensity by the Radicals, the socialists, the Laborites, the Irish. This is a serious handicap for the new ruler; he is at once plunged into a difficult crisis which has already aroused violent political passions.

"The Liberal ministry looks, as a last resort, to the creation of a practically infinite number of peers to overcome the adverse majority in the present House of Lords. It is in the highest degree unlikely that King Edward would ever have consented to applying so heroic a remedy, although he did favor the reforms indicated by Lord Rosebery, but it is still more improbable that his successor will allow himself to be thus made use of. He will then find himself in opposition to his titular advisers, who will go to the country on the cry of royal hostility to democracy.

"On the other hand, he will have the great majority of the people with him, and an election run on the lines suggested will almost surely result in a bad defeat for the Asquith cabinet. But the problem of the Lords is not the only domestic difficulty which has to be faced.

"The contest between tariff reform and the perpetuation of a form of free trade which places Great Britain at a disadvantage not only with foreign countries but even with her own colonies, that contest has to be fought out, and the new king cannot remain a merely passive spectator, for, even within the broad limits of his constitutional prerogative, he can exercise a powerful influence on the policy of the country.

The chances are that, having not long since traveled through the length and breadth of the empire and seen conditions for himself and not through the eyes of partisans, he will incline to the policy of tariff reform.

"Another problem is the perennial Irish question which is closely related to the question of redistribution of seats. That some form of home rule, which

(Continued on Page Eleven, Column Four.)

## TEACHERS IN BUSY PROGRAM ON FINAL DAY OF CONVENTION

Reports, Attendance on Lectures at Museum and Reception Are on Art Instructors' List for Day.

### 'PURE DESIGN' TALK

Election of Arthur D. Dean as President and of Other Officers Is Decided at the Morning Session.

A business meeting, a series of lectures at the Museum of Fine Arts and a reception at the Normal Art School are scheduled for the teachers attending the convention of the Eastern Art and Manual Training Teachers Association today, the final day of the convention.

Dr. Denman W. Ross of Harvard University, the first speaker at this morning's meeting, read a paper on "The Study of Pure Design," in which he preached a delightful sermon on "Order," not only in the study and execution of pure design but in daily life as well.

John J. Enneking, the Boston painter, speaking on "Manual Training from the Artist's Point of View," told of the training of an artist and laid emphasis on certain ideals for which the art student should strive.

He pointed out that success in painting depends entirely on the individual. The teacher can instruct him in the various theories of expression, the mere grammar of art, but he cannot teach him art itself.

Mr. Enneking recommended that art students keep in mind the favorite motto of the Japanese artists: "First style, then system, then character."

At the business meeting held at 10 o'clock at the Art Museum the following officers were elected: President, Arthur D. Dean, Albany, N. Y.; vice-president, Walter R. Perry, Brooklyn, N. Y.; recording secretary, Miss Eva E. Struble, Newark, N. J.; corresponding secretary, Ada B. Williams, Cleveland, O.; editor, F. H. Daniels, Newton.

The secretary reported that 155 active members and 157 associate members had joined the association during the convention. It was voted that the association become a chapter of the American Federation of Art.

## CHINESE PRINCE THANKS MR. TAFT

WASHINGTON—President Taft has received a telegram of farewell from Prince Tsai Tao of China who is now on his way to Europe. The telegram is as follows:

Mr. President: As I am bidding farewell to the American shores, I desire to thank you with all my heart for the magnificent reception given me by the government and people of the United States in every place that I have visited. I shall carry away with me to my own country all the memories of my stay in the United States. Long may heaven bless you with health and happiness. (Signed) TSAI TAO.

## FIFTY ARE SAVED FROM A STEAMER

The steamer Normandy sank off St. Johns, N. F., today, but all on board were rescued, according to information received by the marine department of the Boston Chamber of Commerce.

It is said that the Normandy was on her way to ply the lakes, and that there were 50 passengers on board.

### GOVERNMENT RESTS HEINZE CASE.

NEW YORK—Following the testimony of Expert Accountant John P. Fernier in the trial of F. A. Heinze for the alleged misappropriation of funds of the Mercantile National Bank in 1907 in the United States circuit court, the government rested its case.

### SOUTH END TO ASK MORE CARS.

The railroad commissioners will give a hearing Thursday on the petition of the South End Improvement Association for a relocation of the cars running between Grove Hall and the Park street subway, via Blue Hill avenue and Dudley street.

## The Little Prayer of King Edward VII. as Taught Him When a Boy by Mother

O ALMIGHTY GOD, I thank Thee for all the mercies which Thou hast given me this day. Take me this night under the shadow of Thy wing and grant that I may rise again in health and safety, for Thou only canst protect me. Bless dear papa, mama, my brother and sisters, and make me a good boy through Jesus Christ, our Lord.—Evening prayer of Prince of Wales as taught him about 1851 by his mother, Queen Victoria.

## GLASGOW EXHIBITION WILL PICTURE SCOTTISH HISTORY

Marquis of Tullibardine Breaks the First Sod on Ground and Buildings Are Now Being Erected for Next Year's Big Event.

(Special to The Monitor.) GLASGOW.—The first step towards the inauguration of the exhibition of national history, art and industry, to be held in Glasgow next year, has been taken, the Marquis of Tullibardine having cut the first sod on the ground where the exhibition is to be opened. The main idea is that the exhibition should be of an essentially national character, and that it should present a picture of Scottish life and history from the earliest times. There will be exhibits of the arts and industries for which the Scottish people are renowned. It is hoped that by these means a greater public interest will be created in Scottish history, and that with the surplus which it is expected will be realized a permanent chair of Scottish history will be established at Glasgow University.

## CANADA REPORTS PROGRESS FACTS TO HIGH COMMISSIONER

OTTAWA, Ont.—Lord Strathcona, high commissioner for Canada, has been officially informed by the minister of the interior at Ottawa that— In two days recently 150 persons having assets of a total value of nearly \$200,000 passed through St. Paul, Minn., en route for the Canadian west, and special trains are going every day. Savings bank deposits in Canadian banks show an increase in deposits during March amounting to nearly \$8,000,000. Fully 50 per cent of the seedling in Manitoba is finished three weeks ahead of any previous year. Demands for farm help for western Canada are insistent. The Mountain Lumber Association of British Columbia has vacancies for 1500 sawmill laborers, the wages for whom are often as high as \$3 a day. A record has been made at Halifax, N. S., by the arrival of over 6000 immigrants in 24 hours. C. M. Hayes, president of the Grand Trunk Pacific Railway Company of Canada, states that a transpacific steamship service from Prince Rupert, B. C., to the far east, will be inaugurated by that company in 1913. The Canadian Pacific Railway Company has placed an order with the Canada Car & Foundry Company for 1000 steel frame box cars for the fall grain movement.

## LEAGUE WILL AID ENGLISH YOUTHS

Representative of British Organization Visiting Canada in Interest of Boys Who Are Being Attracted There.

EDMONTON, Alberta.—Mrs. Ord Marshall, representing the League of the Empire, a British organization, is visiting Edmonton in the interest of a plan to bring young men to Canada, and to see that they are placed in good positions and surroundings. Committees have been appointed in all the large cities of eastern Canada to look after these English youths, and Mrs. Marshall is securing the cooperation of the provincial and educational authorities with the view of forming a similar committee in Edmonton. The object of the league is to establish an organized system under which the boys of the better class, who are now being attracted to Canada, will be able to secure good homes and positions, and their future welfare looked after. The scheme is enlisting the sympathy and interest of many public men, and has every promise of being carried out successfully.

## UNVEIL STATUE OF DR. JOHNSON

LONDON.—Princess Louise, Duchess of Argyll, will unveil today the statue of Dr. Johnson which is being erected on the small plot of green behind the apex of the famous church of St. Clement Dances in the Strand. Percy Fitzgerald is the sculptor, having also executed the statue of Boswell at Lichfield, and edited Boswell's "Life." The statue is to represent the doctor dressed in the traditional costume, with a full bottomed wig, after one of Reynolds' portraits.

## TO LAY NEW CABLE

LONDON.—An additional cable is to be laid between England and Belgium, starting from St. Margaret's bay in England and terminating at La Panne, near Ostend, the distance being about 67 miles. The cable is to include four lines of wire, or two complete circuits.

## DISCUSS KONGO FRONTIER

BRUSSELS.—Negotiations between Great Britain, Germany and Belgium with regard to the eastern frontier of the Kongo have been resumed, but it is not expected that a settlement will be arrived at under a month.

## Mexico's Annual Flower Festival Opens Tomorrow

(Photo by C. B. Walte.) THE FESTIVAL PARADE. Photo taken as troops were passing national palace, Mexico City, last year, which will be repeated tomorrow.

(Special to The Monitor.) MEXICO CITY.—Mexico is truly the land of flowers, and for centuries they have been cultivated in profusion and enjoyed by all classes, high as well as low. The Spanish conquerors found that the Aztecs employed them in their many festivals and it is not to be wondered at, therefore, that in these later days we still find them used in many different ways, one of the most pleasing of which is "El Combate de Flores," the Battle of Flowers. This custom was inaugurated many years ago in the City of Mexico; it is the festival of spring and is celebrated here each year during the first days of May, and the event which was postponed on account of the inability of Mexico's President to be in attendance, opens tomorrow. It is along the same general lines observed in Nice and Florence, and in Los Angeles, Cal. Like many other customs, this festival is not now the sumptuous affair it was some 20 years ago, when the wealthy people vied with each other to see who should have the most beautifully decorated carriage and finest horses. The profusion of flowers of every description was noticeable and considerable artistic taste was displayed in the disposition of the blossoms both on the carriages as well as on the horses. Today the handsome equipage drawn by proud and prancing horses has been replaced in large measure by the automobile. While the premiums are still the same, the spirit of commercialism has entered and a demand has recently been made for money prizes.

## GOVERNMENT LETS CONTRACT FOR NEW COLLEGE BUILDINGS

(Special to The Monitor.) REGINA, Saskatchewan.—The provincial government has approved the tender for the erection of the university buildings, as accepted by the board of governors, at a cost of \$900,000. The buildings will consist of the main college, students' residence, agricultural-engineering building, stock pavilion, etc., the whole to be completed in 1911. The design will be collegiate gothic.

## PARLIAMENT PRESENTS ITS FAREWELL ADDRESS

(Special Correspondence of The Monitor.) OTTAWA, Ont.—The prorogation of Parliament took place Wednesday and was an unusually impressive ceremony, owing to the fact that the term of the present Governor-General expires this year, and therefore the two houses presented his excellency with a farewell address, expressing unanimous and unstinted satisfaction and appreciation for the services which he has rendered in the Dominion. The address was adopted in the Commons some days ago, and the accompanying remarks of the leaders of the government and of the opposition having been published, the legislators today had the satisfaction of knowing by return cable, that their attitude toward Earl Gray's work had been favorably commented upon in the mother country, where efforts had been made by a "former Canadian" to misrepresent his methods during certain political situations in the Dominion. Immediately after the formal prorogation ceremonies including the closing speech from the throne, the bar of the Senate was removed, and "the commons" moved forward to the floor of the "red chamber" for the ceremony of the presentation. The speaker of the Senate, Hon. J. K. Kerr, took his place to the right of the throne; Hon. Charles Maclellan, speaker of the Commons, going to the left and in the order named read the address, the one in English, the other in the French language, and his excellency replied in both languages.

## BANK OF FRANCE HELPS FARMERS

PARIS.—France is a country of peasant proprietors, the peasant and small trader being recognized as the backbone of this country's prosperity and wealth, both by the National Bank and by other financial institutions. During the year 1909 the number of bills discounted by the Banque de France was 7,507,528, the average value of each bill being £575, and the average length of time for which the bills ran being 22 days. The total number of bills of the value of £100 and under was 3,061,826, the majority of the clients of the bank being agriculturists and small traders. It is largely due to the policy pursued by the Bank of France that these small agriculturists have been so successful, and the results are evidently satisfactory to the bank, for it paid its shareholders a dividend at the rate of 14 per cent, free from tax.

## FOREIGNERS MAY STUDY CLASSICS AT PEKING UNIVERSITY

(Special to The Monitor.) LONDON.—The board of education has, according to the statement published in the Times, received from the foreign office the copy of a memorial with regard to the admission of foreigners to the courses of ancient Chinese classics at the University of Peking. The memorial says: "Since our board of education has assumed the work of laying down courses of study in the university, the question has been advanced to us repeatedly by foreigners as to whether they are eligible to undergo these courses. We would submit that at the present time the number of Chinese studying abroad is very considerable, and that China has now established a university where persons of foreign nationalities wish to study. From the point of view of studying our gratitude, to grant permission would strengthen friendly relations, while from the point of view of an interchange of learning, it would promote education in the best sense. The memorialists have considered the question, and it seems to them that, although it will be better to defer the consideration of the question of foreigners being admitted to the ordinary courses of the university, owing to the fact that now in their infancy these courses cannot have reached as high a standard as in other countries, the course on the ancient Chinese classics which is peculiar to China, should be open to persons of foreign nationality. Our board therefore proposes to prepare a short series of rules for this purpose, which we trust will be eminently satisfactory."

## REDUCED TARIFF CAUSE OF DEMAND FOR ALBERTA WHEAT

(Special to The Monitor.) VANCOUVER, B. C.—The A. B. C. (Alberta-British Columbia) grain route has become an accomplished fact, at least so far as Mexico is concerned, the reduction of the tariff on wheat in that country having caused a great demand for Alberta grain, thousands of tons having already been shipped to that country by way of this port, while more vessels are waiting for wheat than can be accommodated at one time. The Canadian-Mexican steamship line has recently been acquired by the A. B. C. Elevator & Wharf Company, a local concern that proposes the construction of elevators at Vancouver, New Westminster, and possibly at Prince Rupert, and will also build wharves, and a waterfront cold storage plant for perishable goods. The company intends caring for the Alberta grain traffic, for which purpose the steamship line has been acquired.

## WILL NOT ADOPT BRITISH METHOD

(Special to The Monitor.) BERLIN.—The proposal that the custom practised in the English Parliament, whereby members might address short questions to the government has been rejected by the Reichstag committee of procedure. According to the system in the Reichstag at present, the only means of reaching the imperial chancellor is by formal interpellation, which must be supported by 30 members.

## WANT NEW AFRICAN PARTY

BLOEMFONTEIN.—At the annual congress of the Orania Unie a resolution has been passed advocating the establishment of a United South African party, and empowering the central committee to take steps for holding a conference of friendly organizations, with a view to their amalgamation or alliance on a common platform.

## Silver Trays

and waiters. Sterling silver and plated on nickel silver. Largest and most desirable assortment in New England. SMITH PATTERSON CO. Wholesale and Retail, 22 Summer St., Boston.

This pen appeals to men because it goes flat in the lower vest pocket and won't leak

WOMEN LIKE IT Because It Goes In The Hand Bag In Any Position Without Leaking. I guarantee it the most cleanly pen yet invented. # Leading Events in Athletic World Yale Meets Princeton

## YALE EXPECTS HARD CONTEST ON TRACK WITH TIGERS TODAY

Princeton Will Get Majority of Points on Track Which the Blue Expects to Offset in Field.

### PROBABLE WINNERS

NEW HAVEN, Conn.—Although somewhat weak in the sprints this year, Yale is confident of defeating Princeton in the annual dual track meet which takes place here today. Trainer John Mack of the Yale team thinks that his men will win by at least 10 points.

Yale has practically no one for the 100 and 200 yard dashes on whom she can rely to win a first or even a second place. C. P. Seymour, her best man, will not be able to run. However, the prospects are considerably improved by the announcement that G. Bleistein will take part. Although he has not as yet made a mark in Yale athletics, his presence will strengthen her chances in the sprints. J. S. Cooke should easily win the first for Princeton.

As Princeton is especially strong in all the track events she may possibly gain enough lead there to win the meet, and it is in the field events that Yale counts on winning most of her points, for she is confident of duplicating her record against the Tigers last year when she won every event.

With the possible exception of the hurdles, in which Chisholm will run, and the half-mile with J. Kirjasoff, Princeton will lead in all the track events. In the field Yale apparently will have an easy time. Conroy, Andrus and Peabody all seem to be superior to the Princeton hammer throwers, while Kilpatrick should win first place in the shotput, although he is sure to be hard pressed by E. J. Hart, the Princeton football captain. Again, Kilpatrick will undoubtedly carry off first honors in the broad jump. Both Captain Nelson and R. A. Gardner are sure point winners in the pole vault with first and second places, and Canfield, Yale's high jumper, should win his event.

Yale defeated Princeton in the dual meet last spring 68-46, having won all but one point in the field events.

## YALE RUNS AWAY FROM VIRGINIA

NEW HAVEN, Conn.—Yale won Friday's game with Virginia, 13 to 1, giving Witmer, the visitors' pitcher, a continual hammering throughout the game. Merritt turned the trick of driving out a home run with the bases filled. His hit in the seventh inning rolled to the running track in left field and sent three base runners to the plate ahead of him. Tommers' hit in the eighth was nearly as long, netting three bases. Brown, who replaced Witmer in the ninth, scored the only run for Virginia on his single, two outs and a hit to shortstop by Fitchett.

Captain Logan of Yale figured in several difficult assists from his new position at shortstop, and Fitchett and Carter, although fielding unevenly, showed dashes of fielding brilliancy. The Virginians clearly showed the strain of playing daily since they started on their northern trip last week.

The score:  
Innings..... 123456789 R.H.E.  
Yale..... 13 0 0 0 0 0 0 0 0 13 11  
Virginia..... 0 0 0 0 0 0 0 0 0 1 6 7  
Batteries: Tommers and Carhart; Witmer and Tomlinson, Roan. Umpire, Beecher.

## PHILADELPHIA HAS INCREASED LEAD

Defeats Washington, While Detroit Loses to Chicago—New York and Cleveland Win.

AMERICAN LEAGUE STANDING.

Washington..... 0 0 0 0 1 1 0 0 0 7 2 2  
Batteries: Kraus and Thomas; Johnson and Street. Umpires, Dineen and Connolly.

**CHICAGO SHUTS OUT DETROIT.**  
DETROIT, Mich.—In the Chicago-Detroit game here Friday afternoon, Young and Lelivelt each started a game for the first time this season, and the Chicago team won a shut-out game, 4 to 0. Lelivelt was badly supported. Tannehill's fielding featured the game. Detroit made three double plays. The score:  
Innings..... 123456789 R.H.E.  
Chicago..... 0 0 2 0 0 0 0 0 0 4 12 0  
Detroit..... 0 0 0 0 0 0 0 0 0 7 4 2  
Batteries: Young and Block; Lelivelt and Stange. Umpires, O'Laughlin and Ferrine.

**NEW YORK OUTPLAYS BOSTON.**  
On the Huntington avenue grounds Friday afternoon, the New York Americans won from the home team by a score of 11 to 0. Not a base was stolen by Boston and but one sacrifice hit was made. Hooper's error was a costly one. In a word, Boston was outplayed at every turn. The score:  
Innings..... 123456789 R.H.E.  
New York..... 0 0 0 0 0 0 0 0 0 11 10 1  
Boston..... 0 0 0 0 0 0 0 0 0 7 2 2  
Batteries: Frill and Mitchell; Karger, Hall and Barberich, Carrigan. Umpires, Egan and Evans.

**CLEVELAND TAKES CLOSE GAME.**  
CLEVELAND, O.—The Cleveland Americans defeated St. Louis again Friday afternoon, 4 to 3. St. Louis took the lead in the fourth, but Cleveland went to the front in the fifth. With two out Turner tripled with the bases filled, Lajoie followed with a single, four runs being the result. Link's wildness almost enabled St. Louis to tie the score in the ninth. The score:  
Innings..... 123456789 R.H.E.  
Cleveland..... 0 0 0 0 0 0 0 0 4 8 2 2  
St. Louis..... 0 0 0 0 1 0 0 0 1 13 11 1  
Batteries: Berger, Link and Bemis; Kinsella, Peity and Killifer, Stephens. Umpires, Kerin and Sheridan.

**HARVARD GOLFERS AT FALL RIVER.**  
The Harvard University golf team will meet the Fall River Golf Club team in an 18-hole match at the latter's links at Fall River this afternoon at 3 o'clock. This will be the second match of the season. Last Saturday the university team tied the Brookline Country Club, 3 matches to 3. The following men will represent the university: F. T. Clark '12, H. C. Clark '11, McK. Hollins '12, W. F. Morgan '11, P. M. Smith '11.

Yale-B. M. Merriam, captain, and an exceptionally good player; Mosser and Robert Hovey, the latter being captain of the all-Connecticut team, and Robert Jackson.

Rhode Island-Daniel Fairchild, champion of Rhode Island; Harold Congdon, champion of the Agawam Hunt; H. E. Kenworthy of Metacomet, H. B. Rust of the Wannamoisett club, N. S. Campbell and A. M. Coats of the Agawam Hunt, John Shepard, Jr., of Wannamoisett, G. M. Smith of Agawam Hunt, J. S. Kenyon of Metacomet, H. C. Mason of Metacomet, Howard D. Day of Wannamoisett, and A. W. Hancock of Metacomet, who is to be captain.

The contest, because of the fact that it will cover both nine-hole courses of the Agawam Hunt and the Metacomet Golf Club, thereby giving an 18-hole match, is one of the most interesting ever played in this city. No match has ever been played before over the two courses combined.

Play starts at the Metacomet club at 1 o'clock, and the regular layout will be followed through the fifth hole. The players will then walk cross-country half a mile to the links of the Agawam Hunt, and will play the entire nine holes there. Completing the round, they will return to the Metacomet club links and begin with hole 7 and the play in regular order.

The distances of the holes this season are as follows, in order of number: Metacomet Golf Club—385 yards, 280 yards, 360 yards, 280 yards, 485 yards, 615 yards, 125 yards, 345 yards and 925 yards. Total 3200 yards.

Agawam Hunt—510 yards, 260 yards, 280 yards, 460 yards, 360 yards, 370 yards, 130 yards, 350 yards, 500 yards. Total 3160 yards.

**SMITH PLAYS LOCKWOOD.**  
QUINCY, Mass.—P. M. Smith of Harvard meets A. G. Lockwood of the Allston Golf Club in the final round for the Wollaston cup this afternoon in the open tournament of the Wollaston Golf Club. These players won their way to the finals by defeating J. B. Hyland and N. F. Faunce, respectively.

**HARVARD BEATS HOBART.**  
The Harvard varsity lacrosse team opened its home intercollegiate championship season of 1910 Friday by defeating Hobart 8 to 1. This victory gives Harvard first place in the northern division.

## State Golf Champion

DANIEL FAIRCHILD.  
Rhode Island's premier golfer.

## YALE VARSITY GOLF IN NOVEL CONTEST WITH RHODE ISLAND

Match Will Be Played Over Links of Metacomet Golf and the Agawam Hunt Clubs.

PROVIDENCE, R. I.—For the first time in the history of golf in this state the Yale team came here today to play and also, for the first time, the nine hole courses of the Metacomet Golf Club and the Agawam Hunt will be combined for the playing of an 18-hole match. The team which will represent Rhode Island will be a strong one, composed of the state champion and the leading golfers of the state.

Yale's team will also be composed of exceptionally good players, and more interest is being shown in the coming year than at any other time in recent years. The play will begin at 1 o'clock, following luncheon at the Metacomet Golf Club. The teams will be made up as follows:

Yale-B. M. Merriam, captain, and an exceptionally good player; Mosser and Robert Hovey, the latter being captain of the all-Connecticut team, and Robert Jackson.

Rhode Island-Daniel Fairchild, champion of Rhode Island; Harold Congdon, champion of the Agawam Hunt; H. E. Kenworthy of Metacomet, H. B. Rust of the Wannamoisett club, N. S. Campbell and A. M. Coats of the Agawam Hunt, John Shepard, Jr., of Wannamoisett, G. M. Smith of Agawam Hunt, J. S. Kenyon of Metacomet, H. C. Mason of Metacomet, Howard D. Day of Wannamoisett, and A. W. Hancock of Metacomet, who is to be captain.

Brooklyn.....	5	13	.278

**Friday's Games.**  
Boston 8, Brooklyn 5.  
New York 3, Philadelphia 2.  
Pittsburg 6, Chicago 1.

**Games Today.**  
Boston at Brooklyn.  
Philadelphia at New York.  
Pittsburg at Chicago.  
Cincinnati at St. Louis.

The Boston Nationals won another game from Brooklyn Friday, the final score being 8 to 5. Pittsburg took a peculiar contest from Chicago, making but 4 hits which netted 6 runs despite the fact that Chicago did not make an error in the field. New York took another from Philadelphia, 4 to 3.

**BOSTON NATIONALS WIN.**  
BROOKLYN, N. Y.—The Boston Nationals smothered the Brooklyn in a loosely played game here Friday, the worst playing, however, being on the Brooklyn side. What made their game appear frail compared to Boston's was the fact that the latter hit the ball very much harder than the home team.

**ININGS.**..... 123456789 R.H.E.  
Boston..... 0 0 1 4 0 2 1 0 8 14 3 4  
Brooklyn..... 1 0 0 1 2 0 0 0 1 5 6 4  
Batteries: Curtis, Brown and Graham; Wilhelm, Dessau and Erwin. Umpires, Rigler and Moran.

**PITTSBURG DEFEATS CHICAGO.**  
CHICAGO—The Pittsburg Nationals defeated Chicago 6 to 1 in a wild game Friday afternoon. The winners made only four hits and the losers did not make a fielding error. Pittsburg bunched three hits, two sacrifice hits with a wild pitch, a hit batter and a base on balls for five runs in the fifth inning. Carson pitched effectively in the closing inning. The score:  
Innings..... 123456789 R.H.E.  
Pittsburg..... 0 0 1 0 5 0 0 0 6 4 1 2  
Chicago..... 0 0 0 0 0 0 0 0 1 5 0 0  
Batteries: Letfield and Gibson; McIntyre, Pfeiffer, Carson and Needham. Umpires, Klen and Kane.

**N. Y. NATIONALS TAKE GAME.**  
NEW YORK—The Philadelphia Nationals got twice as many hits off Mathewson Friday as New York did off Faxon, but the visitors were beaten 3 to 2. Three of the locals' safeties were bunched in the sixth inning, with an error by Titus, New York then making all its runs. The score:  
Innings..... 123456789 R.H.E.  
New York..... 0 0 0 0 0 0 0 0 3 4 2  
Philadelphia..... 0 0 0 0 0 0 0 0 2 8 1  
Batteries: Mathewson and Myers; McIntyre and Dooin. Umpires, Rigler and Ensign.

**YALE UNIVERSITY SPRING REGATTA COMES NEX TWEK**

NEW HAVEN, Conn.—Yale University will hold its annual spring regatta on Lake Whitney, May 14, and every effort is being made to promote one of the most successful events that has ever been held there.

Three class and club crews will compete; three from each of the upper classes, and four from the freshman class. It is expected that the races will be close for many of the crews are very evenly matched. The varsity crew will give an exhibition row, and there will be also a race between the first and second four-oars.

The class crews will move out to their quarters on the lake next Wednesday in order to become familiar with the course. The varsity crew will continue practice on the harbor until the day before the regatta.

**MANY COLLEGE TRACK MEETS**

Today will be a busy one for the track athletes of the larger eastern colleges as many dual meets have been scheduled to take place. While there is little doubt as to the outcome of most of them, they will serve to give most of the line on the most promising candidates for the leading places in the big intercollegiate meet to come the last of the month.

Yale meets Princeton at New Haven in what promises to be the most exciting meet of the day. The New Jersey team is strong on the track while Yale is superior in the field and while Yale expects to win, the contest is expected to be close.

Harvard meets Dartmouth at Cambridge and should win the meet handily. Both teams have lost some of their best point-winners, but the losses about offset each other.

Colby will meet Bates in Maine and another close battle is expected. Cornell meets Pennsylvania and the latter should win by a large margin. Technology and Wesleyan will face each other while Brown, Amherst and Williams will take part in a triangular meet which promises to be very exciting.

**KEELER GOES TO N. Y. NATIONALS.**  
Willie Keeler, right fielder for several years on the New York American league team, who was recently unconditionally released, signed Friday night with the New York Nationals and will accompany the team on their western trip.

**HARVARD BEATS HOBART.**  
The Harvard varsity lacrosse team opened its home intercollegiate championship season of 1910 Friday by defeating Hobart 8 to 1. This victory gives Harvard first place in the northern division.

**AMERICAN ASSOCIATION RESULTS.**  
Minneapolis 6, Toledo 2.  
Kansas City Indians, 2, St. Paul 4, Columbus 2.  
Milwaukee 3, Louisville 2.

## PHILLIPS ANDOVER FOOTBALL CAPTAIN IS LOST TO ELEVEN

C. W. Fletcher, Who Was Suspended for Six Weeks, Will Not Return to the Academy.

**TWO CANDIDATES**

ANDOVER, Mass.—It was definitely announced this morning that C. W. Fletcher, captain of the Phillips Andover football team for 1910 will not return to school and that a successor will be chosen by the members of the squad in a short time.

Fletcher was suspended from school about six weeks ago for cutting too many recitations. There have since developed other reasons why he will not be able to return. He played on the teams of 1908 and 1909 and his absence will be felt next fall.

The captaincy for the coming season now rests between R. S. Porter and F. A. Large. Porter has played fullback on the team for two years and it was his drop-kick in the 1909 game that won that contest for Andover by a score of 3 to 0. He is popular in school circles and is expected to receive the honor.

F. A. Large, center and captain last year, and who was expected to graduate this June will return to the school next fall and again be eligible to play. It is thought by some members of the 1909 team that he will be named to lead the eleven next fall; if not, the choice is sure to fall to Porter.

**LYTLE CAPTURES FIFTY-MILE RACE**

ATLANTA, Ga.—Herbert Lytle won the 50 mile free-for-all race at the speedway here Friday in an American car, only one second and a fraction separating his car and the National, with Kincaid at the wheel, at the finish. But that he had to stop for a tire, consuming three minutes thereby, he would have broken the world's track record for the distance. His time was 40m. 20.02s.

Ray Harroun, in a Marmon, won in the 12-mile free-for-all in 9m. 2.48s.

**SHOOTING TEAMS MEET TODAY.**  
The Harvard University shooting team meets Dartmouth at the Soldiers field traps at 2 o'clock this afternoon. The teams will be composed of five men, who will each shoot at 50 birds in strings of 25, thrown at unknown angles. The university team will be made up of C. L. Haultsway '10, J. Heard '12, B. M. Higgins '10, S. Mixer '12, C. F. Morse '10.

## RATIONAL GOLF

By Jason Rogers.

Only a few days ago I had the pleasure of witnessing an exhibition of golf which very emphatically shows the error of the average person taking up the game, in thinking that long driving is the principal thing to be desired. It happened at the links of the Montclair Golf Club recently when Allan Kennaday, who a few years ago was a great favorite locally and brought great credit to the club in winning the New Jersey championship and other events, returned for a round of the old links after a three years' stay in New Zealand.

Kennaday had played but three games in the

## Forging Chains for Warships

Interesting process at Charlestown navy yard foundry is described.

MACHINE THAT BENDS THE LINKS.

Recent invention of Commander H. E. Parmenter, U. S. N., and built at Charlestown navy yard under his supervision.

CHAIN foundrymen are about the hardest in the country to discipline," said F. M. Kelley, superintendent of the chain and anchor works at the Charlestown navy yard, today. "But we work under different conditions here at the yard," he continued, "and there is very little friction." Mr. Kelley attributed this in some degree to the fact that all races of men are thrown in together, Englishmen, Germans, Swedes and Irishmen working side by side with Americans.

The average chainmaker gets about \$8 a day. He works from 8 o'clock in the morning continuously until 4 o'clock in the afternoon, taking his lunch between "beats."

According to Captain Bird, chief of the engineering division at the yard, under which the chain works fall, Mr. Kelley probably knows more about the making of chains and anchors than any man in the United States.

A visit to the shops is most interesting. The first step in making the heavy chain used on board the ships of our navy is to cut the muck-bars into lengths of about two feet by means of alligator shears. Bundles of 25 of these short pieces are then wired together, picked up with crane-tongs and swung into the huge furnaces. From the furnaces they are carried white-hot to the rollers and converted into bars of the required size.

During the rolling operation which, by the way, is a beautiful fireworks exhibition, two men stand on each side of the rollers, which are made with a set of grooves which break down the hot metal as it is fed in, and three or four smaller sets leading down to the finishing grooves, which are the size of the finished bar.

A third set of men haul the white-hot billet from the furnace, and with crane-tongs rush it to the breaking-down rollers.

The hardest part of the rolling is to start the billet through the first set of grooves successfully. Because of this difficulty, the first set is made with short cleat-like teeth, through which the metal is sent without much trouble.

As the metal is passed through the

smaller grooves, it is, of course, stretched to greater length, and after the last set has been passed the bar is 10 feet long, and the time has been so short that the iron is still at a bright red heat.

After the bar is passed through the rollers it is run through the hot-saw, which cuts the bars into the proper lengths for the links. The saw is set at such an angle that the proper level is given for the scarf, an essential to welding. Here there is another fireworks display, the sparks shooting out 10 feet or more.

The next step in the process of chain making is the bending machine, which makes the links in a fraction of the time that was necessary when this work was done by hand.

Beside the saving of time, the links are better formed than by the old-fashioned method. This machine is a recent invention of Commander H. E. Parmenter, and was made at the Charlestown navy yard shops under his supervision. In the welding room there are about a dozen fires, each one with its gang for welding the links. At the side of each fire there is a constantly growing chain of welded links.

Four blacksmiths stand around the white-hot chain when it comes from these fires and swing their heavy sledges with wonderful precision, hitting the scarf with exactly the desired force. The work is done with remarkable rapidity. For some of the chain a welding machine is used, but most of the work is done as described above.

After welding a stud is placed in the center of the link and the sides of the link closed in upon it, holding it firmly in place. This, of course, is to relieve the enormous strain to which the chain is sure to be subjected, and also prevents it from catching and kinking while in the hold of a battleship.

Three links are always cut out and tested by the inspector, for the greatest care is exercised to prevent the possibility of defective chains being sent to the ships of the navy.

The capacity of the foundry is about 300 feet of chain a day.

## ANGLO-SAXON PEACE LEAGUE IS BROACHED AT OTTAWA DINNER

Sir Richard Cartwright, at a Complimentary Banquet, Says Canada Would Be Important in It.

### SYMPATHY GROWING

OTTAWA, Ont.—From a veteran Canadian parliamentarian there has come a public expression of his desire and hope that Canada may be the means of uniting in one peace-impressing compact of friendship, the two great sections of the English-speaking peoples.

This parliamentarian is Sir Richard Cartwright, who commenced his political career in 1863. Since confederation he has followed the vicissitudes of his party "in power" or "in opposition" until now he holds the position of leader of the government in the Senate.

At the end of last week he was tendered a complimentary banquet by fellow members of the Senate at which prominent members of the opposition were present together with those of his own party (Liberal). Sir Richard's remarks in response to the toast, were not confined to home matters, but after a brief reference to the history of Dominion affairs with which his long experience has familiarized him, he directed his attention to larger interests.

Strongly evidencing the Canadian sentiment against war, he spoke of a possible amalgamation of the British empire and the United States which he considered would so affect the policies of the world as to relegate to the past the fear of war among civilized nations. Such an amalgamation he commended to Canadians as an ideal worthy and possible of attainment, and because of the position which Canada holds between these two other great sections of the Anglo-Saxon race, he pointed out that Canadians can better appreciate Great Britain and the United States than can any other people, and because of this can reasonably hope to become a leading element in the desired alliance.

From his position in Canadian parliamentary life Sir Richard "has been an attentive student of United States diplomacy and general tendencies," and he spoke of his conviction that a great change has taken place in its attitude toward Great Britain; a striking evidence of greater sympathy toward the empire was given during the South African war, when the refraining from criticism of England in Congress and in legislatures did more for the empire than superficial onlookers could appreciate. A reverse attitude could not have failed at that time to prolong that conflict—involve both sides in greater loss—and militate against the subsequent readjustments in which Britain has necessarily taken an active part.

## SAN DIEGO SCHOOL READY NEXT FALL

Fine New Fifty-Thousand-Dollar Training Building Is Completed for State Normal School.

SAN DIEGO, Cal.—The new \$50,000 training school building of the San Diego State Normal school has been completed, and will be ready for use when the fall term opens.

The structure is of reinforced concrete and contains 22 rooms. It occupies a position on the school campus north of the main building, and is an attractive addition to the school property. There are 16 classrooms, four teachers' offices and two assembly rooms, used also for library purpose.

The building will accommodate 350 grammar and primary pupils. The classes will be taught by senior normal school students, under immediate personal direction of expert normal school professors. The equipment is ample and of the most modern type. The instruction will include, beside the usual branches, cooking, sewing and millinery for the girls, and manual training for the boys, together with gardening and elementary agriculture for both boys and girls.

The building is equipped with a steam heating plant and perfect system of ventilation, and is electrically lighted. Last year a summer session was held in the local school instead of at San Jose, and this summer another session will be held here, as the San Jose school is making repairs.

## CHANCELLOR DAY SPEAKS IN BOSTON

The alumni association of Syracuse university held its sixth annual dinner at the Hotel Somerset Friday evening, when Chancellor James R. Day of the university told of the growth of the university in number of students, acreage and buildings, and paid a tribute to King Edward. Among those present were the Rev. Dr. Daniel Steel, first president, the Rev. William E. Huntington, president of Boston University, and Prof. William E. Ward of Emerson College.

The Rev. William Harman van Allen was toastmaster. The other speakers were Prof. Judson B. Coit of Boston University and F. W. Farrington; Miss Imogene Conland '01 spoke for the women graduates.

Colors blue, pink, lavender

## CANAL DIGGERS PROGRESSING SWIFTLY WITH EXCAVATION

March Total Was 3,067,479 Cubic Yards Which Was Increase Over February and One Shovel Establishes Record for Day's Work and Month's Work in Period

ANCON, Canal Zone.—Progress on the work of digging the canal continues with encouraging celerity. The grand total of excavation accomplished in all the divisions for the month of March was 3,067,479 cubic yards, which was 476,750 cubic yards more than the total for February. Of the March total only 19,294 yards were chargeable to "plant" excavation, the remainder counting toward the completion of the canal. The dry excavation amounted to 2,178,618 cubic yards and was accomplished chiefly by means of steam shovels, although the dredges removed 888,861 cubic yards in addition to the amount pumped into the Gatun dam by means of suction dredges.

All excavation records were broken in the Central Division, the total excavation being 1,994,574 cubic yards, which was 448,307 yards more than during the preceding month, and only 22,144 less than in March, 1909, when the maximum excavation was reached. Of this 1,994,574, some 711,908 yards were classified as earth and 1,282,666 as rock.

In the Atlantic division excavation amounted to 549,439 cubic yards, or 91,251 yards less than in February. Of this total 136,507 yards were dry excavation and the remainder was removed by the dredges in the Atlantic entrance.

Total excavation in the Pacific division was 523,466 cubic yards, all but 52,287 yards of which was taken by the dredges out of the Pacific entrance.

The highest record made in the central division was by shovel 213, in the Culebra district, working 26 days, and excavating 70,299 cubic yards of soft

rock. This is the highest month's record since the work began. The second best record for the month was made by shovel 223, working 26 days, also in the Culebra district, excavating 59,541 cubic yards of rock. Shovel 213 in the Culebra district, likewise made the highest record for one day—which also stands as the record for one day in the isthmus—by excavating 4823 cubic yards of soft rock, place measurement, March 22. Shovel 122, in the Bas Obispo district, excavated 1780 cubic yards of earth March 29, this being the best one day's record for a 70 ton shovel during the month.

The average number of steam shovels working in the Culebra district in March was 1673, and during the 26 working days of the month they excavated 741,504 cubic yards, place measurement, an average of 1704.8 cubic yards per shovel per day of eight hours, and of 44,322 cubic yards per shovel for the month. The average amount of excavation per shovel per hour while actually at work was 289.1 cubic yards. This is the highest record for an equal number of shovels since operations were begun by the United States.

### WASHINGTON ARCHITECT NAMED.

WASHINGTON.—The projectors of the city beautiful have secured an artist whom they believe will execute the plans of the park commission for the development of the national capital along esthetic lines. Secretary Dickinson has appointed George E. Burnap of New York as "landscape architect."

## PRESIDENT ASSUMES LEADERSHIP TO HELP SAVE RAILROAD BILL

WASHINGTON—With the return of President Taft the Republican panic over the railroad bill has become a fight led by Mr. Taft. The boldest sort of front was put on by the President and he became really truculent.

The Senate today apparently is tied on the railroad bill.

After conferences between the President and Senators Crane of Massachusetts, Elkins of West Virginia and Root of New York, and following a more than usually extended cabinet meeting, it was announced by the closest adviser of the President on this legislation that the situation had improved, that the President would accept the bill with the elimination of sections 7 and 12 and that Senator Crane had read off to the President the names of 45 Republican senators who, he asserted, would support the bill and protect the integrity of the Republican organization in the Senate.

This count of 45 Republican votes really means that the bill will have what might be termed a "close shave," unless the President is able to get a few more votes.

The line-up in the Senate on the railroad bill is as follows:

For the bill—"regular" senators: Messrs. Aldrich, R. I.; Bradley, Ky.; Brandegee, Conn.; Briggs, N. J.; Bulkeley, Conn.; Burnham, N. H.; Burrows, Mich.; Burton, O.; Carter, Mont.; Clark, Wyo.; Crane, Mass.; Cullom, Ill.; Curtis, Kans.; Depew, N. Y.; Dick, O.; Dillingham, Vt.; Du Pont, Del.; Elkins, W. Va.; Flint, Cal.; Frye, Me.; Gallinger, N. H.; Guggenheim, Cal.; Hale, Me.; Heyburn, Ida.; Jones, Wash.; Kenn, N. J.; Lodge, Mass.; Lorimer, Ill.; McCumber, N. D.; Nixon, Nev.; Oliver, Pa.; Page, Vt.; Penrose, Pa.; Perkins, Cal.; Piles, Wash.; Richardson, Del.; Root, N. Y.; Scott, W. Va.; Smith, Mich.; Smoot, Utah; Stephenson, Wis.; Sutherland, Utah; Warner, Mo.; Warren, Wyo.; Wetmore, R. I. Total, 45.

Mr. Smith of Michigan is not pledged and Senator McCumber is absent, reducing the known strength to 43.

Against the bill—insurgent senators: Messrs. Bristow, Kan.; Beveridge, Ind.; Burkett, Neb.; Borah, Ida.; Chapp, Minn.; Cummins, Ia.; Crawford, S. D.; Dixon, Mont.; Doolittle, Ia.; Gamble, S. D.; La Follette, Wis.; Nelson, Minn. Total known insurgents, 12.

Against the bill—Democrats: Messrs. Bacon, Ga.; Bailey, Tex.; Bankhead, Ala.; Chamberlain, Ore.; Clay, Ga.; Culberson, Tex.; Clark, Ark.; Daniel, Va.; Davis, Ark.; Fletcher, Fla.; Foster, La.; Frazier, Tenn.; Gore, Okla.; Hughes, Cal.; Johnston, Ala.; McHenry, La.; Martin, Va.; Money, Miss.; Newlands, Nev.; Overman, N. C.; Owen, Okla.; Paynter, Ky.; Percy, Miss.; Purcell, N. D.; Rayner, Md.; Shively, Ind.; Simmons, N. C.; Smith, S. C.; Smith, Md.; Stone, Mo.; Taliaferro, Fla.; Taylor, Tenn.; Tillman, S. C. Total, 33.

Senators Tillman and Daniel may not return to vote at this session, making the Democratic total 31.

Grand total against bill, 43.

Not placed Republicans: Messrs. Brown, Neb.; Bourne, Ore. Total, 2.

The House will take a final vote Tuesday on the bill. By the close margin of 131 to 128, on motion of Mr. Adamson of Georgia, a Democrat, the House struck out section 12, known as the merger section. Under its provisions, one railroad owning 50 per cent of the stock of another railroad would have been permitted to purchase the remainder. It shared the fate of the traffic-agreement section, which was stricken out several days ago. Neither of these sections is now a part of the railroad measure in either the House or Senate.

## BOSTON TO HEAR A POPULAR OPERA

Balfe's opera, "The Bohemian Girl," is to be presented upon an elaborate scale next Monday night by the Aborn English-Grand Opera Company at the Boston Opera house.

"The Bohemian Girl" has not been presented in Boston for some time, and therefore will be attractive to many of the younger generation who have heard and admired the old melodies of this opera without having witnessed its presentation as a whole. A new American prima donna, Miss Rena Vivienne, will be heard for the first time in Boston, in the role of Arline. Others in the cast will be Louise Leblanc, John Dunmore, Paul Blyden, Philip Branson, Otley Cranston and Florence Goughlan. J. K. Murray will not sing, as has been announced, but will be replaced by Arthur Cunningham.

### Today's Navy Orders

The following navy orders were posted today at the Charlestown navy yard: Lieut. J. D. Little, from the battleship Rhode Island and wait orders; Lieut. C. L. Hand, to Mare Island, Cal.; Lieut. F. Rorschach, granted leave three months; Lieut. R. F. Zogbaum, Jr., to temporary duty as assistant to the supervisor of the harbor, New York; Ensign W. E. Reno, granted leave three months.

## THREE NEW ENGLAND PEACE WORKERS

Congress opens at Hartford, Conn., tomorrow and many addresses will be given during session.

MEN WHO WILL TAKE PART IN HARTFORD PEACE CONGRESS.

Left to right—President John M. Baldwin of Middlebury (Vt.) College, a speaker during the session; Simeon E. Baldwin, former chief justice of the supreme court of Connecticut; Arthur Deerin Call of Hartford, president of Connecticut Peace Society and chairman of the executive committee of the New England Arbitration and Peace Congress.

Four delegates from the Massachusetts State Board of Trade leave Boston today to attend the New England arbitration and peace congress at Hartford and New Britain, Conn., May 8 to 11, inclusive. The delegates are: President Loyd E. Chamberlain of Brockton, Vice-President Walstein R. Chester of Boston, Vice-President John H. Corcoran of Cambridge and Secretary Richard L. Gay of Boston.

The congress is held under the auspices of the American Peace Society and the Connecticut Peace Society. The congress opens tomorrow at 10:30 o'clock with special peace services in the churches of Hartford, New Britain and vicinity, addresses being given by pastors or visiting delegates.

In the afternoon there is to be a mass meeting in Foot Guard hall, Hartford. The Rev. Rockwell Harmon Potter presided. There will be music and singing. John Brown Lennon, treasurer of the American Federation of Labor, Bloomington, Ill., will deliver an address, "The Strike of the Worker in International Peace." Charles E. Beals, field secretary of the American Peace Society, Chicago, will talk on "The Workman and the Gun."

In the evening a general peace meeting occurs in Parsons theater, Hartford. Bishop Chamney R. Brewster of Connecticut presiding. The Rev. Joseph H. Twichell of Hartford will offer prayer. The Girls' Glee Club of the Hartford public high school furnishes music. The Rev. Samuel M. Crothers of Boston will address the meeting on "The Heroism of Peace." The Rev. Edwin P. Parker of Hartford will recite a peace poem and the Rev. G. Glenn Atkins of Providence, R. I., will talk on "The Cost of Peace."

At New Britain, Hamilton Holt, managing editor of the Independent, New York, will give a stereoscopic lecture on "The Federation of the World."

## BOTH SIDES IN MILK CONTROVERSY MAKE READY FOR HEARING

The milk contractors of Boston and milk producers throughout New England and New York state who supply the Boston market today are making preparations for the hearing on the milk controversy to be held before a joint legislative committee at the State House beginning Monday afternoon.

The producers' side of the question will be considered first. Representatives of the different milk producing regions will appear to tell why conditions in their particular district warrant the demand of the producers for higher prices during the four summer months. Secretary Walter A. Hunter of the producers' association today is notifying the producers of the hearing and requesting them to be at the State House Monday afternoon.

The contractors are not opposed to the investigation, several of them even welcoming it. They are unanimous, however, in demanding that the investigation include the production, marketing and consumption of milk in all its phases and that the situation be considered from the point of view of the consumer as well as the producer and contractor.

According to statements made by all the big contractors of the city, there is enough milk coming to Boston daily to supply all needs. The producers, meanwhile, are perfecting their organization, pledging more New England farmers to withhold their milk from the Boston market and seeking to stop its shipment from New York state.

All of the contractors agree today in saying that the situation has not materially changed.

### JURY RETURNS TRUE BILLS.

A number of indictments and no bills were returned by the grand jury in the superior court today before Judge Wait.

## REAL ESTATE NEWS

Second Tremont street parcel to be acquired within a short time by the Boston Real Estate Trust. The total valuation is \$474,000, but the selling price was above that figure.

A transaction that will mean much to the city of Cambridge, to Boston and indirectly to surrounding towns is the sale just made to a big shoe manufacturing concern of a tract of 30,000 square feet of land on Lansdowne street, near Massachusetts avenue, Cambridge. Frederick J. Anglin et al., trustees, sell to the Cambridge Building Trust, which has leased the property to the shoe company for a term of 20 years. A five-story reinforced concrete factory, thoroughly up to date in every particular, with a total floor space of 80,000 square feet, will immediately be constructed on the site. The building will cost upwards of \$100,000 and will employ at least 1,500 hands, with an annual payroll of \$1,000,000. The brokers in the transfer were F. W. Norris & Co., Cambridge.

The parcel just sold is a part of the huge tract of 600,000 square feet, formerly used as the Charles river bicycle track, upon which many famous riders have raced. This land is now owned privately, and is one of the largest vacant tracts thus held in the metropolitan district. Several other large deals involving land in this plot are under way and it is destined to become one of the greatest business centers of the University city.

The invasion of the shoe trade into Cambridge marks a new epoch for that city and the situation which this concern has acquired is decidedly advantageous for shipping its products to the West, and in fact to all parts of the country. The new factory will be within a short distance of the Grand Junction railroad, to which a spur track will be laid, thus affording direct transportation to the main railroad lines radiating from Boston. A distinct advantage which Cambridge has over Lynn, the present shoe city, and even Boston itself is that a whole day may be saved in shipping by the use of the Grand Junction railroad from factory to main line. From the point where the Grand Junction railroad joins with the main line of the railroad to the city of Boston no freight is at present allowed to pass over the tracks between the hours of 11 o'clock at night and 5 o'clock in the morning on account of the vast amount of passenger traffic. Facilities whereby a concern may get its product started on its way to its destination four or five times a day mean much to that concern.

The real estate phase of the transaction is in itself very important. The hands employed at the factory must have homes, which would tend to stimulate building, renting and purchasing of houses, not only in Cambridge but in suburban towns. The new factory will be located almost at the junction of Main street leading to and from the North station and a 12-minute running time from the Park street subway station, which will be cut almost in half on the completion of the new Cambridge subway.

This week has been a big one in the local real estate market. Trading has been active and the total amount of business transacted as represented by the assessed valuations of the properties changing hands is large. A feature of the week's dealings was the sale of the building shown in the accompanying illustration, numbered 174 and 175 Tremont street, valued at nearly half a million dollars. The Back Bay and South End have been active this week and business in general has been well distributed. About \$2,000,000 worth of property in the business section of the city is said to be under negotiation for sale at the present time.

### LATE SALES IN THE CITY.

J. Sumner Draper and Mark Temple Dowling have purchased from the Massachusetts Hospital Life Insurance Company the four-story brick mercantile building and 2055 feet of lands numbered 27 and 28 Dock square, in the market district. The property is assessed on a valuation of \$141,000, of which \$128,200 is the rating on the land. C. W. Whit-tier & Bro. were the brokers. An up-to-date fireproof business structure is to replace the old building.

Agreements have been signed for the sale of the two brick buildings and a frame structure and 13,352 feet of land numbered 203 to 205 Essex street, running through to 8 to 16 East street, South End, by R. S. Minot and others, trustees, to Thomas G. Washburn. The assessors value the property at \$255,300, of which \$240,300 is the rating on the land. Freeman & Lawrence were the brokers.

Another property under agreement of sale is the four-story stone front building numbered 35 and 37 Commercial street, taxed on a valuation of \$97,500, of which \$77,500 is on the land. It is owned by William E. Butterfield and others. Charles E. Merrill takes title for the actual buyers.

The estate at 43 West Cedar street, Beacon hill, has been sold by Emmeline M. Sprague, executrix, for Elizabeth B. Winslow to William C. Codman, who buys for investment. There are 1170 square feet of land assessed for \$4100 and a brick dwelling assessed for \$4000 making a total of \$8700. Codman & Street were the brokers.

Through the office of Frederick L. McGowan, Devonshire building, Oscar B. Mowry and William H. Wellington, trustees under the will of Florence R. Hoffman, have sold the estate at 1074 Boylston street to Edwin F. Stevens. The property is assessed for \$17,000, of which \$11,000 is on the land. The purchase price was in excess of the assessed value.

A sale just made at vacant land in the Back Bay comprises six lots on Ab-

deen street, between Beacon street and the railroad tracks, George Gibson, trustee, conveying to Samuel Freudenberg, who will erect a number of brick apartment houses. There are about 11,446 square feet, taxed for \$12,400. The broker was David A. Yuill, Niles building.

### TRANSFER IN DORCHESTER.

Giles & Bosworth, 200 Washington street, Dorchester, report the sale of a single house located at 22 Greenwood street, Dorchester, to Bridget Tanguay, who buys to occupy. The property is assessed for \$3000.

### ASHCROFT HEIGHTS.

Through the office of E. E. Hubbard, Old South building, agreements have been signed for the purchase of 10,000 square feet of land on Circuit road, Ashcroft Heights, on which the buyer, whose name is withheld pending final papers, intends to build an attractive residence.

### WINTHROP TRANSACTION.

C. H. Lewis, 15 State street, has sold to Robert S. Sanderson of Brighton his four-apartment house at the corner of Hermon and Atlantic streets, Winthrop, with 4000 feet of land, the total assessment being \$8500. Mr. Lewis has several other deals pending in Winthrop.

### SALES BY E. T. HARRINGTON.

Winthrop. Deeds have gone to record conveying to Capt. W. H. Murrell of Winthrop, a tract of 31,367 square feet of land, assessed on \$4000, located at the corner of Buchanan and Bowdoin streets, Winthrop. The consideration was for cash. The grantors were Evelyn Tewksbury, Mary L. Loughe, Emma L. Knox, Frederick O. Tewksbury, all of Point Shirley, Winthrop, Hattie Tewksbury of Chelsea, Edwin Tewksbury of Medford, and William R. Tewksbury of Bryantville, Mass.

Arthur E. Northrop of Arlington has purchased lot 129, having 50.11 feet frontage on Massachusetts avenue and 108.09 feet frontage on Trowbridge street, containing 5322 square feet.

George A. Sawyer of Arlington has purchased lot 165, having 50 feet frontage on Trowbridge street and containing 5322 square feet.

James A. MacDonald of Cambridge has purchased lot 52, having 60 feet frontage on Marathon street and containing 5000 square feet.

### Roxbury Agreement.

John McCusker has agreed to sell his estate at 32 Fountain street, Roxbury, consisting of a wooden three-apartment house and lot of land containing 1579 square feet, all assessed on a valuation of \$5400. The purchaser is N. H. Finn.

### Everett Land.

W. P. Johnson has sold a lot of land on the southerly side of Central avenue, Everett, containing about 3500 square feet. J. F. Sanderson was the purchaser.

### Grozier Estate, Lexington.

George F. Reed of Lexington has purchased the estate at 5 Parker street, Lexington, which he is to improve and occupy. The property consists of a frame house of 11 rooms with all modern improvements and about 8000 square feet of land. Mary L. Grozier formerly owned and occupied as a home.

### Acton Farm.

The Hon. Luther Conant of Acton has sold his 23-acre farm situated on both sides of the road leading from Acton Center to Lake Nagog, upon which is a large two-story house. The purchaser was Charles T. Baxter of Boston, who has bought for a home.

### Marshfield Estate Sold.

G. Millard Ramsdell has sold his estate in Marshfield, located on Union street between two ponds. There is a house of eight rooms, with numerous outbuildings and one acre of land. Lillian S. Lambert of Somerville purchases.

### Important Deal in Bedford.

Roger W. Brown of Bedford has purchased a tract of land containing about 60 acres in the center of the town with a frontage of nearly half a mile on the railroad and where that distance on Spring street and Hartwell road. This is the most valuable tract for business and manufacturing purposes in this town. The sale was made for F. E. Cutler of Concord.

### Montserrat Land.

The trustees of the Prospect hill syndicate have sold lot 82 on the west side of Sherman street, near Essex street, Beverly, with a frontage of 50 feet and containing 5000 square feet; also lot 110 on the west side of Lowell street on the same tract containing 5000 square feet. Both lots were purchased by B. H. Moulton.

### Berlin Farm Sold.

The sale is reported of the farm of the late Russell Jones situated in the center of South Berlin on the road from Berlin to Northboro consisting of an attractive house, one of the best barns in town, and six acres of land. The sale was made to Martha D. Davis of Bolton for all cash.

### SPEAKERS AT BANQUET.

The principal speaker at the banquet of the Massachusetts real estate exchange, to be held at the Hotel Somerset, Monday evening, May 16, will be Gov. Eben S. Draper. Other speakers will be Mayor John F. Fitzgerald of Boston; Representative E. A. Bayley and ex-Representative Robert Lucie, who is at present chairman of the high cost of living commission. A large attendance of men prominent in all walks of life is expected.

### BUILDING NOTICES.

Notices of intention to construct, alter or repair buildings were posted in the office of the building commissioner in the city of Boston today as printed below.

2260 WASHINGTON ST.

## WELLESLEY SENIORS TONIGHT IN COMEDY OF 'FANDANGO LAND'

WELLESLEY, Mass.—An event of unusual interest will take place this evening in the Barn at Wellesley College. The senior class will present "Fandango Land," a musical comedy written and staged entirely by members of the class. In 1908 the first Wellesley operetta, "The Tonga Trip," was given by the seniors. This was such a great success that the whole college community gladly welcomed 1910's announcement that it would follow the example of its sister class.

The musical comedy this year has a good deal of dialogue in it. This, together with the words of the songs, was written by Miss Elizabeth Synder, author of 1910's freshman play, Miss Emma Hawkridge, editor of the Wellesley Magazine, and Miss Isadore Douglas. The 16 songs that are introduced were composed by Miss Edith Sweetser, Miss Sara Marshall, and Miss Margaret Wilbur.

The scene of the comedy is Panama. Robert Blandford, a young American engineer, while working for the government, has fallen deeply in love with Juana, a Spanish girl of noble family. His infatuation is so deep that he is only indifferent when he is informed by Sullivan, the foreman of the native workmen, that Senor Villacorta, the

father of Juana, is robbing the government of valuable nitrate under cover of the canal workings.

Furthermore, all action in the matter is delayed by the arrival of a yacht from Boston bringing Mrs. Lyman Van Dyke, an ardent suffragette, who immediately stirs up a strike among the natives. Kitty Kenilworth, a girl from the "Red Mill" company, also appears, and her love of excitement induces her to persuade Senor Villacorta to give an entertainment at his home for charity.

The second act opens with the entertainment in progress at the senior's home. A slight sketch entitled "What Every Woman Does Not Know," a parody on Miss Adams' play, "What Every Woman Knows," is very clever. After the guests depart, Blandford, who has come to realize his duty to the government, takes Senor Villacorta aside, and informs him that he knows of his theft, and that he will give him one half hour before he puts him under arrest. In that half hour the senior escapes. Juana, left behind by her father, finally yields to Blandford's protests to marry him, and the story ends with the party returning to Boston on the yacht of the suffragette.

Of the 16 songs in the comedy none is perhaps so catchy as the one sung by the girl from the Red Mill company, "A Suffragette Is Not My Idea of a Perfect Lady." A serenade sung by Fernand, a Spanish lover of Juana, is very beautiful.

Some very good chorus work and dancing is done by the 40 girls in the chorus. They appear as yacht girls, yacht men, native girls and native workmen.

The coach for the play has been Miss Agnes Gilson. She has been very successful, considering the large number in the cast and the short time—only two weeks—that has been spent in preparation.

The cast is as follows: Senor Villacorta, Elizabeth Nofsinger, Kansas City, Mo.; Robert Blandford, Belle Maps, Kansas City, Mo.; Sullivan, Grace Kilbourne, East Orange, N. J.; Captain Coy, Jeanette Vail, Wichita, Kan.; Fernand, Ruth Sapinsky, New Albany, Ind.; Alfonso, Jessie Neely, St. Marys, O.; Juana, Betty Barrow, Lexington, Ky.; Mrs. Lyman Van Dyke, Louise Whitaker, Cincinnati, O.; Kitty Kenilworth, Alice Leavitt, North Cambridge, Mass.

The Barnswallow committee that has had general charge has the following members: Fanny Loos, chairman; Ernestine Rhein, Marion McKinley, Ella Simons.

### MOLDERS MEET IN LAWRENCE.

LAWRENCE, Mass.—The annual convention of the New England branch of the International Ironmolders Union of America is in session here today.

# THOMAS GRAY MOST WIDELY LEARNED OF THE ENGLISH POETS

ONE of Gray's friends, writing of a particular episode in the personal history of the poet, says it was never fully explained, as "Gray never spoke out"; and this remark has been held applicable to his whole life and to his poetical work. There is a striking disproportion between his slender production and the vast amount which has been written about it.

That one conceded to be the most widely learned of the English poets should have written in all but 60 English poems, only 12 of which were published in his lifetime, has seemed to need explanation, and many have been the far-fetched theories put forth. The primary reason seems to have been temperamental, therefore the explanation is not to be found in the literary sterility of the period, nor in the environment, though those worked upon the foundation thus laid.

No doubt his excessive fastidiousness with his work had much to do with its small amount. He did not know how to slight it. His refined and pruned, sometimes discarding verses which would have been gems in the crown of lesser, but by no means despicable poets. More than once it came to pass that while he thus hounded over a theme, or corrected and polished what was written, another would enter upon the same or a similar field. When this occurred Gray ruthlessly flung aside the fruits of his own toil. That those to whom he thus yielded the field did less valuable work than his, he either did not see, or, seeing, he nevertheless shrank from anything that seemed like competition. His ideal of writing was that of the literary gentleman of the seventeenth century as opposed to what were called Grub street ways, and as contrasted with the present-day view of literature as a commercial commodity.

Altogether too much has been made of his melancholy. There was unquestionably something of this strain in his temperament and it probably lay partly and humor rich at the root of his small achievement, as compared with his great intellectual powers and his capacity for study. But his mental activity was constant, his vein of humor rich and genuine. His letters and journals sparkle with fine epigrams—he is playful, ridiculously satirical and indulges in mock heroics as delightful as they are unquotable, the spontaneous flashing out of fun which will not wear wrestling from his occasion. He writes slyly of his friend Mason—"We are all glad he is in orders, and no better than any of us."

He calls his "Ode on the Progress of Poetry," when urged to publish it, "a sipping of an author." When his property in Cornhill burned, thereby considerably reducing his already moderate income, he received the condolences of his friends jocosely, allowed them to console him with showers of opera tickets and old-fashioned cups of chocolate, and records that his stay in London, occasioned by his loss, was most amusing.

Moreover, to think of Gray as morose or sullen is to do injustice to a heart with great capacity for love and loving interest in others. He seems to have been unfitted for what have been called the stationary affections; but he sympathized with bride and bridegroom, father and mother in their joys and sorrows and he was eminent in his power to attract and hold friendship.

So that although much of a recluse, living studiously in his college chambers and at Peterhouse and Loved a Friend later at Pembroke, But Lived caring nothing for profane musing companion-ship, he loved a friend and was wistful, in a shy, almost feminine way, of affection.

His rooms, with mignonette in the window boxes, were simply furnished, but had a piano which often discoursed sweetly under his not unskillful hands, sometimes accompanied by "a small but very clear and pure voice." The walls were lined with books and the room also contained a valuable collection of manuscript music which he brought from Italy, and which was crowded with notes of his own. And was it a cold-hearted man who would later add to the furniture of a room like this a trunk containing his mother's dresses, and keep it there henceforth?

Matthew Arnold well disposes of the impression that Gray was a squeamish weakling, as has been lightly judged because of his reserve, his delicacy of taste in poetry, and his dislike of the rough ways of the Cambridge of his day.

Arnold brings together extracts from letters written by Gray's friends, some of his own age, others younger, who Strong Impulses expressed their debt Toward Gray for strong Higher Thoughts impulses toward high thought and moral endeavor, as well as advancement in literary culture, and there are many words of similar import to those of the master of Peterhouse: "The thoughts I have of him will last, and will be useful to me."

To these testimonies might have been added extracts from Gray's letters to the Swiss Bonstetten, his greatly younger friend, showing that character was to Gray the foundation of all worthy work and that nothing might be esteemed when it claimed to take the place of moral quality.

Thomas Gray was born in London in 1716. His father was what was called a money scrivener which Arnold translates—"he was on the Stock Exchange." Philip Gray was wealthy, but unpatriotic, and the poet was indebted to his mother's industry as a milliner, and to the kindness of her brother, a fellow of Pembroke, for his education, which was obtained at Eton and Peterhouse.

Cambridge. At Eton was formed the "quadruple alliance," a friendship between Gray, Horace Walpole, Thomas Ashton and Richard West, the last named a brilliant youth to whose memory Gray, a few years later, wrote an affectionate sonnet.

While at Cambridge Gray produced Latin odes, elegies and verses, still regarded as remarkable in an undergraduate, and a number of Latin epigrams so good that his friends were afraid to print them, their ludicrous satire being too keen and excellently aimed. Of these he took no care and they exist only in tradition.

When 23 he took the usual European tour in company with Horace Walpole, and as his guest.

Took European Tour With Friend

Few of those who traveled over the well worn route, then fashionable, took with them the taste and learning which Gray's letters and journal discover. The tour was fruitful also in prompting several of his finest Latin poems, especially the famous "Alcibiades."

The disagreement with Walpole which resulted in Gray's return to England alone, is another point in his life which has been brought into distorted proportions.

They were scarcely more than boys—the rather conceited son of a prime minister and the gentleman of humble position; and they were finding out that many points of sympathy did not constitute exact correspondence of thought and taste. The quarrel would have assumed no significance had the parties to it been less famous. The generosity with which Walpole took the whole blame upon himself is one of the pleasantest memories of his brilliant career and begets a conviction that the fault could scarcely have been so entirely his after all. But the breach once healed, their friendship continued unbroken and no words of praise are warmer or bear more evident marks of sincerity than those which Walpole unstintingly bestowed upon his friend's character and work.

The year 172 was one of Gray's few periods of inspiration. His sonnet to West revived that form of poetical expression, which, having been transplanted from Italy a century before, became in Milton's hand

—a trumpet, whence he blew Soul-animating strains."

Then there had been silence until Gray thus took it up, as the first of a splendid following. Besides the sonnet Gray's "Ode to Spring," his "Eton Ode" and the "Ode to Adversity" were all written in this year, before he was 26 years of age. It is also probable that the "Elegy" was then begun.

At this time Gray was living at Stoke with his widowed mother and her sister. Shortly after he presented himself at Cambridge, and in 1743 took his degree in civil law. Except for two years spent in London, to be near the British museum, Cambridge was always thereafter his home.

In several years following 1742 he wrote nothing and this time was spent in an exhaustive study of the literature of ancient Greece. It was a period in the history of the university when classical study was deplorably neglected, and Gray's recognition of the importance of cultivating Greek literature would have proved a boon to Cambridge had his power or desire to influence and mold been half equal to his genius for laborious study. As it was his several critical dissertations, his translations into Latin, his copious notes and indexes were never printed, though found complete as part of the vast amount of work he left.

In 1757 he was offered the post of poet laureate, but declined on account of the disrepute into which the office had fallen. To a correspondent he wrote, "I interest myself a little in the history of it and rather wish somebody may accept it that will retrieve the credit of the thing." It did not seem to occur to him that this would be a service he might render. He had no moral courage for public affairs, and he lacked beside a due estimate of his own ability; for, in personal character and eminent place as poet, he would have been one of the most illustrious of those so honored.

It was not many years before his desire to see the freshness of the poet's wreath restored was fulfilled, for Southey wore it, and Tennyson received it after Wordsworth.

"This laurel greener from the brows Of him that uttered nothing base."

In 1768 Gray became professor of modern history at Cambridge and held this post until he passed away in 1771.

Soon after his appointment, the Duke of Grafton, to whom he owed it, was nominated to the office of chancellor of the university, and Gray, rather out of character, wrote an ode for the installation. The music professor of Kings set it to music, and they worked over it together, at intervals, for three months. Gray's models were the Italian masters he loved, being himself a pupil of the elder Scarlatti, and the music professor, though willing, was hardly equal to his task. They seem to have had some funny scenes, but when they reached the chorus, Gray exclaimed: "Now, I have done; make as much noise as you please."

Among other fine passages in this "Ode for Music" is the often quoted quatrain: "What is Grandeur, what is Power? Heavier toil, superior pain. What the bright reward we gain? The grateful memory of the Good."

Sweet is the breath of vernal shower, The bees collected treasure sweet, Sweet, music's melting fall, but sweeter yet

The still small voice of Gratitude."

Gray's romantic feeling for nature was shown in his journals and letters while traveling in France and Italy, and still more strikingly when he saw and interpreted as no poet had done up to that time, the natural beauty of his own land. In 1769 he made a journey through the lake country of Cumberland and his journal of the trip shows him to have been a true pioneer of Wordsworth. He went to Ullswater, where Wordsworth's "fountain company" of never fading daffodils awaited their singer; to Keswick and Skiddaw, and a most beautiful passage is that relating a stroll along by Derwent water.

"In the evening walked alone down to the lake by the side of Crow park after sunset and saw the solemn coloring of night A Beautiful Story of a Sunset

drawn on the last gleam of sunshine fading away on the hillsides, the deep serene of the waters, and the long shadows of the mountains thrown across and then, till they nearly touched the hithermost shore. At distance heard the murmur of many waterfalls not audible in the daytime. Wished for the moon, but she was dark to me and silent, hid in her vacant interlunar case."

He passed through Rydal and saw the family seat of Sir Michael Fleming, afterwards Wordsworth's home. But Wordsworth is not yet born, and Ambleside is so unused to visitors that Gray can find no accommodations and with many lingering glances at Winandermere passes on unthinking of the hosts of nature lovers and poetry lovers whom Wordsworth will one day summon to throng these lovely ways.

In 1803 Prof. Charles Eliot Norton published a little book, "The Poet Gray as a Naturalist," which brings the eighteenth century poet very near to us. It contained besides a brief sketch of the poet as a naturalist, selections from the notes which Gray had written into an interleaved Linnaeus. This copy of Linnaeus was left by the poet to his friend Mason. It afterwards passed through several hands and finally became the property of Ruskin, whose heirs presented it to Professor Norton. Next to the delight of handling and studying the book itself is the pleasure derived from the little volume in which the owner shared what he might of his treasure with others.

The book contains facsimile pages of Gray's notes in elegant Latin with citations from the French and Italian, and pen or quill-drawn, with long numbered lists of birds and insects. Professor Norton writes:

"In the spirit with which the characteristic features and expression of the animals represented are rendered, and in the vigor and refinement of touch, many of these drawings are hardly to be surpassed, and their number is such as to show that they must have been executed with ease."

Gray never prated of his love for nature, but scattered all through his writings are touches of minute observation, phrases of apt description, and passages of eloquent interpretation, which show how open he was to all her beautiful manifestations. His friend, Norton Nichols, preserved two exquisite lines which Gray uttered as they walked together in the fields, but which are not included in his published poems:

"There pipes the wood lark and the song thrush there Scatters his loose notes in the waste of air."

Not many poets lightly drop such lines as of Rare Value these; nor this stanza, discarded from the "Elegy" because it retarded the movement:

"There scattered off, the earliest of the year, By hands unseen are show'rs of violets found; The redbreast loves to build and warble there, And little footsteps lightly print the ground."

of which Lowell said that it could not be obliterated from the memory of man, even if Gray did run his pen through it.

MEET TO DISCUSS LONDON TRAFFIC

Borough Conference Talks on Speed and Mud Battering With Motor Bus Companies.

LONDON.—The adjourned conference of delegates from the metropolitan borough councils has now been held. The main question for consideration was the heavy traffic in the streets.

It is reported that after discussing the question with members of motor bus companies, the conference decided that no action should be taken with regard to the question of weight in view of the recent police regulations. In regard to the battering of pedestrians with mud, it is hoped that an efficient guard will be forthcoming as the results of experiments now being carried out. The motor bus companies have also resolved to consult the local authorities with regard to the reducing of speed in the narrow streets.

The chairman stated that there are 2900 miles of public roads of which only 235 miles are used for bus traffic. At present there are 1180 motor buses, and only 1171 horse buses; in 1904 there were

## THE DAY BEFORE YESTERDAY

II

EVEN before the year of Digong and John's petition, an instrument that was presented in 1877 as the polite reader may possibly remember, Boston was busy with commerce and all that commerce brings; the men of that day used their English forms of business and so impressed them on commercial usage that they subsist to this day. These forms and their terms make a reasonable link with what is called the past in that they show that society has acted under principles and that its history does not consist of a series of convulsive developments. No matter how rude the processes or cumbersome the vehicles, the principles of law and commerce are always there, and show us how applicable are Hobbes's words in Leviathan that "Science is the knowledge of consequences, and dependence of one fact on another."

Some years since a most interesting book was published by the city of Boston, entitled "A Volume Relating to the Early History of Boston"; it contains the notarial records of William Aspinwall, recorder of the Suffolk county court from 1644 to 1651. He came over to Charlestown in 1630 and thereafter lived a more or less peaceful life in New England; after his final disagreement with the authorities he is last heard from in Chester, whence he writes to New England in February, 1662, two years after the restoration.

As recorder and notary it was his business to register all sorts of things that by their quality of matter of fact romance give us a vivid picture of this settlement in its early days. He was constantly recording powers of attorney, as such instruments were necessary in affairs going between England and Boston. Here for example is a power of attorney sent from a merchant in Plymouth:

"S (12) 1650 Be it knowne unto all men by these presents that I John Dunbar of Plymouth in the County of Devon merchant have made constituted & in my place & stead my trusty and well beloved friend Mr. Henry Webb of Boston in N. Engl. my lawful Attorney to recover & receive all debts or summes of money that due unto me in N. Engl. either by bill bonds or specialties or on accounts, & what this my lawful Attorney shall doe in my name I will allow & ratify as if myself were personally present as witness my hand and seal.

Boston 24th of 11th mo called January 1649."

Following will be found an acknowledgment of indebtedness on an account stated: we are to bear in mind that at this time and for many years after there was little coin in the colony and that payment was often made in kind:

"(L) 1649. This bill bindeth me Georg. Ludlow of Yorke County in Virginia Esqr: my heires Exeutors Administrators or Assigns to pay or cause to be pd to Mr. Nicholas Davison Attor Gener for Mrs. Rebecca Glover late wife of Mr. Matthew Craddock deceased the full and just summe of thirtene thousand four hundred twenty one pounds of good & merchantable sweete sented Tobacco in sufficient Caske to containe the same & is for the full ball of an Account depending betwene the sd Matthew Craddock & myselfe (errors being excepted) to be paid the one halfe at or before the 20th day of November next ensuing the date hereof and the other halfe upon the 20th day of Novemb following, to say, in the year of or Lord one thousand six hundert forty and seven.

"Memorand that the sd Tobacco is to be dd to the sd Davison or his assignes, as above in the River of Yorke in Virginia." Signed, etc.

This payment was to have been made probably for goods and gear traded in Boston against what the planter had to offer. There are plenty of invoices as we would call them today transcribed in Aspinwall's book; these are of a miscellaneous character and of the sort that would be needed to supply a planter and his family and servants; thus in 1647 Aspinwall records that, "The Ship Tryall Tho: Graves Mr (Master) here did [delivered] for account of Joshua Hoote of Lon. [London] Merch. 20 Double bayes, 100 doz. cotton stockings, 50 doz. woollen stockings, 20 pieces frize, 30 doz. hatts, in halberdash; ware 3000 worth, 50 doz. shoes, 30 pieces lockram, 100 yds blew linnen, 60 pieces Duffles, 200 yds blew pinnon, 60 Norwich stuffs, 20 grs Knives, 5 doz. cisers, 200 eells of Ellingham linnen, 6 pieces of launes, 8 aleasie launes, 5 Mohaires, in drugs 400 worth & divers other necessarie goods and household goods and apparell Juxt bond 16. March. 1646."

Aspinwall's book records invoices shipped to New England from England of all sorts of things, as "20 doz. cold lines," "20 doz. monmoth caps," "4 barrels pewter," "one bale Canvas," "waistcoats, stockings and knives," "20 grs. Tobacco pipes," "3 barrels powder." Lockram is the name of linen fabrics formerly made in Brittany; "monmoth" caps were flat, round caps worn by soldiers and sailors. On the other hand, New England shipped goods home. Our notary records on "22 (9) 1647," that Robert Scott of Boston has shipped to London "one hundred thirty seven Moose skins loose & a Baile containing Bever moose & beare skins marked R-I-S; on "10 (11) 1648," there is an entry that, "Hez: Usher of Boston in N. Engl: bookseller, hath shipped in & upon the good ship called the Peregrine of London" three hogsheds of beaver, a runlet of indigo, one barrel of beaver and forty moose skins; the goods were shipped by way of Malaga and consigned to Ninon Boutecher of London.

We have entries that have a fine whiff of salt water and oakum and that are warm with the hot sun when the notary registers the accounts of a certain Tho: Babf, shipmaster, that loaded cargoes of fish and tobacco; the accounts are too

intricate to give much of them here, but we note half of a certain lot of merchandise, "Sould at Livorne," and then as though he must at once up anchor and be away, Babb reckons in the "Cambio to Spaine at 16 p C," cambio being Italian for exchange and a term that the bankers of Florence and Genoa had taught the European trader. Babb goes on to reckon that Mr. Samuel Maverick owes him £24-10-0 for monies loaned in New England, and that he is owed £3-6-0 for butter; less innocent is an item wherein he credits himself with "059.3 Doll Rialls," as "by 1-16 pt of 950 Doll prise money."

The sailor of those days was generally ready for a little amateur piracy, and this item looks as though Tho: Babb had smitten the enemies of his country. We are to bear in mind that the sea, in those days was not the well policed area that it is today and that the almost chronic wars waged on each other by the various powers gave to the merchant marine a good excuse for ready transformation into a less peaceful body. Half the victories of the Elizabethan seamen over the Spaniard were won by those that had no formal warrant for their action. Until Pepys' time the merchant marine was constantly drawn on to supply the want of vessels in the navy, and it is an interesting fact that uniforms were not officially ordered until 1746. Of these, those that care may see specimens displayed in the museum of the United Service Institution at Whitehall.

Babb concludes his account with the entry of the "Sale of 52 Kent [quintals] fish at Marsella."

That Barbadoes sugar was sent up here in large quantities in 1650, is shown by a certain bond in the penal sum of £100, the condition of which is "that if the above bounden John Thompson shall pay or cause to be pd unto Paul Allistre for the use of James Oliver the just summe of fourtene hundred & forty pounds of good dry merchantable Muscovados sugar at Barbados within ten dayes after the arrivall of the ship Guilt of God" then the obligation shall be void.

The bill of exchange entered in Aspinwall's book "27 (9) 1649," has rather more embellishment than we see today: it is drawn by "John fishe" on his father and has the following tenor:

"2 of Nov: 1646. "Loving father after twenty dayes sight of this my first bill of exchange my second and third not being pd, I pray you pay unto James Oliver of Boston in New England or his Assignes the full and just summe of eighteen pound sterl received in full value here of Mr. James Oliver. I pray you faile not to make good paymt & place it to account according to order

"For ever Dutifull some, John fishe "Signed & DD in presence of "James Johnson "Jonathan fish."

The indentments all contain a full request to pay, the first being: "I pray you pay this Bill to my brother Peter Oliver or to his Assignes, yors James Oliver," and show how the present simple indorsement has developed. The bill is addressed to his "loving & deere ffather Mr. Thomas fish at Warwick or els in Wegnocke parke at good Rest House."

In 1645 Aspinwall has to register: "A Copie of Mr. Emanuel Downing deed of sale of his share in the Iron worke to Thomas Vincent of London for sixty pounds sterl by him received of John Winthrop Junior, Esq:."

This entry has interest for us, inasmuch as this Emanuel Downing was the father of George Downing, and after George Downing is named the little street at Westminster that holds the plain brick house wherein the present English government hold their happy conferences.

We sometimes forget how close is the connection in origin and institutions between the two countries; when we see a portrait by Copley at the Art Museum we see the work of an American painter that was father to a very active lord chancellor; when we read Hazlitt's essay on the English comic dramatists, if we remember that as a boy he was brought with his family across the ocean to Massachusetts and spent some years there, he is brought in friendlier touch with us. When that good Boston merchant, John Rowe, enters in his diary under the date of Nov. 29, 1778, "A seaman, by name Hening, belonging to Chagford in England came to our house and told me many pleasant things about my Relatives and Friends there, which pleased me," we are pleased, too.

We see the Devonshire village nestled on the verge of Dartmoor, its trees and strongly built houses; the Three Crowns, an inn of perpendicular architecture comes to our eyes with its recessed porch in which young Sidney Goldolphin was wounded by a Cromwellian's musket ball, and opposite we see the old church with its bosses in the roof. Sun and mist, heat and cold come to us once more from the glory of the green and gold where Dartmoor touches farmland. The magic plot of heather, wood and meadow wraps us again as we peer down into the cleanly streams and see the neat moorland trout whipping hither and yon like light and shade in old amber; we hear again the soft easy speech that old Judge Mallett told Aubrey was spoken by Raleigh to the fast, and a thousand wholesome joys are in our hearts to think that friendship was born with long arms.

COMMITTEE FOR MR. HAVENS. WASHINGTON.—Speaker Cannon announced Friday the appointment of James S. Havens of Rochester, N. Y., the new elected Democratic member of the House, to the committee on railways and canals. That committee has had only two meetings since the civil war.

## What Other Editors Are Saying

THE viewpoints of various American editors regarding the report of the Massachusetts legislative commission on the "high cost of living" are illustrated by the following extracts:

PORTLAND (Me.) EXPRESS AND ADVERTISER.—The great general public desires to shut its eyes to the facts which the Massachusetts commission has unearthed and to find a scape-goat upon which it can pile its own sins, if such they be. The tariff, the trusts and the labor unions all have their accusers. The Massachusetts commission, after careful investigation, finds these three not guilty. Probably the findings will not change public opinion very much.

BOSTON JOURNAL.—The commission says that when all the influences are taken into account, "the wonder is not that meat prices are so high, but that they have not risen higher." But patience. They are rising, rising, rising—and fast enough. The wonder soon will be whether they can rise any higher. In rising so rapidly now, they are more than making up for the lost opportunities of the fat and careless days of yore.

WORCESTER (Mass.) TELEGRAM.—The commission reasons unusually well

SENATOR BOURNE AROUSES DEBATE

WASHINGTON.—Senator Bourne's speech in the Senate Thursday on what he said was the best election law in the world, meaning that of Oregon, provoked a spirited debate on the methods of appointing federal officers generally and postmasters in particular.

Sensors Carter, chairman of the post-office committee, proposed to have postmasters promoted from one postoffice to another, without regard to state lines, after the manner of railroad agents.

Sensors Hale and Bacon expressed themselves favorable to postmasters being placed in the classified civil service lists, while William Alden Smith expressed his vigorous protest against taking postmasters out of politics. Senator Smith wanted all postmasters to be political powers in their communities.

Sensor Carter said that it cost about \$241,000,000 a year to run the postoffice department. "For \$125,000,000 a year," said he, "a good business man who would conduct this business on the merit system as the Pennsylvania railroad is conducted could give us a better service in every respect and make a profit besides."

HIGHEST RECORD FOR KITES MADE

WASHINGTON.—A new record for high kite flights was made Thursday at the bureau observatory at Mt. Weather, Va., its previous record being exceeded by that observatory by about 700 feet.

Ten kites were used, carrying over nine miles of wire. The lead kite reached an altitude above sea level computed at 23,800 feet. The previous record was made on April 11, 1910, when an altitude of 23,100 feet was reached.

on the points it developed in the investigation, though it might have been excused if it had left out the opinion that at the next revision of the tariff the schedule should be lowered to allow of the free entry of more raw materials for food and other necessary manufactures.

SPRINGFIELD (Mass.) REPUBLICAN.—We at last have a state commission judgment on the causes of high prices and cost of living. This inquiry was to have cost \$18,000 or more, and probably has cost more rather than less. People can now judge whether they have got their money's worth. Here is one cause of high cost of living, as through high taxes, which is not mentioned in the report. And if some of the recommendations of the commission are carried out it will become a further cause of high living costs.

MANCHESTER (N. H.) UNION.—But if "too much gold" is really the cause of the high cost of living, where on earth is that mischievous golden surplus? Ninety-nine per cent of the people you meet will tell you they have never seen any part of it.

PROVIDENCE (R. I.) JOURNAL.—Taken all in all, this report could be availed of to advantage pretty much throughout the country. Cost of living investigators elsewhere would be entirely warranted in copying many of its features, provided only they gave due credit to the sensible, diligent and expeditious Massachusetts commission.

LOWELL (Mass.) COURIER-CITIZEN.—The public, not being scientific or academic, would like to see the blame fastened upon somebody or something, right or wrong, and the commission has done the best it could and laid the chief responsibility at the door of the world's gold supply. And we submit that gold is sufficiently remote from the reach of the average citizen not to suffer any very serious chastisement.

## Brief News About the State

### FITCHBURG.

At the annual meeting of the Women's Club, Miss Warner, the retiring president; Mrs. Ellen M. Cushing, Mrs. F. A. Stowell and Mrs. E. M. F. Hartwell were chosen delegates to the biennial meeting at Cincinnati next week; Mrs. Emmons Crocker and Mrs. G. B. Woodward will attend as state delegates. The club elected: President, Miss Annette J. Warner; vice-presidents, Mrs. Helen M. Wallace and Mrs. Grace W. Curry; recording secretary, Miss Stella A. Woodward; corresponding secretary, Miss Alice W. Day; treasurer, Mrs. Sarah J. Thomson; auditor, Mrs. Clara L. Tenny.

The new concern for the manufacture of sea-cloth is considering Fitchburg as a place in which to settle. The Fitchburg Board of Trade and Merchants Association are working toward that end.

### LEOMINSTER.

E. B. Richardson of the Richardson Piano Case Company will build a residence on Walnut and Washington streets.

Wild deer have been a common sight about Leominster during the winter.

The weather has kept the bees within their hives and the bee keepers and apple growers anticipate consequent loss.

Arthur H. Hall of North Leominster has planted 3000 pine trees near his furniture factory. The water board has set out 600 trees on the town land at Fall Brook reservoir.

### MALDEN.

The Deliberative Assembly will discuss tonight municipal ownership of railroads. Street Commissioner Charles T. Hall and O. P. Doonan will speak in favor and Charles M. Hanson and Councilman Paul M. Foss against.

The graduates of the Belmont school Friday gave an exhibition in the gymnasium of the high school under the direction of Miss Mary Low.

The Rev. and Mrs. D. Harold Hickey were tendered a reception in the Linden Methodist church by the members of the church.

The ladies' night reception of the Y. M. C. A. has been indefinitely postponed.

### NEWTON.

The annual May festival of the West Newton Unitarian church will be held this evening.

A life-size marble statue of Francis B. Hornbrooke, D. D., will be unveiled in the Channing church, Newton, this afternoon. Dr. Hornbrooke was formerly pastor of the church.

### WALTHAM.

### WINTHROP.

The Winthrop Woman's Club at its annual meeting Friday afternoon elected: President, Mrs. Helen C. Gardner; vice-president, Mrs. Mary P. Callard; recording secretary, Mrs. Edith A. Johnson; corresponding secretary, Mrs. Isabelle S. Walker; treasurer, Mrs. Maud R. Wyman; auditor, Mrs. Alice D. Rich; directors, Miss Emma A. Sylvester, Mrs. Jennie L. Anderson, Mrs. Nellie S. Griffin. Mrs. Effie F. Noyers, clerk of the State Federation of Women's Clubs, gave an address.

At the last meeting of Colonial chapter, O. E. S., Mrs. Carrie E. Carpenter was installed as secretary. The following were initiated: Mrs. Luella K. Hughes, Mrs. Frances Black, Mrs. Walter Cleveland Taylor, Mrs. Adelaide Blanche Whittemore, Mrs. Luella Fish Bloomfield.

# For the Second Week of Our May White Sales

(Beginning Monday, May 9th)

We have made ample preparations to surpass even the remarkable values of the first week in

*Cotton Underwear      Infants' Wear*  
*Lingerie Waists and Laces*

Many new shipments of all these goods have been received and will be shown for the first time Monday.

*If you already have not profited by these wonderful money-saving opportunities do not fail to do so early next week.*

## Jordan Marsh Company

## SECOND BALLOTING WILL END ELECTION IN FRANCE SUNDAY

PARIS—The general elections in France have this time developed a new feature. Instead of the usual disturbance, calmness has been the pervading note. The like has not been seen for many years. In all 2708 candidates offered themselves for the 597 seats; 366 have already been elected, the remaining 231, not having received the required majority of votes, will present themselves anew before the electors tomorrow. The yearly salary, which has recently been increased to 15,000 francs, no doubt proved an inducement to some of the candidates who offered themselves, and in the arrondissement of Avignon there were no fewer than 52 candidates for the one seat.

The elections have not effected any marked change; the party of the late government has slightly increased its majority. A leading character of the elections is the increase of votes given to candidates professing moderate views. Most of the ministers of the late government have been returned; M. Briand with a magnificent majority, he receiving 11,930 votes as against the 2504 of his opponent. The party that has suffered most in the elections is that of the radical-socialists. They have not only lost a number of seats, but those who have been returned have come back with greatly reduced majorities. There is also a general tendency to shrinkage in the number of votes secured to all anti-republican candidates.

## SEMINARY ELECTS PROFESSOR HEAD

SAN FRANCISCO—Prof. Warren Hall Landon, D. D., professor of practical theology, was elected president of the San Francisco Theological Seminary located at San Anselmo by the directors of that institution.

Professor Landon, who has been connected with the seminary for 15 years, succeeds Dr. Robert McKenzie, who resigned to become secretary of the college board of the Presbyterian church of the United States of America, situated in New York city.

STEAMER CLEVELAND AT SUEZ. SUEZ—The steamer Cleveland, with a party of American tourists aboard, arrived here Friday.

### HINGHAM.

The senior class of the high school held a dance and inspection Friday evening at Loring hall. The faculty of the school were guests. Nearly 100 couples were present.

Hingham court, M. C. O. F., will give a concert and ball Friday in Loring hall.

## In Shops of Those Who Advertise With Us

A visit to the Paine Furniture Company's summer gallery in their establishment at 48 Canal street will give you many instructive ideas as to how it is possible to live out of doors during the summer at your own home in comfort and even luxury. You will find appropriate furniture and appointments specially arranged, showing how the piazza, the summer house, and even the shade of the tree can with a little planning be made the centers of home life, open to the cooling breeze, yet cozy and artistic in effect.

An easy and most satisfactory solution of the summer home question is now made possible. Choose your locality and site and have the Standard Construction Company, 311-312 Tremont street, Boston, Mass., send you one of their bungalows containing 2 bedrooms (with closets), living room, kitchen, bath and spacious porch, in which you can enjoy the summer in the greatest comfort and privacy. The cost is only \$495. When the summer is over you can pack it up and store it until the next year.

Morris & Butler, 97 Summer street, are at present displaying a large assortment of appropriate summer furniture. Their folding chairs, rockers and settees are particularly attractive and are just the thing for porch and lawn use during the warm season. They are strong, comfortable, durable and convenient to ship and handle.

The success of a salad depends fully as much on the dressing as on the freshness and crisp tenderness of the vegetables used. As olive oil is the predominant ingredient of a good salad dressing, it is of the utmost importance to have constantly on hand an oil not only of guaranteed purity but of delicate flavor, entirely free from the somewhat rank taste and odor so frequently noticeable in the commoner brands. The W. A. Castle Company of Springfield, Mass., supply in the "Castle Brand Cream Olive Oil" a superior article, which has no odor and is absolutely pure, possessing that faint, almost intangible "bouquet" of the Italian olive. If your grocer cannot supply it, write direct to W. A. Castle Company and they will forward it to you.

A good housewife is always prepared for emergencies in the way of an impromptu luncheon or a light supper when she has a supply of the Rainbow brand of sardines in the larder. They are of such excellent and delicate flavor that every one appreciates them. These tender little fish are selected from the choicest catch, cured by a secret process under expert superintendence, packed with pure olive oil in the distinctive round cans and exported direct to De Long Seaman Company, 156 Milk street, Boston.

Most women prefer wearing a waist made especially to order from a modicum of recognized ability. This they can have to perfection at Miss Fisk's Red Glove Shop, 322 Boylston street, where skilled workmen, fashionable models and

## COURT CONSTRUES INHERITANCE TAX

TRENTON, N. J.—That no charitable organization except it be an institution or corporation of New Jersey is exempt from the provisions of the collateral inheritance tax law is the construction placed upon the present law by Vice-Chancellor Edwin Robert Walker.

This decision was reached on an appeal from an assessment of a collateral inheritance tax upon two legacies contained in the will of Jane Ann Gossill. One of the legacies was for \$32,500 to the Women's Board of Foreign Missions of the Reformed Church in America and the other was for \$7000 to the board of domestic missions of the same church. Both societies are corporations of the state of New York.

### EVENING SCHOOL OFFICERS.

The class of 1908, evening law school, Boston Y. M. C. A., has elected: President, M. A. Hensberry, Worcester; secretary, Frank W. Tucker, Winthrop; executive committee, Harrison Loring, Jr., Boston, George E. Walker, Wakefield, and Otto Wehrle, East Boston.

## The Ideal Home Exhibition

THE IDEAL HOUSE.

Erected at the Daily Mail Ideal Home Exhibition, Olympia, in six days, ready for decoration. Built by Holland Bros., London, Ltd., Belvedere road, Westminster Bridge, S. E.

LONDON.—The proprietors of the Daily Mail and Amalgamated Press organized the second exhibition at Olympia for promoting the study of and stimulating interest in the making of the "Ideal Home," and the hundreds of visitors who flocked there daily after it was opened on April 8, give proof positive of the interest its object arouses. The cult of "housewifery" is renaissance in England, and at Olympia it can be studied from every aspect, and, moreover, there is something for all householders to learn and profit by, whether of mansion, cottage or flat.

The exhibits were arranged in sections and really describe themselves:

The central house (the ideal house), furnishing section, construction and decoration, heating and lighting, sanitation and ventilation, hygiene and cleaning, food and cookery, garden, music and recreation, general.

A Tudor village was erected in the annex, while in the gallery above there was a very good display of arts and crafts and home industries (metal work, lace work, embroidery, cloth weaving, pottery, wood carving), also the "Period Rooms" and "Babyland." This last section, together with the Tudor village and the Central house, formed the three distinguishing "sights" of this exhibition, which took into account all the problems of home life, from the material side. Its watchwords were cleanliness, efficiency, economy—not primarily of money but of space, material, labor and time, all of which conduce to financial saving.

The wonderful advance in the heating, lighting, sanitation and ventilation of houses is a sure sign of a greater demand in these directions and the same rate of progress was evident in the numerous devices and ingenious inventions in the cookery and cleaning sections, which attracted crowds of "housewives" intent on the study of a wide field ranging from domestic utensils of all kinds, labor-saving and highly practical, to the latest improvements in stoves, gas-cookers, kitchen ranges, hot water supply, elevators, garden implements and greenhouse building and heating.

Babyland section dealt wholly with the nursery, the latest designs in nursery fittings and furniture, and the newest ideas for the feeding, care and clothing of infants. The National Society of Day Nurseries, of which the Princess of Schleswig-Holstein is president, arranged a model creche, in full working order, where all information relating to creche management was willingly given. The society exists for the purpose of raising the standard of creches throughout the country, and since it came into being, 27 other creches have become associated with it.

The Tudor Village was a charming reproduction of medieval life and customs, quaint old gabled cottages being built round the village green, on which were stocks, a whipping post and ducking pond. The villagers were dressed in sixteenth century costumes and the shops only tenanted by firms whose business life dates back for more than a century. The contrast was striking on emerging from the stress of modernity and inventive genius into the quiet and non-competitive atmosphere of long ago. The ciburn was irresistible and visitors made an almost inquisitorial inspection of the pretty little houses which, however, revealed the fact that they did not meet twentieth century needs, despite their attractions.

Half involuntarily, on leaving the Tudor village, sightseers found their way to the ideal house, considered generally to be the most interesting of all exhibits, since it was a full sized model of an up-to-date house, a bona fide structure of bricks and mortar, and a replica of a house already built at Raynes Park, near London. It was intended to offset the promises of "jerry" building, and to prove that the collaboration of a good architect with high class firms of builders, furnishers and decorators, does not mean a vast outlay of money for the client in the beginning, and is a far better investment in the end.

This ideal house cost £600, and the construction, materials and fittings are of the best. It was completed in 10 days, the building taking a little over six days, and the drying process accomplished in two days by the Turk drying system. The plastering and painting were finished in time to allow ample opportunity to furnish it effectively and thoroughly. It comprises an oak-paneled entrance hall, a living room 22 feet by 12 feet, on which special attention has been bestowed, as the most used room in this type of house—a parlor, four bedrooms,

a bathroom with hot linen cupboard and a kitchen fitted up according to latest requirements. Electric lighting and gas are installed, and the scheme of furnishing, including carpets and curtains, was carried out by one of the leading London firms at a cost of £350 and is particularly successful.

A special feature of the furnishing section was the number of model rooms furnished in all sorts of styles, to suit all tastes and all kinds of houses, from a luxurious town house to a golf bungalow or a "week-end cottage." The period rooms comprised an old Jacobean paneled room, two complete Tudor rooms and an eighteenth century bedroom; also a few specimens of antique French furniture.

Mention must also be made of the model of a seaside golfing village which it is proposed to build. It is explained that the number of houses is to be limited, each is to have a good sea view, to be built of local materials and reed thatched. The golf course will be laid out in a novel and attractive way, encompassing the village, and enabling the householders to begin and end their game at their own doors.

This exhibition presents an object lesson of the highest practical value, and its organizers are certainly entitled to the thanks of the community for the idea, and to its congratulations on the very able way in which it was carried out.

## DANES IN AMERICA PRESENT BIG PARK TO THE HOME LAND

Thousand-Acre Tract of Picturesque Heath Is Held by Option in Jutland for Definite Purchase.

### WILL ERECT SHAFT

NEW YORK.—Coinciding with the arrival of Prof. Bernhard Boeggild, the Danish authority on dairying and milk supply, on the United States, of the Danish-American line, it was announced by local Danish-Americans that they had secured options on 1000 acres of heath land in Jutland, which they plan to reserve as a national park on the order of a miniature of Yellowstone park.

Professor Boeggild brought word to his countrymen here that the Danes were enthusiastic over the plan, and M. C. Madson, president of the Danish-American Society of the United States, was able to tell him that over 500 subscriptions had been received to date.

The local Danes say that the park contemplated will be the first piece of property procured for any such purpose in Europe by American citizens, and they plan to erect a shaft there when the deal is consummated within the next few weeks which shall be inscribed: "Danish-American Park, from American Citizens of Danish Descent."

The 1000-acre tract of heath land on which options have been secured is close to the center section of the Jutland peninsula, near the town of Aarhus. Last Fourth of July something over 1000 Danish-Americans visiting the fatherland met at Aarhus to celebrate the holiday of their adopted country in the land of their birth. Dr. Max Henius of Chicago, who was then the president of the Danish-American Society of the United States, presided at an immense meeting at which Dr. Maurice F. Egan, American minister to Denmark, was a guest of honor, and the officers of the society afterward were entertained at luncheon by the King.

Professor Boeggild, who was met at the pier yesterday by a delegation of the local Danes, is a teacher at the Royal Danish Agricultural College of Copenhagen. He will deliver a series of lectures in this country on the dairy legislation of Denmark, and on Denmark's butter production and butter export.

His first lecture will be given at Columbia University on May 5, and that will be followed at Cornell University on May 9, 10 and 11.

In addition, he will deliver popular addresses in Chicago, Omaha, and other western cities on "The Milk Supply of Copenhagen."

## SPECULATION IN LAND DECLARED CAUSE OF WORLD'S HIGH RATES

Henry George, Jr., at Economic Club, Advocates the Single Tax, Government Railways and Tariff Taxes.

### EXPERTS DISAGREE

Henry George Jr. of New York attacked land speculation as the real cause of the present high cost of living, at Friday night's banquet of the Economic Club of Boston at the American House. In a powerful speech he attacked the railroads as present-day "tollgates" and declared that the three means of solution of the present difficulty were the abolition of tariff taxes, the public ownership of railroads and concentration of the whole burden of taxation on land values, exclusive of improvements.

Like his illustrious father, Mr. George ardently espoused the cause of single taxation, and strongly criticized speculators in the land of the country, who, he declared, would suck up the benefits of a decreased tariff and of governmental railways.

He declared that private ownership of land was the question which had caused the English budget, the revaluation of Japanese lands, and the recent edict of the German chancellor as regards the taxation on the scale of land values.

"Give me the land rights of the state of Massachusetts," said Mr. George, in characterization of private monopoly, "and I do not care what laws your Legislature passes. You may have your deaconage, your constitution and your statistics, but I will have the land, and can say if you do not obey orders 'Get off the earth!'"

"The whole country is after the tariff iniquity," continued Mr. George. "Some one gets rich out of it, but the American laborer gets only strikes and lock-outs. The trusts are formed behind the bulwarks of the tariff wall. Why look for altruistic reasons when these conditions are hitting men in their faces?"

Hon. Harvey N. Shepard, vice-president of the club, opened the discussion, saying in part: "While many questions presented to us may seem academic, this question comes home to all of us. We feel the burden; we would like to know the reason."

"The answer to the question of high prices," observed President F. W. Hamilton of Tufts College, "is largely academic and is found in economic law. The condition exists all the world over."

"The one world-wide cause—although not, perhaps, accounting for all phases of the rise in prices—is the enormously increased output of gold; the cheapening of the commodity used as a medium of exchange. The moment the output passes beyond the normal ratio there is a fall in the price of the commodity because of the oversupply. That is actually what has happened in the output of gold."

"To a large extent the problem is due to the incidence of taxation. We are spending enormous amounts of money. We are living in a stage of enormous public expenditures in city, state and nation."

Prof. Thomas N. Carver of Harvard University challenged the published conclusions of Professor Laffan on the relation of gold output to high prices. "The substitutes for gold," he observed, "have reduced the demand for gold. The increase in greenback circulation in the past 10 years is greater than the total increase during the entire civil war period. It looks like an opportune moment for the retirement of greenbacks from circulation." Professor Carver laid some of the blame also on the tariff.

Professor Jeremiah W. Jenks of Cornell University also spoke.

## HINDUS TO APPEAL TO THE GAEKWAR

VANCOUVER.—The announcement of the coming to Canada of the Gaekwar of the independent state of Baroda, a powerful prince of India, has stirred the Hindus of British Columbia to prepare a statement of their grievances to present to their distinguished countryman, in the hope that he may be induced to champion their cause with the Dominion authorities, and secure if possible a reduction of the immigration restrictions now enforced by the Canadian government.

## TUTORS TO MAKE EUROPEAN TRIP

ATLANTA, Ga.—Prof. J. C. Wardlaw of the Georgia Normal and Industrial College, the secretary of the Georgia Educational Association, will conduct a party of tourists through Europe this summer, visiting Italy, Switzerland, Bavaria, Germany, France and England.

The party will assemble in Macon on June 8, making the trip to Boston on a special Pullman car to Boston, where ship will be taken on June 11, returning to New York on August 29.

## GERANIUMS ADORN CAPITOL WALKS

SALEM, Ore.—Between 4000 and 5000 geranium plants are being set out along the borders of the state capitol walks. A number of these plants was raised in the dome of the capitol, but the bulk is being ordered from Portland and Salem florists.

## Art, Artists and Their Work

### CARNEGIE INSTITUTE ART SHOW.

THE fourteenth annual exhibition of the Carnegie Institute, which opened to the public in Pittsburgh Monday, is to continue through June. One large and half a dozen small galleries are crowded with the season's work. New masterpieces abound, several of them bearing evidences of merited recognition from European art centers.

The exhibit is rich in evidence that the artistic world, not only of America, but of Europe, has found out that there is artistic discernment in Pittsburgh.

It is quite evident that the care exercised in the selection of the paintings shown has resulted in a display of exceptional artistic interest and value. There is what is better, a wide diversity of artistic merit.

Out of the 300 or more pictures about half are painted by American artists. The "Baby Asleep," by Beatrice How, is a notable impressionistic work. The "Reverence to Midsummer's Eve" of J. H. Lorimer is another, and "Christ Walking on the Water," is painted by Henry O. Tanner, who also has a "Mary" in the exhibition.

Street scenes include besides those of Childe Hassam, "Excavation," by Belows, and "Karysplatz," by Schramm. "August Idlers," by Karl Anderson of Oxford, O., is a wonderful piece of tone work. At the opposite extreme are the "Head of Girl with Veil," by Frank Benson, a clever picturing of a face behind a white veil, and "Between the Acts," a big canvas by Ulysse Caputo.

In portraiture this exhibition is led by the virile, sketchy but pleasing portrait of the President by the Spaniard Sorolla, the list includes two by Cecilia Beaux, widely different in subject and treatment from other examples of her work; "Mother and Child," by Basnonska; "Ellis Parker Butler," by Blumenschein; "Mrs. E. F. Carey," by Louis Betts; "Alison," a mother and two children, by Sargent Kendall; "William Nicholson," by Augustus John, and a remarkable picture of Leila MacCarthy as Donna Anna in "Man and Superman."

### The Prize Winners.

The winner of the first prize is the Irish artist, William Orpen, A. R. A., whose work has been heralded throughout Europe the past two years.

The picture which has been favored by the art jury with the medal of the first class, carrying with it a cash prize of \$1500, is happily constructed. It is an artist's portrait of himself, a picture full of odd light effects, as though the beholder were looking into the artist's mirror in his studio. The color and freedom of the treatment is novel, and the light effects are wonderful. Standing out in bold relief is the artist's figure, palette in hand, before the sculptured figure of a Venus. Behind this is the light from a garden window, the whole reflected in a mirror. A bit of paper, which is, in fact, a carte du jour of the Cafe Royale, is pushed behind the frame of the mirror, adding to the realistic effect. In front are scattered brushes and twisted paint tubes.

"Idlers," an impressionistic painting by Karl Anderson of New York, receives the medal of the second class, carrying a cash prize of \$1000. It shows a river bank, by the side of which two girls are resting, one lying prone on her back, her companion seated by her side, the cool green of the water of the river forming the background. The brilliant sunshine of August attracts the attention, and the entire work is pleasantly conceived. The canvas which receives the third medal, and a cash prize of \$500 is named "Laurel," and is by Edward F. Rook, also of New York. Familiar to all residents of this section of Pennsylvania are the hillsides covered with laurel, which are shown by the artist in a blaze of gorgeous coloring. In the foreground is a gray, lichen covered rock, and the background stretches far out in a pleasing perspective.

"Chinese Porcelain" by Joseph Oppenheimer is a wonderful bit of genre painting which was given honorable mention by the jury. Like mention was given "Hills of Byram," by Daniel Garber, a Pennsylvania, which is a picture of gray hills and sky, naked tree trunks and sparsely clad landscapes. In the foreground are two goats, contentedly feeding, and a deep gash across the side of the hill, showing the yellow clay, is a cleverly introduced bit of coloring.

"Farmhouse in Winter," by Charles Morris Young, won honorable mention. The chickens huddled in the foreground, the leafless branches, the farm wagons, the unclashed paths, all indicate winter, and the misty snow effect is delicately handled.

Honorable mention was also given "Apple Blossoms," by Louis Betts. The picture appeals to every woman, showing as it does the portrait of a we girl in a big flower trimmed hat, tied primly under her chin, and holding in her hand a rosy apple.

The exhibition is the strongest yet shown by the institute.

### MISS CURTIS' PAINTINGS.

This artist is exhibiting a number of her seashore sketches and portraits in oil at the gallery of Doll & Richards, 71 Newbury street, Boston. The work is done with much looseness and first-hand manipulation that gives the effect of being careless or understudied in several instances. The sea has a charm for Miss Curtis, especially the massive lift of an inrolling wave. The sense of weight is well given in these oncoming masses of sea. They are deep-toned and simply treated, with very little of subtle quality, albeit they are interesting and truthful.

The best canvas here is (8) "Twilight," showing a cool, gray beach and a well-painted wave breaking lazily on its edge. The quality of floating mists and atmosphere in this work is admirable, far outranking the other works. "From sky above the osiers, rises the brilliant

WILLIAM ORPEN, A. R. A.  
Winner of Carnegie first prize medal and \$1500 for the "Portrait of Himself."

Agamemnon" (1) shows a broad stretch of woody country from a high elevation. "Long Beach, Afternoon" (3) is a summary day handled simply and with good breadth.

Several portraits are realistic in treatment, and with the impression that they are not carried far enough to be considered as deeply studied as portraits should go. In all these characteristics and in the varied expressions set forth by artists, the viewpoint, the attainments, aims and inclinations of the individual, as well as the limitations, caliber, force and originality are all told in the paintings displayed. The present exhibition is thoroughly interesting, shows a sturdy courage and fearless attitude that are good possessions that will carry forward the artist to still higher attainments.

### RHODE ISLAND SCHOOL OF DESIGN.

At the Normal Art Gallery, 198 Clarendon street, may be seen the present week examples of the work done by the summer school of the Rhode Island School of Design. The works include sketches from nature, analysis of natural forms, analysis of textiles, practical designs and jeweled ornaments, pins, buckles and chains. Pupils whose work appears are: Julia Brewster, Charlotte Chase, Joseph Reynolds, Caroline Sowers, Louis Hass, Alexander Miller and Eliza D. Gardner.

The school lists about 100 students, many of them teachers in the Providence schools. The faculty of the summer school consists of: Augustus F. Rose, director; Henry Hunt Clark, department of design; Sarah I. Wilson, manual training and woodworking; Mary F. Patterson, assistant in theory and practical design; Charles J. Martin, assistant in jewelry and silversmithing; Antonio Cirino, assistant in metal work for grammar and high schools. This school opens on July 6, and continues to Aug. 10.

The following artists have been elected associate members of the National Academy of Design:

Painters: Thomas P. Anshutz, Ernest L. Blumenthal, Ralph Clarkson, Edward Dufner, W. Howe Foote, Daniel Garber, Robert MacCameron, De Witt Marshall, W. Merritt Post, William Ritschel, Mrs. C. B. Coman, Albert Sterner and Gardner Symons.

Sculptors: John J. Boyle and Bela L. Pratt.

Architects: Arnold Brunner, Frank Miles Day, Wilson Eyre, Henry J. Hardenger, C. Grant La Farge, John Galen Howard, Robert Peabody and Edmund M. Wheelwright.

### ROYAL SOCIETY BRITISH ARTISTS.

This is certainly the season for pictures in London. All the galleries are open or are preparing to open their doors. Burlington House is full of pictures waiting to be placed on the walls or returned to their owners. The Royal Academy opened May 2.

The Society of British Artists is holding its one hundred and thirty-third exhibition in Suffolk street. There are few pictures here which attract much attention, but a small number are of sterling merit. Among the landscapes, and landscape is the principal feature, there are two pictures, hanging side by side, strongly in contrast to each other, both of true sentiment and appreciation for differing phases of nature.

E. W. Christmas loves to paint the mountains at their highest altitudes, and he succeeds in conveying a true sense of their purity and silence, their peace and apartness from human affairs, something also of the awe they inspire. In "The Valley of the Ark" he has found a beautiful subject. A great mountain dominates the picture, lifting its crest against the sky; the sides, clothed in a panoply of snow, sweep majestically toward the valley at their feet, while a silvery light is thrown over all by the sunshine reflected by the snow. Grandeur, permanence, and solitude are beautifully expressed.

Mr. Laidley, on the other hand, has recorded a passing moment, a moment which had to be observed quickly and truly, and registered in memory to have been so truthfully painted: "Evening of Scoulton Mere" is tingling with light and air. The moon, rising in a sunless sky above the osiers, pierces the brilliant

## Rauch & Lang Electrics

### THE SENSATION OF ALL SHOWS

### THE SAFEST CAR

Must naturally be the most perfect car—to be one it must be the other.

Safety is a big asset of any vehicle—but more so with an electric car.

Many women drive cars of this type—hence the need of unusual safety appliances—not because a woman is less careful, but to more fully safeguard her and make accidents impossible.

Each Rauch & Lang control is proof against carelessness—an insurance policy to cover forgetfulness.

The operation of this control is simple—more so than opening or closing an umbrella.

Its action positive—no danger of a slip at the psychological moment.

### BOSTON AGENTS

H. C. & C. D. CASTLE, INC.  
893 BOYLSTON ST.

hues with a deep, penetrating coolness, the water catching the tone of deepest blue. The conflict of lights produces a fever of effects, breathless in beauty, filled with sensibility and the charm of a passing and elusive hour.

Carruthers Gould's fine painting of fallen sand and trees in "The Quarry, Porlock, Somerset," Alfred Hartley's stately group of poplars, "Summer Morning on the Kennet," are both attractive pictures, so also is Walter Fowler's "A Watering Place" the latter slightly reminiscent of John Constable. George Haite is always delightful in whatever medium he cares to record his frank observations of nature. Here he has sent a "Primrose Glade," a broad impressionist painting in oils, a spring day with the trees in their first burst of golden leafage, and primroses filling the grass.

Tatton Winter's "Windmills Near Dunkirk," and "Herding Ponies: New Forest," by Lucy Kemp Welch, a fine piece of drawing and grouping, and "On the River Seine, Caudebec," John Muirhead, are all worthy of attention. J. W. Schofield's "Village Inn, Moonlight," is one of those remarkably successful pictures painted by night. Mr. Footlet has sent "A Summer's Night," an imaginative work, rather brave in the handling of unusual color and light effects, while "Diana's Pool," by L. Grier, has the charm which imagination casts over its still pool, with one star reflected on its surface and trees half seen, merged into the blue of sky and air.

The "Portrait of Miss S—" which W. M. Palin sends is good. The same may be said of a firm, broad piece of work by Philip A. Laszlo, a portrait of "H. S. H. Prince Louis of Battenberg."

Among the water colors, "February in the Fold," Arthur Legge; "Home Again," Ferd. E. Grone; "In the Cypress Country," A. Wallace Rimington, and "A Threatening Evening," by Charles Horsley, are all charming sketches, while "A Dainty Morsel," a delightful blotting of ducks and chickens, by Edwin Noble, is very spontaneous and adroit. His picture, called "Flight" is also a clever piece of work.

### Canadian Pictures Sent to London.

The Toronto (Ont.) Mail and Empire says regarding the coming Festival of Empire, to be held in London this month: "Canadian art will be represented at the Festival of Empire and Pageant of London by a collection of about 125 pictures, which are to be shipped to the ad land. Although hurriedly made, the exhibition will be thoroughly representative, and it includes pictures by most of the well known artists in the Dominion. His excellency Earl Grey, the Governor-General, went to William Brynner, president of the Royal Canadian Academy, and arrangements were hurriedly made to get together a collection which could be sent to England in time for the opening day.

"The exhibition will consist of over 100 pictures, and a few of the artists represented are: Messrs. J. W. Beatty, S. Challenor, William Brynner, Robert Harris, J. Arch Brown, Homer Watson, E. Wyle Grier, F. M. Bell-Smith, T. F. Gagen, W. Cruikshank, C. W. Jeffreys, J. S. Gordon, E. Deyenot, Morris Allen, F. Vermer, George A. Reid and Mrs. Mary A. Reid and Miss Henrietta Skore."

TELEGRAPHERS VOTE TO STRIKE. NEW HAVEN, Conn.—The votes cast by the New York, New Haven & Hartford railroad telegraphers on the question of a strike have been counted and the result is in the affirmative.

DALAI LAMA TO VISIT RUSSIA. ST. PETERSBURG.—It is reported that a visit will be paid by the Dalai Lama to St. Petersburg during the next two months.

# King George V. Takes Oath

## Prince George Pays Visit to American Continent

Beside visiting many other places in the Dominion and North America Prince George ascended the St. Lawrence by Quebec as far as Montreal. Lord Lorne was at that time governor general of Canada and Princess Louise was with him at Ottawa.

During the ensuing winter the Canada cruised among the West Indian islands and visited Barbados and British Guiana. Shortly after this Prince George became the senior midshipman in the service, and was waiting till his age allowed him to present himself for his examination as sub-lieutenant. This he did on the earliest day possible, namely, his nineteenth birthday, June 3, 1884, when he obtained a first class in seamanship.

On coming home he at once joined, as all sub-lieutenants have to do, the naval college at Greenwich for further instruction, and subsequently HMS Excellent at Portsmouth. Naturally he went through the course exactly like anybody else.

Every sub-lieutenant has to pass five examinations, one each in seamanship, in navigation, in torpedo, in gunnery and in pilotage. In four of these Prince George achieved the unusual distinction of obtaining a first class, and thus won his promotion to lieutenant's rank Oct. 8, 1885.

## Rightly Earns His Title as "The Sailor Prince"

On Jan. 14, 1886, he was appointed to H.M.S. Thunderer on the Mediterranean station, but as that ship was detained three months in dock at Malta for repairs, he was temporarily transferred on June 2 to H.M.S. Dreadnought. Prince George received his appointment as one of that ship's regular lieutenants Aug. 25, 1886.

The Duke of Edinburgh was now admiral commander-in-chief in the Mediterranean and Prince George was next appointed to his flagship, the Alexandra, April 20, 1888.

With the duke he went on a state visit to the present Sultan at Constantinople, and during the three years that he served on the Mediterranean station he visited for a second or third time his uncle, the King of the Hellenes, at Athens, renewed his acquaintance with the late Khedive Tewfik at Cairo, besides cruising at various times off the coast of Asia Minor, Syria and the islands of the Aegean.

At the end of three years of very successful service in the Mediterranean, which had been full of much instructive discipline for him, Prince George returned to England and volunteered for another course of gunnery training on board H.M.S. Excellent at Portsmouth.

Having undergone this, he was appointed Feb. 1, 1890, to the Northumberland, Captain Darwin, the flagship of the channel squadron, under the command of Vice-Admiral Baird.

## Makes a Heroic Rescue as Torpedo Boat Captain

He took an active part in the naval maneuvers that summer, and was placed in charge of one of the finest of the torpedo boats.

It happened that another of these craft disabled her screw off the coast of Ireland, and was in danger of drifting on to a lee shore. The sea was running high and there was a stiff gale blowing. Prince George was sent to her assistance. The task was a most difficult one, owing to the delicate nature of the construction of such boats.

He showed, however, such skill, judgment and nerve in approaching, securing with wire hawser after several hours' effort, and ultimately towing the disabled craft into safety, as won him high encomiums of praise to the admiralty from Captain Fitzgerald and other senior officers who witnessed his conduct on that occasion.

As he had now unmistakably given evidence of exceptional capability as lieutenant, the admiralty ordered him on May 6, 1890, to commission the Thrush, a large gunboat of 865 tons burden and 1200 horsepower, at Chatham for service on the North American and West Indian station. Such independent commands are usually given to senior lieutenants only, but it was a distinction which Prince George had well earned.

## Successfully Towed Tiny War Craft Across Ocean

He had further the ticklish task assigned to him of towing a torpedo boat across the Atlantic to Bermuda. This, too, he successfully accomplished. His professional duties took him to various places in the Canadian Dominion and to one or two on the United States seaboard.

In the following autumn he was deputed by the Queen as her representative to open the industrial exhibition at Jamaica. This was his third visit to the West Indies, and his presence awakened among the inhabitants of every degree even more than the usual fervent expressions of loyalty to the crown and attachment to the United Kingdom. Except on state occasions, such as this visit to Jamaica, Prince George always deprecated the necessity of being received with royal honors.

It was with no desire to avoid performing any real portion of his duty, that he requested the admiral in command of the station, Sir George Watson, that he might receive his sanction to be

## FAMOUS HAMPTON COURT

Ancient England is preserved in this impressive relic of the days of moats and drawbridges.

treated simply as an ordinary naval officer.

As soon as this wish became generally known he was enabled to see both the people and the places to which his ship was despatched more naturally, and thus to obtain by direct personal intercourse a probably truer and more adequate knowledge of their real condition than if they had been exhibited to him in constant gala attire.

The Thrush was now required on the west coast of Africa, and her place was to be taken on the North American station by a ship of greater power and tonnage. She was therefore ordered home to England. On arriving there Prince George was promoted to the rank of commander on Aug. 24, 1891. He was then in his twenty-seventh year, and the fifteenth of his naval service.

After his return to England Prince George went in the autumn of 1891 to stay with the Duke of Clarence at Dublin.

## Marries Princess May of Teck in July, 1893

Hardly had the Duke of Clarence been laid at rest, when, in view of securing the succession to the throne, it became bruited that Prince George of Wales would be made to enter the state of matrimony in about a year's time.

Prince George and the Princess May of Teck were married in July, 1893, with magnificent ceremonies.

To them six children have been born. Prince Edward of York, who first saw the light of day in June, 1894, and is the eldest; Prince Albert, Princess Victoria, Prince Henry, Prince George and Prince John. The royal couple are cousins. Prince George of Wales became Duke of York on Queen Victoria's birthday in 1892.

In June, 1892, the lord chancellor, at the Queen's request, moved that the precedent established in the case of the late Duke of Clarence and Avondale with regard to the place he should occupy in the House of Lords should be followed in the case of the Duke of York.

The resolution was agreed to, and was ordered to be reported to the House.

Her majesty's request to the peers that they would settle the place of her grandson, the Duke of York, in their house was an act of courtesy to their lordships, as recognizing their right as guardians of their own privileges.

## Eldest Son, Duke of York, Takes Place in House

On the occasion of his introduction into the House of Lords, the Duke of York, accompanied by his father and his uncle, the Duke of Cornwall, advanced up the floor of the House to the woolsack, the new peer carrying in his hand the long roll of parchment containing his patent of peerage. When he proffered this roll the lord chancellor immediately beckoned the reading clerk to take it, and the procession retired to the table. There the patent of peerage was read aloud, the writ of summons examined and the new peer wrote "York" on the roll of Parliament, where more than 100 years ago it was written by another second son of another Prince of Wales.

The Duke of York was within a few months made a rear admiral in the British navy.

After the passing on of Queen Victoria it was stated that he would by the elevation of his father to the kingship acquire the title of Duke of Cornwall, but that of Prince of Wales was delayed for months.

The new King is known to be a great reader, of active habits of mind and body, punctual in the discharge of the smallest appointments, firm and constant in his friendships, endowed with a large share of practical common sense, simple in his tastes and, like his late brother, singularly free from any trace of self-esteem or conceit, most considerate for the feelings of others, willing to learn from all, generous and openhanded, yet careful and frugal on his own account, for his private allowance has been moderate and never large.

## Prince and Princess Pay Popular Australia Visit

The prince and princess of Wales sailed from England, March 16, 1901, on a journey to the colonial possessions in the Pacific and Indian oceans. They ar-

rived in Melbourne, Australia, early in May, where, on the 9th, the prince presided at the opening of the first federal Parliament. The exhibition building in which the ceremonies took place was filled with 12,000 persons.

The prince summoned the two houses in accordance with the strict forms of the British Parliament and pressed a key by which the opening was made known by telegraph to all parts of the commonwealth. He delivered a long address and declared the Parliament open, after which he read a telegram of congratulation from King Edward.

He visited a number of cities in the southern islands and on May 27 he was welcomed in Sydney, N. S. W., by an immense crowd. He left New South Wales a few days afterward amid expressions of loyalty and respect.

The Ophir arrived in Cape Town, South Africa, Aug. 19, 1901, and after a brief visit sailed for Canada. The party reached Quebec in September and on the 17th reviewed the troops on the plains of Abraham.

The prince and his wife were royally received in Ottawa, where they visited a lumberman's camp and enjoyed the novel sports of rough life in the woods. Their itinerary included Regina, N. W. T., Vancouver, B. C., Guelph, Ont., Niagara Falls, Halifax, N. S., and St. John's, N. F., whence they sailed for England Oct. 25.

## Splendid Naval Pageant Grooms the Home Coming

They arrived in Portsmouth Nov. 1, where they were affectionately greeted by the King and Queen and their children. There was a splendid naval pageant in honor of their home-coming and they sailed through lines of gayly decorated vessels to the quay, where they were received by the royal family.

The prince visited Berlin in 1902 to represent King Edward at the celebration of the anniversary of the German Emperor's birthday. There was much kissing between the royal cousins, but the people maintained an attitude of cool indifference toward him and he was treated with the barest civility in the streets.

The prince and princess went to Vienna in April, 1904, to visit the Emperor Francis Joseph, and a number of fetes were given in their honor. In October, 1905, they left England for a six months' visit to India.

They sailed on the battleship Renown and arrived in Bombay Nov. 10. They remained in the country until March, visiting the principal cities and states and receiving the princes and chiefs on behalf of King Edward.

The last tour of importance in which the prince engaged was that which brought him to Quebec in July, 1908. He sailed on the battleship Indomitable and was welcomed by 50,000 persons, among whom were Mrs. Fairbanks, wife of the former Vice-President, and Mrs. Cowles, sister of ex-President Roosevelt.

Premier Laurier made an address in which he assured the prince of Canada's loyalty and the visitor responded in French and English. He sailed for home July 29, but it was said that he left little impression upon the people.

## Queen Consort Descends From Earlier Georges

Mary of Teck—her full baptismal name is Victoria Mary Augusta Louisa Olga Pauline Claudine Agnes—who through the demise of King Edward VII. became the Queen consort, was born at Kensington palace, London, May 26, 1867.

Her parents were the Duke and Duchess of Teck, and she is descended on her mother's side from English royal stock and on her father's side is a direct descendant from King George II.

Her mother was the daughter of Adolphus Frederick, Duke of Cambridge, the seventh son of George III., whose father was Frederick, Prince of Wales, eldest son of George II. and Caroline of Anspach.

The title of Teck comes from an old castle near the Danube, indicating the German strain in the family.

## Was Previously Engaged to Elder Brother of the King

Since reaching womanhood the "Princess May," as she was popularly called, has been a prominent figure in three events of public interest previous to the

one in which she is now filling such an important role.

These were first, her engagement to the late Duke of Clarence, elder brother to the new king; next, her engagement to the latter, and then the memorable marriage of the two, one of the greatest social events of the closing years of the nineteenth century.

To these might also be added the tour around the world in the royal yacht Ophir made by the royal pair in 1901, in the course of which the Duke and Duchess of Cornwall and York, as their title then was, landed in Canada and journeyed across the entire dominion in a sumptuous special train.

## Mary of Teck Is Popular With the British People

If there has ever been any popular lukewarmness in the British isles toward her husband, there certainly has never been anything of the sort in the case of this popular young woman of whom, at a very early age, her fond mother described as being "really as sweet and engaging a child as you can wish to see."

While they love her for her many virtues and graces, the English people have always been especially loyal to the "Princess May" because she is so thoroughly English herself, in birth, in training and in sentiment.

She has always been a great devotee of outdoor sports, another attribute which has helped to endear her to the British heart. She is a capital rider and in her younger days was often seen in the saddle.

Following are the names and titles of the late King and his successor:

Albert Edward VII.—By the grace of God of the United Kingdom of Great Britain and Ireland and of the British Dominions Beyond the Seas King, Defender of the Faith, Emperor of India.

George Frederick Ernest Albert, Prince of Wales and Earl of Chester, Duke of Cornwall, Earl of Dublin, Duke of York, Earl of Inverness, Baron Killarney, and Duke of Rothesay in Scotland.

## MR. CARROLL DULY ACCEPTED FOR THE BATH COMMISSION

Civil Service Board, However, Fails to Confirm ex-Mayor for Collector or Mr. Rourke as Street Head.

A confirmation of the appointment of Francis M. Carroll to be a member of the board of bath trustees was sent to the city clerk by the civil service commission this forenoon.

The failure of the civil service commission to make a report to the city clerk today on the appointments which the mayor has sent to the board for confirmation is believed by many in political circles to indicate that ex-Mayor George A. Hibbard is not to be confirmed by the board for the position of city collector, which pays a salary of \$5000.

The 30 days allowed the commission for the consideration of the appointments expire in Mr. Hibbard's case on Monday and the commission is not expected to have another session until Tuesday afternoon.

The mayor is rather uneasy over the prospects of the commission confirming many of his other appointments and rumor has it that several will not get past the board. The time for consideration on the appointment of Patrick J. Brady to be a member of the board of overseers of the poor expires today and other appointments which are before the commission and the dates of expiration of time limit on them are as follows:

Felix W. McGettrick, assessor, May 8.  
Thomas R. O'Connor, music trustee, May 9.  
George A. Hibbard, city collector, May 11.

Dr. Francis X. Mahoney, health commissioner, May 14.  
Jeremiah J. McCarthy, fire commissioner, May 22.  
Camuel H. Borofsky, children's institutions trustee, May 22.  
Louis K. Rourke, superintendent of streets, May 25.

Charles D. Maginnis, art commission, June 2.  
John F. Kennedy, schoolhouse commission, June 3.

The mayor's office is in receipt of a communication from the civil service commissioners, transmitting an opinion from Attorney-General Malone, which opinion holds that the position of sealer of the weights and measures department is under civil service, and that the present sealer cannot be removed except on charges preferred and a hearing given.

## HOTEL CATERER ACTS AS WAITER

NEW YORK—Max Christen, who has been employed as a waiter in the Hotel Plaza for the last six months, is the senior member of the firm of Christen Bros., hotel proprietors and caterers, of Genoa, Italy. Mr. Christen revealed his identity just before sailing Friday on the steamer Hamburg.

"I came to this country," said Mr. Christen, "to study the operation of a big American hotel, as we have many American tourists visiting Genoa."

Beginning Monday, May 9th, and Lasting All Week

## Annual May Week Sale

SIX DAYS of selling. Each day to surpass, in Volume of Business, the "biggest day" we've ever had.

That is the mark we've set. You know exactly what to expect in the way of value giving for this establishment has conducted the greatest merchandizing events ever launched in the city of Boston.

"May Week" means Six Sale Days with a "Gilchrist Sale Record" broken every day

We've got our own record to beat. Every person in Boston and its environs knows from this that it will be an event unprecedented in Bargain importance.

You will remember the splendid values in our sale of Falvey Bros. stock—the offerings for the coming week are even greater bargains.

Prince of Wales at 4 p. m. today is sworn in as the new monarch of England.

ST. JAMES PALACE IN LONDON.

Privy council summoned to throne room in this palace to proclaim the new sovereignty of George V.

## FRENCH OFFICERS FOR GREEK ARMY

ATHENS—A statement has been published in some of the French newspapers recently that a request had been made by the Greek government to the French government to send some officers to take commands in the Greek army. There are constitutional obstacles in the way of giving these officers executive appointments and it is because of those difficulties that, as is now officially stated, only preliminary steps have been taken, since, according to the Greek appointments in the kingdom, the officers could be given merely consultative duties. It is expected that the difficulties will be overcome by the modification of the clause referred to.

## AWARD ALEWIFE BROOK CONTRACT

The contract for the completion of the dredging and straightening of Alewife brook was given today to the Eastern Dredging Company for \$51,000. The company will start work at once as the dredging must be completed by Oct. 1. This work is under the jurisdiction of the Metropolitan park commission, which has already built a dam at Craddock bridge on the Mystic river at Medford, which holds back the tide water. Alewife brook connects the Mystic river with Spy pond. About one-half of the work was completed last year. When the dredging is completed it is expected that the canal will drain the meadows in the Cambridge-Belmont district.

PENSIONS FOR WAR NURSES. WASHINGTON—A bill was passed by the Senate Friday, granting pensions of \$12 a month to nurses who served in the civil war. The Senate adjourned until Monday, but the House is in session today.

## HOTELS

THE ARLINGTON  
ARLINGTON STREET

# New King Hailed Throughout Great Britain

## CAREER OF THE NEW RULER SHOWS HIM A MAN OF ACTION

LONDON—The thoughts of England turn largely toward the new king—what policies he is likely to follow. George V. has never been as well known or as close to the people as his father was when he was Prince of Wales. Hence he never was so popular.

He reached maturity as merely the grandson of the sovereign, which gave him little opportunity to participate in public affairs, but he has become more active during the past five years in that direction. He had been a constant attendant at Parliament and followed the debates on the House of Lords question closely. He has made many public speeches before non-political organizations in the past two or three years and has thereby gained a stronger hold on the people.

The dominant characteristics of the new king are said to be love of country and of home, and it is predicted that his court will be smaller and less representative than King Edward's.

George Frederick Ernest Albert, the new King of England, second son of King Edward VII., became heir apparent to the English throne on the demise of Queen Victoria, the eldest son having passed on.

As a youth he was known as Prince George of Wales.

He was born at Marlborough house, in 1865. As a boy he presented in nearly every respect a marked contrast to his elder brother, the late Duke of Clarence, who was his senior by just 17 months.

For the first 18 years of his life he was the inseparable companion of his brother; and probably there have rarely, if ever, been two brothers that were more attached to each other than these two. Each seemed to find in the other the complement of his own individual characteristics.

## Brothers Enter the Navy Together as Mere Cadets

The brothers entered the navy together as cadets June 5, 1877. The regulation limit of age within which boys must enter is 12 years on the one side and 13½ years on the other. Prince Louis was within three days of the maximum and Prince George had only passed the minimum by two days. He was probably the youngest cadet that ever joined the Britannia.

The two years' life spent on board the training ship under the command of Captain (now vice-admiral) Fairfax at Dartmouth admirably suited the two princes, and conducted in every day to their development. While there Prince George won more than one prize for boat sailing, and pulled in more than one victorious crew of cadets.

## The Two Princes Embark on Long Tour of the Globe

On July 15, 1879, the *Bacchante* was commissioned. In her the two princes made their well-known three years' voyage about the globe. They were both rated as midshipmen on the elder prince's birthday, Jan. 8, 1880.

For the greater portion of the time the *Bacchante* was attached to the training squadron under the command of Admiral Earl of Clanwilliam, which consisted of the *Inconstant*, the *Tormentor*, the *Cleopatra* and the *Carysfort*.

The two princes under these auspices saw for the first time the West Indies, South America, the Cape, Australia, Fiji, Japan, China, Singapore and Ceylon. The *Bacchante* was then ordered through the Suez canal into the Mediterranean, and a considerable period of time was spent by the princes in Egypt, the Holy Land and Greece during the spring of 1882.

After returning to England about the beginning of August, Prince George went in the autumn along with his elder brother, under the care of his naval instructor, Mr. Lawless, and the present French master at Eton, M. Hua, to Switzerland.

They resided at Lausanne for six months, until on the 1st of May, 1883, Prince George was appointed midshipman to the *Canada*, which was then commissioned for service on the North American and West Indian station.

## Early Years as Princess Spent in Study and Travel

The early years of the new Queen's life were, for the most part, uneventful. At the age of 16 or 17, after being educated largely at home, she was taken to Florence, Italy, where the entire family remained about 18 months.

While in Italy Princess May became much interested in Italian art and had already given evidence of considerable musical talent.

She attended her first drawing room in 1886, and during the same season appeared at two state functions.

After this the young woman made short trips to Bavaria, France, Holland and other places, most of the time maintaining a placid and refined home life at White Lodge.

In 1891 the subjects of Queen Victoria learned with much interest and satisfaction that an engagement had been entered into between the Duke of Clarence and Princess Alice.

## LONDON HOME OF KING GEORGE V.

Buckingham Palace, to which new monarch may go from Sandringham after his coronation.

## Chronology of Events of King Edward VII.'s Reign

Rule of over nine years marked by settlement of international difficulties and many royal visits.

JAN. 23, 1901—Succeeded Queen Victoria.

Jan. 24—Proclaimed Edward VII. "by the Grace of God of the United Kingdom of Great Britain and of the British Dominions Beyond the Sea, King, Defender of the Faith, and Emperor of India."

Feb. 14—King Edward opened Parliament.

March 11—Great Britain declined to accept the Senate amendments to Hay-Pauncefote treaty.

April 10—General Botha attempted peace negotiations with British authorities in South Africa.

May 2—Glasgow international exhibition was opened.

May 22—Arabi Pasha, the Egyptian rebel, was pardoned by the British government.

June 7—Andrew Carnegie gave \$10,000,000 to Scotch universities.

July 5—Leander won the Henly boat race in England for the Grand challenge cup from the University of Pennsylvania.

Sept. 21—The statue of King Alfred the Great was unveiled by Lord Rosebery at Winchester during the millenary celebration.

Oct. 4—Shamrock II. defeated in third race for the America's cup by the *Columbia*.

Oct. 22—Sir Redvers Buller relieved of his command of the first army corps, British army.

Oct. 28—The King Alfred, largest cruiser then in world, launched.

Signing of Panama Canal Treaty a Feature of Reign

Nov. 8—The Panama canal treaty between Great Britain and the United States was signed by Lord Pauncefote and Secretary Hay.

Feb. 12, 1902—British-Japanese alliance to preserve the integrity of China and Korea announced.

March 11—Boers captured General Methuen and 200 men.

April 4—Rhodes scholarships for American and German students at Oxford made public.

May 31—Lord Kitchener announced that peace treaty had been signed between England and Boers.

June 24—Coronation, set for June 26, postponed.

July 12—General Kitchener returns to England and decorated with the new Order of Merit by King.

July 14—Marquis of Salisbury resigned as premier of England and Arthur J. Balfour succeeded.

Aug. 9—Coronation of King Edward VII. and Queen Alexandra in Westminster Abbey.

Oct. 21—Samoan controversy decided in favor of Samoa.

once, at that time stationed in Dublin, and Princess May.

The passing of the Duke of Clarence left Prince George, his brother, heir presumptive to the throne, and to him the princess afterward became engaged.

Royal Wedding Took Place in London 17 Years Ago

The royal marriage took place July 6, 1893, the ceremony being performed in the Chapel Royal, St. James, London, by the Archbishop of Canterbury. Queen Victoria was present, with the Prince and Princess of Wales and the other members of the royal family, and there were scores of titled guests from various European countries. Ten princesses served as bridesmaids.

It is a matter of great pride to the average Briton that in the bride's train all the silk was manufactured in England, all of the flannel in Wales, all of the tweeds from Scotland and every yard of lace and poplin from Ireland.

No numerous and beautiful were the presents—a costly diamond necklace from Queen Victoria being included—that they were afterward placed on public exhibition in the imperial institute.

With the exception of her seven months' trip around the world, this popular and well-read woman has devoted herself assiduously to the bringing up of her family.

The new Queen is by no means a handsome woman, but she is an exceedingly well groomed one and always thoroughly up to date in point of dress, and her winning smile and gracious ways have much to do with shaping the course of empire and keeping intact the affections of the British for the royal family.

by King Oscar of Sweden adversely to the United States and England and in favor of Germany.

Nov. 8—Reciprocity treaty between Newfoundland and United States signed.

Nov. 25—Joseph Chamberlain, British colonial minister, starts on official visit to South Africa.

Nov. 26—England and Germany united to press claims against Venezuela.

Dec. 8—Assuan dam on the Nile in Egypt opened.

Dec. 9—Great Britain and Germany presented ultimatum to Venezuela.

Dec. 9—Venezuela fleet seized by the British and German fleets.

Venezuela Custom House Seizure to Secure Rights

Dec. 10—British and German fleets landed marines at La Guaira, Venezuela, and seized the customs house.

Dec. 14—British and German cruisers bombarded and demolished a Venezuelan port at Puerto Cabello.

Dec. 15—Venezuelan government appealed through the United States for arbitration of European claims.

Jan. 1, 1903—Ceremonies of the coronation durbat at Delhi, India.

Jan. 24—Great Britain and United States sign treaty for mixed commission to settle the Alaskan boundary dispute.

Feb. 13—Great Britain, Germany and Italy signed protocols for settlement of Venezuelan controversy.

March 25—Mr. Wyndham, chief secretary to Ireland, introduced Irish land bill in the House of Commons.

April 27—King Edward guest of King Emmanuel at Rome.

May 1—King Edward received at Paris by President Loubet and French people.

July 6—President Loubet entertained by King Edward.

July 21—King Edward and Queen Alexandra warmly received in Ireland.

July 21—House of Commons passed Irish land bill vote of 317 to 20.

July 23—Battleship King Edward VII. launched at Devonport, Eng.

Aug. 5—Andrew Carnegie gives \$2,500,000 to native town of Dunfermline, Scot.

Aug. 22, 25, Sept. 3—America's cup won by Reliance.

Sept. 17—Joseph Chamberlain, Charles T. Ritchie and Lord George Hamilton resigned from British ministry.

Alaska Boundary Dispute Settlement Was Effectuated

Oct. 17—Alaskan boundary tribunal decides in favor of United States.

Nov. 17—Victor Emmanuel and Queen Helena cordially received in England.

Jan. 29—Tibet demands English forces be withdrawn.

March 31—British, under Colonel Younghusband, repulsed the Tibetans.

April 8—Anglo-French colonial treaty, covering all disputed questions, signed in London.

July 11—British steamer *Cheltenham* declared prize of Russian Vladivostok fleet.

July 24—British steamer *Knight Commander*, with cargo of 50,000 pounds, sunk off Vladivostok.

Aug. 7—Colonel Younghusband at head of British troops enters Lassa.

Sept. 20—Russia protested against the Anglo-Tibetan treaty.

Oct. 28—Russia and England agreed to arbitrate North sea difficulty.

Nov. 4—Canadian election returns give the Liberals a majority of over 70.

Nov. 12—French chamber ratifies the Anglo-French treaty, including the cession of the French share of Newfoundland.

Nov. 19—King and Queen of Portugal visited England.

Jan. 27, 1905—Largest diamond mine in the world discovered in the Premier mine, South Africa.

June 15—King Alfonso arrived in London on a visit to King Edward.

Aug. 20—Lord Curzon resigned as viceroy of India. Earl of Minto succeeded him.

Sept. 27—England and Japan signed a treaty of alliance, including an agreement to maintain peace in eastern Asia and India and preserve the integrity of China.

Cruiser Squadron Visits American Naval Station

Nov. 1—Prince Louis of Battenberg with cruiser squadron visits Annapolis.

Dec. 7—Balfour ministry resigned.

Feb. 10, 1906—British battleship *Dreadnought* launched at Portsmouth.

April 28—Stage jubilee of Ellen Terry at London.

May 31—King Alfonso married to Princess Victoria at Madrid.

Aug. 15—King Edward arrives in Berlin on visit to Kaiser.

March 2—The city of London voted municipal ownership a failure.

March 22—British House of Commons rejects adoption of metric system.

April 11—Lord Cromer resigns as British agent and consul-general in Egypt, and was succeeded by Sir Eldon Gorst.

April 15—Great Britain reduced rate of postage on newspapers, magazines and trade journals from eight to two cents a pound.

Sept. 13—Lusitania completed maiden voyage from Queenstown to New York in five days 54 minutes.

Nov. 13—German Emperor visited London.

April 5—Sir Henry Campbell-Bannerman resigned as premier of Great Britain and was succeeded April 18 by H. H. Asquith.

May 14—Franco-British exposition opened in London.

June 13—Ten thousand suffragettes marched from the Victorian embankment to Albert hall, London.

June 16—The Pan-Anglican church congress convened in London.

Quebec Celebrates Third Century of City's Career

July 22—The Quebec tercentenary began, the Prince of Wales and Vice-President Fairbanks making speeches.

Oct. 1—The 2-cent postage rate between the United States and Great Britain went into effect.

Oct. 5—Bulgaria declared independent at Tirnov by Prince Ferdinand.

Jan. 11, 1909—Secretary Root and Ambassador Bryce signed a treaty providing for the settlement of points in dispute between United States and Canada.

Jan. 27—Secretary Root and Ambassador Bryce signed the Newfoundland fisheries treaty.

Feb. 11—Chancellor von Bulow and Sir Charles Hardinge, in conference, adjusted relations of Germany and Great Britain.

Feb. 25—An international naval conference in London agreed on the new code for naval warfare.

March 23—Lieutenant Shackleton of the British navy reached New Zealand after having penetrated to within 111 miles of the south pole.

March 24—New Zealand offered a battleship to the British imperial navy.

March 27—The centenary of Edward Fitzgerald's translation of the *Rubaiyat* was celebrated in England.

April 29—Mr. Lloyd George, chancellor of the exchequer, introduced the British budget.

May 3—The Aeronautical Society of London presented its gold medal to the Wright brothers.

Russo-Chinese Agreement on Railroads Is Refused

July 5—The United States, Great Britain and Austria refused to approve the Russo-Chinese railroad agreement.

July 12—Lord Roberts introduced a compulsory military service bill in the House of Lords.

July 17—Great British armada of more than 150 effective ships assembled in the Thames.

July 25—M. Bleriot crossed the English channel in his monoplane.

Aug. 6—Lord Kitchener succeeded the Duke of Connaught as inspector-general of the British Mediterranean forces.

Nov. 4—The British House of Commons passed the budget.

Nov. 8—Lieut. Ernest H. Shackleton was knighted by King Edward in the latter's birthday honors.

Nov. 15—King Manuel was received with honors in London.

Nov. 17—The Irish land bill, somewhat amended, passed the House of Lords.

Nov. 30—The House of Lords rejected the budget by 350 to 75.

Dec. 1—Parliamentary election campaign in Great Britain opens.

Jan. 15, 1910—King dissolves second Parliament of his reign.

Feb. 15—Third Parliament of Edward VII. assembled.

April 28—Lords passed budget which was formerly rejected, in form practically unchanged.

## HISTORY EXPERT GIVES ESTIMATE OF KING EDWARD

Albert Bushnell Hart, professor of American history at Harvard University, in the Boston Herald today gives the following estimate of Edward VII. and his place in history:

That Edward VII., by the grace of God, of Great Britain and Ireland King, Emperor of India, should have become one of the greatest figures in the past decade is proof of his remarkable abilities and character. For a sovereign of Great Britain is shut in by a government more directly subject to popular opinion than that of the United States. In the midst of the power of the ministry backed by Parliament, Edward made himself the great statesman of his own reign.

This large and well-used power did not come to him by birth. For centuries it has been a tradition in England that the heir to the throne must be wholly out of politics. Up to 60 years of age, Albert Edward, Prince of Wales, had no larger responsibilities than the laying of cornerstones, the opening of bridges and the spending of an unreasonable lot of money. He was a comely youth when he visited the United States in 1889.

## Edward Lived for 40 Years Life of a Vice-President

The late Edward Everett Hale, in his sketch, "Did He Take the Prince to Ride?" gives him a double for official occasions, and sends the actual Prince to visit the real, cultured Bostonians. Forty years longer he lived the placid and repressed life of a perpetual vice-president.

His chance to reveal himself came in 1901, at an age when few men dream of making a reputation; and he took it manfully. England was in a critical position, out of accord with most of her neighbors, and unpopular throughout the world. He took the responsibilities of a King, and enlarged them to the welfare of a kingdom.

Without a veto, distributing appointments and honors as the ministry decided, reading such speeches from the throne as they wrote for him, he nevertheless speedily became the most powerful man in England, and one of the great forces of the world.

## Used His Great Prestige for the Peace of Europe

His place in the world was unique—one of the elders among sovereigns, kinsman to many of the continental kings and emperors, he had a kind of family dignity, which he supplemented by a tact and wisdom in dealing with English public men which gave him great influence on domestic questions, that power he steadily used for harmony, as he used his great prestige in Europe for peace. He made it his mission to remove difficulties, to smooth the way for national confidence.

He saw the desirability of a cordial understanding with France, helped to bring about a renewal of amity with Russia, worked against the unnecessary hostility toward and from Germany, and seems to have been an ardent advocate of alliance with Japan and friendship with the United States.

This was Edward's service to his country and to mankind—he stood for peace with honor; he showed how a constitutional king could still be a fence and a stronghold of confidence.

Americans honor him as a friend to the United States, who saw how much the two nations might accomplish by a good and cordial feeling which needs no sanction of treaties. George V. will reign many years before he can become such a power in the world.

## Royal Family of England, Showing Children of King

KING EDWARD'S FAMILY.  
Albert Victor, born Jan. 8, 1864.  
George Frederick Ernest Albert, now King George V., married July 6, 1893, to Princess Victoria Mary (May) of Teck.

## King Edward VII. and Politics

LONDON—The following tribute of respect paid King Edward at a recent public dinner is more or less an indication of the affection in which the departed ruler, Edward VII., was held by his subjects:

"The position today requires and calls upon all loyal subjects of the crown for their complete sympathy, aid and assistance. There has never before been a time, in my experience, when ministers of the crown have been emboldened to speak as if the crown was in the hands of those who happened to be the ministers of the crown for the time being. The King has no sympathies, no proclivities at all, and what his majesty does when sometimes either side may be unreasonable is to remain in a position of complete impartiality. He has no party politics.

"His view is—and as a constitutional sovereign it ought to be—that he is the King of the whole country,

# King Edward Was Beloved by All

(Continued from Page One.)

The troops drawn up about the palace brought their arms to present, and on signal from the king at arms the entire assemblage shouted:

"God save the King!"

The hands struck up the national anthem, while a battery of artillery parked on the adjoining terrace fired the royal salute.

King George drove to the council chamber accompanied by a brilliant suite. Tens of thousands cheered the passage of the royal carriage. The King bowed in recognition of the cheers.

The scene at the privy council chamber was of unusual brilliancy. More than 200 nobles, headed by Prince Christian and the Dukes of Argyll and Effo, were present, as well as a host of other royalties, judges, bishops, sheriffs and the lord mayor. All wore their official uniforms.

The King's speech closed the exercises for the day, reserving until the proclamation is read the spectacular features that always attend this event.

The funeral of King Edward will probably be held at Windsor castle May 17, and the body laid to rest in a special mausoleum, instead of the mausoleum containing the bodies of the late Queen Victoria and the prince consort, parents of the late King.

The new King promised to reign as constitutional sovereign. At the conclusion of the meeting King George issued his first proclamation, requiring all officials to proceed with their duties. Formerly, all offices, including the councilors, were vacated on the passing on of the sovereign.

The aldermen of the city of London attended the council and swore allegiance. A proclamation has already been issued by the home office requiring theaters to close today.

Premier Asquith, who is in Spain, cannot reach London before Monday. Speaker Lowther of the House of Commons, however, is in Constantinople.

## Liberal Program Likely, It Is Said, to Be Postponed

LONDON—Public opinion will doubtless demand that the Liberals' program for reforming the House of Lords, with a possible appeal to the crown to make the most important decision a sovereign has been called upon to make in many years, shall be laid aside for a long time as a result of King Edward's demise. They would be opposed to thrusting upon King Edward's successor at the very beginning of his reign, when he was first grappling with important routine work, a question so vital to the future of the empire.

Throughout the eight years of King Edward's reign, tariff reform versus free trade, which was inaugurated by the famous Chamberlain speech in May, 1903, has been continuously under discussion. The close of the year 1902 saw the end of the long Salisbury administration and the accession of Mr. Balfour to the premiership.

On his accession to the throne before the privy council the King announced his intention "to walk in his mother's footsteps," but while Queen Victoria lived almost a life of retirement, interesting herself mainly in home affairs, the King's influence throughout his reign had been devoted more to international affairs, by visits to foreign courts and personal action of constitutional character in various directions, making every possible effort to bring the empire into the friendliest relations with other countries and his efforts were so successful that he has been universally known as "Edward the Peacemaker."

Politically King Edward's reign has been chiefly notable for the inauguration of a new era of social legislation for the benefit of the people, which followed the coming of the Liberals into power again, after a long Conservative regime. The general elections in 1906, fought on the free trade question, brought the strongest Liberal government for many generations into power, and under the Campbell-Bannerman and Asquith ministries, many measures, dealing with education, old age pensions, the relations of workers to employers, and cognate matters were put into successful operation, while the great Irish home rule question, which so agitated the political parties in the Victorian era, has been to a great extent thrust in the background.

The reign, however, closes at a period of great political unrest, with a large section of the community vigorously opposed to the new Liberal policy of encroachment on the privileges of the landed and aristocratic classes, and with heated questions of the constitution of the House of Lords, tariff reform and home rule unsettled.

## All the Cabinet Members Hurry Home for Meeting

LONDON—All the important cabinet members are out of the city. They are hurrying home, but there cannot be a cabinet meeting before Monday. Speaker Lowther of the House of Commons is hastening to London from Turkey. This and the absence of other important members will prevent a meeting of Parliament before Monday.

Enough members of Parliament were rounded up to furnish a quorum and the body met this afternoon at 3 o'clock and began swearing in members under the new regime.

King George this morning conferred with Home Secretary Churchill, Attorney-General Robson, Clerk of the Privy Council, Sir Almeric FitzRoy and other members of the privy council regarding his proclamation address. The new King also

## His Majesty King George The Fifth Proclaimed as Ruler of British Empire

KING GEORGE V. OF ENGLAND. Democratic picture of the new monarch recently taken while he was Prince of Wales.

called upon his mother, now the Dowager Queen.

CHRISTIANIA—King Haakon and Queen Maud, the latter the third daughter of the late King Edward, left today for London.

## England Is Lukewarm at Accepting New King

LONDON—With King George's taking of the oath of office this afternoon monarchical government of Great Britain goes on trial for its life. British statesmen of the first magnitude see today in the nation the outlines of an historic crisis. King George assumes his duties under the most adverse circumstances. Should his hand not be strong enough to wield the scepter it is admitted by publicists today that the passing of the monarchy in England is entirely within the range of possibility.

With questions of the utmost moment both at home and abroad crowding fast upon him King George begins his task without either the love, respect or support possessed by his father or his grandmother, Queen Victoria.

The present cabinet is openly and recognizedly not in sympathy with the few known views of the new King. The problem of the supremacy of the House of Lords or of the House of Commons confronts the new monarch.

Grave constitutional questions, admittedly of the utmost delicacy because of the anti-British feeling in Germany, will require his early consideration. Probably the best known characteristic of the new monarch is his anti-German sentiment and his advocacy of a large navy.

Despite the generally accepted belief that the King has no real power so far as actual government is concerned, he is a tremendous factor by reason of the influence he possesses. This, King Edward invariably exercised with consummate skill. As a diplomat he had no superior and he used that power to maintain peace both at home and abroad and many seemingly insurmountable difficulties were smoothed over by his tact and discretion.

There is no use to pretend that the nation considers King George adequate to the situation. The general popular comment regarding him during his principality has been invariably of a slighting character and in many cases contemptuous. Today the newspapers merely express the hope that the opportunity will develop unexpected ability.

On every side fear is expressed that the struggle between the Lords and the Commons may be permitted to degenerate into a mischievous struggle that may involve the nation and that the foreign relations may be complicated to a dangerous degree.

Summed up it is admitted today that the position of King George closely resembles that of Louis XVI. of France, well meaning but apparently mediocre. He is raised to the throne at a time of the greatest stress and financial circles admit their alarm.

Optimists point out, however, that fears regarding the new reign may be exaggerated. Intentionally, by command of the reigning monarch, the heir to the throne is compelled to lead a colorless existence, doing nothing to distract attention from the occupant.

His first public utterances to attract attention were on his trip to India in 1901, when his speeches praising the colonies and declaring the time ripe for closer relations between the mother kingdom and her children were received by the people of the colonies as indicating a new era for the empire.

Returning to England by way of Canada, he caused a sensation in London

## Bodyguard of His Majesty One of Ancient Honorary Places Near British Ruler

MAJ. THE HON. W. C. ROWLEY. Corps of gentlemen-at-arms was formed in 1509 and was commanded under late King by Lord Denham.

by a speech in the ancient Guildhall. Facing officials and merchants gathered to welcome him home, he began the speech which attracted world-wide interest. His opening note: "Wake up, England; you have been asleep too long," sounded a keynote in national affairs. It has been charged, however, that the speech was written by a London newspaper man.

One thing likely to aid him in his new duties is the fact that he is more English than his father. King Edward was brought up in surroundings more German than English. To this some diplomats attribute the animosity between the King and his nephew, the Emperor of Germany. There is little personal rivalry between the new King and the Kaiser, and this gives rise to the hope that there may be better feeling between the two nations. This is a question on which there is great division in London today.

The domestic character of the new King is flawless and his intimates are the oldest of the British peers.

## Line of British Sovereigns And Length of Reigns

It is interesting to note that from the time of William the Conqueror, to the accession of George V., Queen Victoria has the longest reign to her credit with 64 years. George III. came next with 60 years.

The list is as follows: William the Conqueror 21 years, William II. 13, William III. 13, King Stephen 19, King John 17, Henry I. 36, Henry II. 35, Henry III. 56, Henry IV. 14, Henry V. 9, Henry VI. 32, Henry VII. 24, Henry VIII. 38, Edward I. 33, Edward II. 20, Edward III. 49, Edward IV. 22, Edward V. (months) 2, Edward VI. 6, Richard I. 10, Richard II. 22, Richard III. 3, Mary I. 5, Queen Elizabeth 44, James I. 22, James II. 16, Charles I. 23, Charles II. 24, Queen Anne 12, George I. 13, George II. 33, George III. 60, George IV. 10, William IV. 6, Queen Victoria 64, Edward VII. 9.

## NINETEEN-FIFTEEN MAGAZINE IS OUT

The first issue of the "Boston-1915" magazine, New Boston, published by the directorate of "Boston-1915," at 6 Beacon street, was issued today. It contains several illustrations dealing with present conditions in Boston as well as many on general subjects.

Among the articles are one on Boston's housing problem; "The Boys' Games of 1909," by Frank S. Mason, illustrated; "The Democracy of 'Boston-1915,'" by C. Bertrand Thompson; "Springfield's Independence Day," by William Orr, illustrated; "School Help in Choosing a Career," by Meyer Bloomfield; "The City Guard," by Frank O. Carpenter, and "Savings Bank Insurance," by Harry W. Kimball.

The publication is of standard magazine size and contains 45 pages of reading matter and a number of advertisements. The front cover bears a design of an arch in white surmounted by the inscription "1915" on a groundwork of blue. The magazine, which sells at 10 cents a copy or \$1 a year, will be issued once a month to record the progress in developing Boston into a greater and finer city.

HENRY B. CHAPIN PASSES AWAY. Henry Bainbridge Chapin, until a fortnight ago a member of the banking firm of Schirmer, Chapin & Emmons of Boston, passed away early this morning at his town house at 19 Marlboro street.

## HEIR APPARENT OF BRITAIN'S REALM IS NOW BOY AT SCHOOL

Prince Edward Albert, heir apparent and oldest son of the Prince of Wales, now King, is 16 years old and a cadet in the royal navy.

He has four brothers and a sister, Albert Frederick, Victoria Alexandra, Mary, called always Princess Mary, Henry William, George Edward and John Charles. Prince Albert Frederick, the second son, is a little less than two years younger than Prince Edward; Princess Mary is 13. Prince Henry is 10, Prince George 8 and Prince John not quite 5.

The royal children have been brought up as much like other English children as has been possible. They have been subjected to gentle but firm discipline, trained in habits of industry and self-denial and all but little Prince John is made to study like other children.

Prince Edward entered the Royal Naval College in 1907 and Prince Albert became a cadet last year. It is said of both that they are enthusiastic and diligent students, and are exceptionally promising mathematicians. In addition they take keen delight in all ordinary field sports and are bold riders. Yachting is another of their favorite interests.

## Younger Brother Forges Ahead of Elder in Sports

Although Prince Edward by virtue of his inheritance is of more importance than his brother Albert, their father, who has been at great pains to keep them on a footing of impartiality both at the naval college and elsewhere, insists that no distinction be permitted to appear above the surface of their every-day life. It is even said that of the two Prince Albert is the better man at a wicket and with boxing gloves and is his brother's hardest taskmaster at these sports. Last year at Cowes Prince Edward made some criticism on the maneuvering of a yacht and was at once corrected by his brother in an audible and highly pointed remark concerning "duffers."

The children are a familiar sight in London, especially Hyde Park, and the two older boys have recently been initiated into the mysteries of the fox meets. It was promised them last autumn that they would be permitted to follow on full made horses this fall.

That the prince and his brothers and sister have been kept so much out of the public view is due to theories held by their parents and grandparents. It has been the aim to bring them up wholesome, unaffected children, and all persons who know them declare that the efforts to this end have succeeded admirably. They are described as wholly without ostentation and as showing an almost immoderate respect and obedience to those not their equal in rank who have been placed in authority over them.

About one third of the course that Prince Edward and Prince Albert are receiving at the naval college is devoted to the practical side of the naval profession, and recently the princes were taken on the trial trip of a torpedo boat.

## ANALYTICAL STUDY BY A HARVARD MAN

(Continued from Page One.)

bristling difficulties: the antipathy between the two nations has been growing steadily of late; King Edward resisted it with all his might, but the new King is suspected of being as anti-German as most of his subjects.

"From this brief summary it will be seen that large and dangerous problems await the sovereign who has just taken the reins of government in hand. Has he the ability to cope with them? Has he the moral and intellectual strength needed to solve the questions that are pressing for settlement? Has he the firmness which is indispensable to a constitutional ruler, the clearheadedness which will enable him to avoid pitfalls and to steer prudently amid the many dangers which beset his course?"

"That is difficult to answer, for the new King, as Prince of Wales, has not had the opportunities of discharging public functions to anything the same extent as his father when he was Prince of Wales."

"Still on the rare occasions when he has been called upon to speak in public he has spoken sensibly and well, with a clear understanding of his topic and a grasp of the question. So far one may well hope that he will prove like his father, a wise and strong ruler. He has had the example and the teaching of his father; he has had the earnest good wishes of his people, who will forgive much to a monarch who shows himself resolved to think first and last of his people and never of himself. And it is not unlikely that this will be the case with King George V."

"He may be depended upon to prove himself a wise King; he comes of good stock, has had good training, is a sensible man—and all this means that he has many chances in his favor—rather than the empire, the world, have reason to look forward hopefully to his reign."

PUBLICITY FOR CAMPAIGN FUND. WASHINGTON—A bill to require the publicity of contributions and disbursements in congressional elections was recommended for adoption today by the Senate committee on privileges and elections.

## Heir Apparent to British Throne With Former King And Reigning Monarch

SON OF KING GEORGE V. Prince Edward Albert is 16 years old and a cadet in the royal navy.

## SAVINGS BANK MEN NOT IN ACCORD WITH COMMITTEE ON BILL

Savings bank men agree that there is necessity for better supervision of the banks, but they are not in perfect accord with the special committee of the Legislature as to just what form this regulation should take. The committee gave a hearing late Friday afternoon to representatives of various banks on a bill which it proposes to incorporate in its final report, as modified by hearings.

The bank officials agree as to an audit, but say that to notify all the depositors after an audit has been made as to their account is requiring too much. They do not object to a clause against excessive loans, but they say that the power given to the bank examiner as to trustees is entirely too great.

Norman H. White of the committee on ways and means stated in the House Friday that the state tax this year would exceed that of last year by \$1,000,000 to \$1,500,000.

A bill appropriating \$65,000 for a textile school at New Bedford was substituted for a report of the committee on ways and means appropriating but \$40,000.

On motion of Senator Malloy of Springfield the rules were suspended and the bill giving the Springfield park commission the right to grant privileges in the lands under its control was engrossed. The Walker-Cushing direct nomination bill was also ordered to engrossment.

A draft of a bill has been submitted to the committee on metropolitan affairs, giving the harbor and land commissioners entire charge of the development of the East Boston waterfront. This bill gives the commission the right to acquire land and rights, to construct piers and lease them, and in general to take charge of the situation.

This plan is quite a little opposed to the one presented by Henry M. Whitney for private development, but his project was presented with the understanding that the commonwealth did not intend to undertake the work. This bill would make some changes in his views.

## PLANS MARITIME COURSE OF STUDY

A departure in the subjects taught in Boston high schools has been originated by George W. Evans, headmaster of the Charlestown high school, in the shape of a course in maritime study.

This new feature for the curriculum has been sent to Superintendent Stratton D. Brooks, who presented it with his approval to the school board. Mr. Evans thinks that the Charlestown district has greater interest in maritime and naval affairs than any other in Boston, and that if the plan is not generally adopted by the Boston schools it should be given attention in that district.

## BROOKLINE PLANS QUIETER FOURTH

If present plans materialize, Brookline will experience the safest and quietest Fourth of July in years. The selectmen are already making preparations for the celebration.

It is understood that the committee in charge of the plans favors a celebration with plenty of music, speeches and outdoor exercises, but does not desire to have fireworks.

EPWORTH LEAGUE ELECTS. The Epworth League connected with the Wollaston Methodist church has just elected the following officers: President, F. G. Bennett; vice-presidents, Sadie Todd, Clarence Cassidy, Bessie Wilbur and Florence Bennett; secretary, Walter Sutermeister; treasurer, Storer R. Wiggin.

## J. G. Small Co

523-525 WASHINGTON STREET BOSTON

Announce Monday the showing of new Summer Wearing Apparel and Millinery.

## New Pongee Suits in Dressy Styles

## New Pongee Coats for Evening or Motor Wear

## New Lingerie Gowns for June Weddings or the Graduation Girl

## New Model Dresses in Foulard Silks

## New Model Dresses in Persian Effects

## New White Millinery for June Weddings or the Graduation Girl

## New Sailor Hats for the School Miss

## New White Veils so Popular for Summer

## New White Ribbons and Novelties

## HIGHWAY BUILDING ALLOTMENTS GIVEN OUT BY COMMISSION

The state highway commissioners have prepared their allotments of state money to the various cities and towns for highway improvements during the coming summer, every county except Suffolk receiving a share of the money.

Below is shown the amount allotted to each municipality. The use of the asterisk (\*) indicates that the allotment from the state is contingent upon a like appropriation by the town.

Barnstable county—Barnstable, \$5000; Bourne (south), \$6000; Chatham, \$4,666.66; Eastham, \$2300; \*\$2000; Falmouth, \$4000; Mashpee, \$400; Sandwich, \$8000.

Berkshire county—Adams, \$5000; Alford, \$400; Becket, \$8850; Cheshire, \$500; Egremont, \$900; Florida, \$450; \*\$150; Hancock, \$400; Hinsdale, \$1000; New Marlboro, \$900; Otis, \$900; Sandisfield, \$500; \*\$750; Savoy, \$550; Sheffield, \$500; Tyringham, \$400; \*\$400; Washington, \$500; West Stockbridge, \$850; \*\$200.

Bristol county—Raynham, \$1400; \*\$2000; Rehoboth, \$2300.

Essex county—Danvers, \$2000; Georgetown, \$400; Groveland, \$1000; Hamilton, \$5000; Haverhill-Merrimac, \$9000; Ipswich-Rowley, \$12,000; North Andover, \$10,000; \*\$500; Salisbury, \$12,000.

Franklin county—Charlemont, \$800; \*\$400; Erving, \$12,000; Greenfield, \$8000; Hawley, \$550; Heath, \$400; Leverett, \$250; Monroe, \$400; \*\$200; New Salem, \$700; \*\$700; Orange, \$1000; Rowe, \$450; Shutesbury, \$400; Wendell, \$550.

Hampden county—Blanford, \$950; Chester, \$10,500; East Longmeadow, \$8700; Granville, \$800; Hampden, \$400; Holyoke, \$21,000; Southwick, \$600; \*\$500; Tolland, \$100.

Hampshire county—Chesterfield, \$700; \*\$400; Cummington, \$600; Easthampton, \$2000; Greenfield, \$400; \*\$300; Hatfield, \$14,000; Huntington, \$1000; Pelham, \$500; \*\$250; Plainfield, \$400; Prescott, \$400; \*\$200; Southampton, \$500; \*\$250; Westhampton, \$450; Williamsburg, \$500. Middlesex county—Ashby-Townsend, \$10,000; Burlington, \$1500; Carlisle,

## MR. GUILD SCORES SPEAKER CANNON

Ex-Governor Guild today scores Speaker Cannon in his publication, the Commercial Bulletin. He refers to the speaker's assertion, in a recent Boston interview and speech, that he had cooperated with Representative Weeks in an effort to get the White Mountain forest reserve legislation through Congress. The Bulletin says:

"He actually indirectly asks for credit for what he calls 'cooperation' with Congressman Weeks in connection with the Appalachian forest reserves. His habit of mind is such that he honestly believes he is 'cooperating' if he permits even the discussion of a business measure which he happens to oppose, though it be favored, as the vote showed, by a majority of the House of Representatives."

## CANADIAN CLUB ELECTS.

The Canadian Club at the Parker house Friday night reelected Lieut.-Col. Alexander P. Graham president of the club. The other officers elected were: Vice-presidents, Dr. E. W. Harris, Col. S. O. Bigney, F. H. Chipman; secretary, John B. Patterson; assistant secretary, C. B. Raymond; treasurer, John F. Masters; historian, Thomas F. Anderson; chaplain, the Rev. J. L. Campbell; auditor, R. J. Dysart.

\$700; Chelmsford-Tyngsborough, \$10,000; Draught, \$2000; Dunstable, \$400; Framingham, \$4000; Holliston, \$7000; Hudson, \$1000; North Reading, \$2000; Pepperell, \$5000; Sherborn, \$500; Shirley, \$700; Wilmington, \$10,000.

Norfolk county—Mills, \$600; \*\$500; Norfolk, \$1500; Weymouth, \$2500.

Plymouth county—Abington, \$1000; Carver, \$2000; East Bridgewater, \$3500; Halifax, \$500; \*\$500; Hanson, \$1000; Lakeville, \$15,000; Marshfield, \$12,000; Norwell, \$1200; Plymouth, \$5000; Plympton, \$450; Scituate, \$500; Wareham, \$5000.

Worcester county—Ashburnham, \$1000; \*\$1000; Berlin, \$400; Bolton, \$200; Boylston, \$700; Charlton, \$10,000; Dana, \$800; Harvard, \$7000; Holden, \$1000; Lunenburg, \$9000; Milford, \$10,000; North Brookfield, \$3000; Oakham, \$500; Shewsbury, \$300; Spencer, \$8400.

Distinctive Spring Suits

(Made in our own Work Shops on the premises)

\$20 to \$40

Our Full Assortment Is Now on View Quality Service Style

A special department for College Men and others with clothes cut in advanced styles especially to meet the requirements of young men—2nd floor.

MACULAR PARKER COMPANY 400 Washington St.

# Stocks Erratic, Closing Rather Unsteady

## STOCKS DISPLAY A STRONG UNDERTONE IN SHORT SESSION

Both Boston and New York Markets Make Moderate Advances, Although Closing Somewhat Irregular.

## HARRIMAN PACIFICS

The Boston and New York stock markets were in session just one hour today, closing at 11 o'clock. During that brief period considerable strength was displayed by securities. The London market was closed and many had expected that there would be considerable selling in New York on London account. While there was some liquidation the offerings were well taken. Price movements were somewhat irregular and the market was narrow, but the specialties made good advances and held well around the best figures to the end of the session.

Southern Pacific was conspicuous in the early trading. Four thousand shares changed hands at the opening at 125 to 125 1/2, as compared with 123 1/2, last night's closing figure. Union Pacific also was heavily traded in. Four thousand shares came out at the opening at 180 to 180 1/2, compared with 179 1/2, last night. It reacted to 179 1/2, and again advanced, crossing 181 before receding fractionally.

U. S. Steel opened up 1/4 at 81 1/4, went to 82 1/2, fell back to 81 1/2, and again advanced. Amalgamated Copper opened up 1/4 at 60 1/4, and after receding improved fractionally, selling around 60 1/2, and then declined a point. American Smelting also was in good demand. It opened up 1/4 at 70 1/4, and gained nearly two points. The closing was unsteady.

The Boston market after a weak opening was more buoyant than for some time past. Lake Copper opened up 1/4 at 61, but soon regained the loss and advanced to 62 1/2. North Butte opened up 1/4 at 30 1/2, and rose nearly a point. Mas.achusetts Gas at 79 1/2 was off 1/4 at the opening and rose about a point. Fractional gains were generally made by the leaders and the closing was moderately strong.

## A BIG DEAL IN COAL LANDS

WHEELING, W. Va.—A deal has just been closed at Bluefield, W. Va., turning over 100,000 acres of rich coal land to the Clinchfield Coal Company of New York for the price being \$3,000,000. This includes coal property in southern West Virginia and northern Virginia.

The Clinchfield company now has 400,000 acres of coal land in the territory named. The property purchased was that owned by the Buckhannon Iron & Coal Company, Clinchfield Coal & Iron Company, H. C. Stuart, B. J. Wyson and E. L. Dennis. Isaac T. Mann is in New York arranging to put through another deal, which will add about 50,000 acres to the 400,000 already held.

## FINANCIAL NOTES

The Liverpool cotton exchange and all other British exchanges are closed today.

April permits for building in 74 cities were \$71,164,104, against \$64,015,072 in March and \$65,069,861 in April, 1909.

The Canadian Pacific steamer Empress of Ireland from Liverpool sailed for Canada Friday with 1582 passengers—349 emigrants—a new record for the line.

The Long Island railroad has abandoned its intentions of erecting a \$1,000,000 main office building at Jamaica, L. I., and instead, on Aug. 1, will move its offices into the new Pennsylvania terminal in Manhattan.

The Bank of England has sent £100,000 to South Africa and received £150,000 from Australia and £390,000 from Egypt, the latter amount being set aside from its other holdings for special purposes.

Large increases in a few sections were responsible for the substantial gain in total surplus. In the middle West traffic was diminished, an increase in cars of about 45 per cent being reported. There are now more carriers in this section than since last summer. Freight in Kansas, Colorado and the Southwest decreased so that the number of available cars was doubled. Smaller gains which, however, reflected the general trend, were recorded in the far West and the extreme Southwest.

Increased demands for cars were shown in various sections, but were not large enough to overbalance the decreases. Both New England and the middle Atlantic states showed slight improvement. In the Northwest the surplus decreased to 17,258 from 18,652. Canadian lines also gained in traffic.

TO SUPPRESS BUCKET SHOPS. WASHINGTON.—The complete suppression of the bucket shop business throughout the United States is sought by the department of justice. Prosecutions already started are to be continued with unremitting vigilance.

Weather Predictions

UNITED STATES WEATHER BUREAU PREDICTION FOR BOSTON AND VICINITY: Saturday fair; Sunday increasing cloudiness, followed by showers by night; moderate variable winds.

WASHINGTON, The U. S. weather bureau predicts weather today as follows for New England: Fair Saturday, slightly warmer in western portion; Sunday, showers in south, partly cloudy in northern portion; light to moderate variable winds.

TEMPERATURE TODAY. Average temperature yesterday, 52 1/2.

IN OTHER CITIES. Montreal 52, New Orleans 76, San Francisco 60, St. Louis 52, New York 58, Chicago 58, Washington 58, St. Paul 58, Atlanta 58, Kansas City 58, Jacksonville 58, San Francisco 58.

ALMANAC FOR TOMORROW. Sun rises 4:52, Moon rises 4:15 a.m. Sun sets 6:59, High water 10:42 p.m. Length of day 14:18, 10:25 a.m., 10:42 p.m.

ALMANAC FOR MONDAY. Sun rises 4:50, Moon rises 4:15 a.m. Sun sets 6:59, High water 10:42 p.m. Length of day 14:18, 11:36 a.m., 11:34 p.m.

## AN INCREASE IN SURPLUS CARS

NEW YORK—On April 27 net surplus of cars in the United States and Canada stood at 96,319, an increase of 18,062 or about 24 1/2 per cent over a fortnight ago.

Gross surplus was 102,085, compared with 84,887. The shortage decrease from 7530 to 5768. This shortage is the smallest since August. The coal car surplus showed another increase from 40,588 to 44,291, additions being most noticeable in the West and Southwest.

Box cars increased from 20,527 to 29,306. Large increases in a few sections were responsible for the substantial gain in total surplus. In the middle West traffic was diminished, an increase in cars of about 45 per cent being reported. There are now more carriers in this section than since last summer. Freight in Kansas, Colorado and the Southwest decreased so that the number of available cars was doubled. Smaller gains which, however, reflected the general trend, were recorded in the far West and the extreme Southwest.

Increased demands for cars were shown in various sections, but were not large enough to overbalance the decreases. Both New England and the middle Atlantic states showed slight improvement. In the Northwest the surplus decreased to 17,258 from 18,652. Canadian lines also gained in traffic.

TO SUPPRESS BUCKET SHOPS. WASHINGTON.—The complete suppression of the bucket shop business throughout the United States is sought by the department of justice. Prosecutions already started are to be continued with unremitting vigilance.

Weather Predictions

UNITED STATES WEATHER BUREAU PREDICTION FOR BOSTON AND VICINITY: Saturday fair; Sunday increasing cloudiness, followed by showers by night; moderate variable winds.

WASHINGTON, The U. S. weather bureau predicts weather today as follows for New England: Fair Saturday, slightly warmer in western portion; Sunday, showers in south, partly cloudy in northern portion; light to moderate variable winds.

TEMPERATURE TODAY. Average temperature yesterday, 52 1/2.

IN OTHER CITIES. Montreal 52, New Orleans 76, San Francisco 60, St. Louis 52, New York 58, Chicago 58, Washington 58, St. Paul 58, Atlanta 58, Kansas City 58, Jacksonville 58, San Francisco 58.

ALMANAC FOR TOMORROW. Sun rises 4:52, Moon rises 4:15 a.m. Sun sets 6:59, High water 10:42 p.m. Length of day 14:18, 10:25 a.m., 10:42 p.m.

ALMANAC FOR MONDAY. Sun rises 4:50, Moon rises 4:15 a.m. Sun sets 6:59, High water 10:42 p.m. Length of day 14:18, 11:36 a.m., 11:34 p.m.

## TRADE CONDITIONS IN UNITED STATES RATHER IRREGULAR

Lower Commodity Prices and More Cheerful Feeling in the Agricultural Sections Are Features.

## PIG IRON IS QUIET

Trade reports continue to show irregularity in various lines of business with a tendency to lower prices for commodities. There is a decidedly better feeling prevailing, particularly in sections depending upon agricultural products.

Bradstreet's State of Trade says: Trade as a whole is still quiet, pending clearer views of crop and price outcome, but there is in evidence a rather more cheerful feeling in agricultural sections, where injury from the recent cold wave proves to have been rather exaggerated, and the securities markets are also stronger on the evidences of enlarging demand for American bonds abroad.

Eastern trade reports are of a slight improvement at some large markets, but of trade as a whole being quiet and spring results being not up to expectations. The reports from the industries vary quite widely.

There is a slightly better feeling in cotton goods, though the price situation there is a bar to active trade. The woolen goods manufacturing trades are irregular, partly because of changes of fashion, and raw wool is easier, with some foreign wools being re-exported to take advantage of higher prices abroad. Prices of commodities showed a very general weakening in April, this being most manifest in food products and metals, which will probably be reflected in a lower index number as of May 1.

Fewer failures but larger liabilities are the features of the April failure report to Bradstreet.

Pig iron remains quiet, but production is being sharply curtailed and 34 furnaces have gone out of blast. Copper is weaker, and consumers still remain out of the market. However, a little turn for the better was witnessed at the week end, partly as the result of short covering in Europe and partly because of stiffness displayed by some of the larger producers.

In the eastern part of Canada wholesale trade is fair, and the general outlook is more encouraging. Ontario and throughout the western provinces trade remains good. Business failures for the week terminating Thursday number 18, which compares with 29 in the like week of last year.

R. G. Dun & Co.'s weekly Review of Trade says: The unsettled and apprehensive feeling prevailing for some time past in the financial markets, resulting in declining prices for stocks and extreme depression for bonds, has been allayed to some extent, although there has been a disappointing check to the buoyant movement existing in the mercantile lines at the beginning of the year. The causes of the financial recession were partly economic, partly political. It is to be noted, however, that the effect upon the industrial and mercantile situation has been slow, and in some parts of the country it was hardly noticeable.

In dry goods circles considerable reserve buying power was disclosed at the auction sale of carpets, which attracted buyers from all over the country. Bidding was animated and prices were generally above the expectations of merchants interested. A continuation of the slight improvements in the demand for cotton goods by converters, printers and manufacturers was noted, but jobbers are holding back awaiting the coming of the government cotton report in June, when they hope for a further revision of prices. Retailers buy conservatively of staples, but show some interest in summer novelty merchandise. Fall River has been selling contracts on wide cloths to run through June, July and August on a basis of 26 1/2 cents per pound for print cloth yarn construction, and last week sales amounted to 145,000 pieces, of which 105,000 were for future delivery. Yarns rule slow.

Activity in footwear is for the next season run, and the demand is quiet for reasonable lines for immediate delivery. Producers are running their plants on part time as they have not commenced full cutting as yet. Prices are maintained. Leather rules quiet and the demand for most varieties is less active than previously noted. The recent announcement of advances in sole leather have not as yet been followed by actual trading at higher prices. In upper leather, splits and glazed kid are quiet, but there is a steady though moderate movement in most kinds of chrome side upper and calf skins. Hides show less activity, especially packer hides.

Commercial failures this week in the United States, as reported by R. G. Dun & Co., are 220, and 243 the corresponding week last year. Failures in Canada number 18, against 25 last year.

RAILWAY FINANCING ABROAD. PARIS—Morgan, Harjes & Co. confirm that they are about to place \$10,000,000 Big Four bonds. The house is arranging for sale of about \$20,000,000 bonds of another railroad. Efforts to place issues by other interests are in progress, including another block of St. Louis & San Francisco railroad 5 per cent bonds.

## GAIN OF NEARLY TEN MILLIONS IN GROSS REVENUES

Annual Report of the U. S. Rubber Company States That Year Has Been Most Prosperous in Its History.

### NET PROFITS LARGE

The report of the United States Rubber Company and subsidiary companies for the fiscal year ended March 31 last has been issued. The income account compared with the previous year is as follows:

	1910.	1909.
Gross sales	\$58,305,017	\$40,403,254
Expenses	17,938,966	14,513,901
Net sales	\$40,366,051	\$25,889,353
Cost goods sold	29,884,457	24,610,301
Manufacturing profits	\$10,481,594	\$11,279,052
Freight, tax, ins., etc.	1,831,722	1,664,000
Operating profits	\$8,649,872	\$9,615,052
Other income	1,024,550	1,157,788
Total income	\$9,674,422	\$10,772,840
Interest charges	842,244	2,193,937
Net income	\$7,177,578	\$4,578,903
Bad debts	53,498	64,546
Balance	\$7,124,080	\$4,514,357
Cash and int. paid	988,917	
40-day bonds		
Balance	\$6,135,163	\$4,449,810
Res. accounts	980,000	
Balance	\$5,155,163	\$4,449,810
Dividends	3,574,145	3,408,940
Surplus	\$1,581,018	\$1,040,870
Previous surplus	\$1,908,938	6,184,815
Total surplus	\$7,709,997	\$5,839,685

The company's report states that the year was the most prosperous in the history of the company, sales of merchandise having been the largest and net profits greater than in any previous year.

The operations of the Rubber Goods Manufacturing Company, the Canadian Consolidated Rubber Company, Ltd., and the General Rubber Company are not included in the treasurer's report, but only derived from the United States Rubber Company's interest therein. The share of the undivided earnings of these companies for the year which appertains to such stock interest, amounts to \$1,700,000. Property and plants increased \$8,000,000 during the year, representing the investment in the Revere Rubber Company and the total investments in the Canadian Consolidated Rubber Company, Ltd.

The export business of the company was larger than in any previous year and a steady growth of the company's business abroad is looked for. Unlimited area in the far East, upon which further progress was made during the year toward consolidation of manufacturing with a view of producing goods with greater efficiency and economy and other moves of this nature, are now in contemplation, including the utilizing of a mill now in operation for the growing business of the recently acquired Revere Rubber Company.

The report states that the price of crude rubber during the year was unprecedentedly high, fine Para and Ceylon rubber having reached about \$3 per pound as against a normal price of about \$1, while the present market of rubber is about 8 to 10 times the cost of production in Ceylon, Sumatra, Java, Borneo and the Malay peninsula, and the Brazilian product is now selling here for at least three times the cost of production.

With the almost unlimited forests of mature rubber trees in Brazil and other tropical countries and an almost unlimited area in the far east upon which the rubber tree can be successfully cultivated, President Colt says it would seem that rubber cannot be maintained indefinitely at a price from three to 10 times the cost of production.

It is expected that the company in the not distant future will obtain from its own rubber properties a substantial portion of its requirements. Recently the company has acquired a large interest in the felt business of Canada.

President Colt says: "The earnings of the company in the past year considered by themselves would seem to warrant some division to the common stockholders and were it not for the abnormally high price of crude rubber existing and the consequent requirements of a much larger sum of money to purchase and carry the same, your president would feel warranted in recommending a dividend on the common stock at the present time."

AN INCREASE IN THE SURPLUS AMOUNTING TO ABOUT \$4,000,000 WAS SHOWN IN THE WEEKLY STATEMENT OF AVERAGES OF THE NEW YORK CLEARING HOUSE BANKS.

DEPOSITS OFF TO THE EXTENT OF \$21,477,000. This was offset by a decrease in the loan account of \$23,438,800. The loss in cash was about \$4,000,000. The statement in detail was as follows:

	Decrease.
Loans	\$1,194,190,200
Deposits	1,173,278,700
Circulation	17,855,000
Specie	237,651,200
Legal tenders	64,442,000
Reserves	304,692,200
Res. req.	292,919,650
Surplus	11,172,550

COTTON EXCHANGE CLOSED. NEW YORK.—The cotton exchange was closed today out of respect to memory of King Edward VII.

## Today's Produce Market

PRICES QUOTED ON A WHOLESALE BASIS.

### Arrivals.

Steamer H. F. Dimock from New York brought 87 bxs lemons, 25 bxs macaroni. Steamer H. M. Whitney from New York brought 262 bxs raisins, 378 bxs figs, 10 bgs peanuts, 25 bxs dates, 75 crts pineapples, 268 bxs macaroni, 10 bgs almonds.

The Norfolk steamer due here tomorrow has 180 crts berries, 700 crts cabbage, 1800 crts peas, 85 crts beets, 500 bgs peanuts.

### Boston Receipts.

For the day—Apples 9 bbls, cranberries 7 bbls, strawberries 6900 crts, Florida oranges 57 bxs, California oranges 3516 bxs, lemons 154 bxs, pineapples 93 crts, raisins 362 bxs, figs 378 pkgs, dates 25 bxs, peanuts 25 bgs, potatoes 13,112 bushels, onions 1528 bushels.

For the week—Apples 1085 bbls, cranberries 63 bbls, strawberries 45,392 crts, Florida oranges 235 bxs, California oranges 26,663 bxs, lemons 16,358 bxs, bananas 83,490 stems, coconuts 563 bgs, pineapples 1967 crts, raisins 1412 bxs, figs 378 pkgs, dates 60 bxs, peanuts 1759 bgs, potatoes 100,826 bushels, sweet potatoes 400 bbls, onions 24,537 bushels.

### Apples in Cold Storage.

1910, 2435 bbls; 1909, 1167 bbls. The exports of apples from Boston during the week ending May 7 were 163 bbls, per str Devonian.

### New York Fruit News.

Str Dinnamare with 38,300 bxs Palermo lemons.

The California orange market Friday was very active and strong, and toward the close prices were a trifle higher than Thursday; 22 cars were sold.

434 bxs Florida grape fruit were sold, which ran poor to good for quality and prices ranged from \$2.62½ to \$5.50. 250 bxs Florida oranges sold from \$2.05 to \$3.05.

400 bxs Maiori lemons were sold. The fruit was very good for quality. The first 300s selling from \$3.87½ to \$4.37½, with other stock down as low as \$2.25. There was decay to be seen in some of the lots, but it did not amount to much.

2100 pkgs of Sorrento oranges were sold. The fruit was excellent, and the condition also very good. There were some lots where a little decay was to be seen, but not to amount to anything. 200s sold \$2.45 to \$2.80, with 100s \$2.30 to \$2.40. Valencia style 300s \$2.55 to \$3.10.

### PROVISIONS

Chicago Market. July wheat \$1.05½, July pork \$22.15, May lard \$12.50, hog receipts 10,000, prices \$9.20 to \$9.60; cattle market steady; receipts 300.

### Local Poultry Receipts.

Today, 155 pkgs; last year 530 pkgs; for the week 4489 pkgs; last year 7090 pkgs (2504 pkgs export).

### DAIRY PRODUCTS

Boston Receipts. Today—683 tubs 132 boxes 43,857 pounds butter, 264 boxes cheese, 7634 cases eggs; 1909, 921 tubs 456 boxes 49,190 pounds butter, 287 boxes cheese, 7572 cases eggs.

Friday—1910, 2341 tubs 200 boxes 153,520 pounds butter, 854 boxes cheese, 11,098 cases eggs; 1909, 1616 tubs 287 boxes 90,961 pounds butter, 345 boxes cheese, 6410 cases eggs.

For the week, 1910, 20,372 lbs 9832 bxs 1,167,915 lbs butter, 3103 bxs local cheese, 75,509 cases eggs; 1909, 17,028 lbs 10,093 bxs 1,007,389 lbs butter, 2011 bxs local cheese, 57,340 cases eggs.

Last week, 1910, 14,054 lbs 8675 bxs 766,448 lbs butter, 2609 bxs local cheese, 263 bxs export cheese, 81,833 cases eggs; 1909, 17,217 lbs 9346 bxs 977,240 lbs butter, 1500 bxs local cheese, 824 bxs export cheese, 54,759 cases eggs.

Decrease in total stock of butter compared with 1909, 1748 packages. Increase in total stock of eggs compared with 1909, 94,191 packages.

## Celebrated Crystal Palace

Famous structure of glass, which was opened by Queen Victoria in 1854, is a national institution.

## STATEMENTS FROM BOSTON MEN TODAY ABOUT NEW KING

BOSTONIANS who are well informed and especially interested regarding British affairs today express the conviction that the new King will prove a wise monarch and that he is well equipped to deal with the problems confronting him. It is the opinion of prominent men in this city that he will favor as did the late King a policy looking toward world peace. Some of the comments follow:

ROBERT PIRIE of Boston, president of the Scots Charitable Society, today said of the situation confronting the new King that conditions would remain as before, for the country is practically under a constitutional government conducted by the House of Commons, which means that the will of the people must prevail.

Mr. Pirie said that the new King, in his judgment, would follow in his father's footsteps and give a peaceful reign to his country, and that he would carry forward his father's designs for the promotion of a world peace.

JOHN F. MASTERS, president of the British Charitable Society of Boston, said today that he remembered shaking hands with the new King at St. John, N. B., about nine years ago. Mr. Masters believes that the new King will be found competent to handle the new conditions which confront him with the training and ability which he no doubt possesses and with the advice of his counselors surrounding him and the good feeling throughout the empire, which will most cordially cooperate with him.

There will be universal sympathy Mr. Masters declared and a desire to assist in every way possible all over the kingdom. Mr. Masters said steps are being taken for a large memorial service in Boston.

COL. ALEXANDER P. GRAHAM, president of the Canadian Club of Boston, said: My impression of the new King is that he is a quiet, dignified, unassuming English gentleman. I met him at St. John, New Brunswick, at the time of the colonial visit to Canada and heard him give an address on that occasion. I stamped him as highly fitted to take the place of his father when the time came.

"He has been trained for the position and is just as much a king today as his father was 10 days ago. He will administer the government along the same general lines that were laid down for his father by the former Queen Victoria. He cannot go very far wrong because

the cabinet of leading statesmen of Great Britain will support him. There is no doubt in my mind that if given the time and chance he will make as great a king as his father was."

Colonel Graham said that there are 35 or 40 British organizations in Boston which will have to be consulted before the final arrangements can be made for the memorial service. A meeting will probably be held the first of next week at which the organizations will complete the details. It is probable, he said, the services will be held the same time as the funeral services in England.

FREDERICK P. LEAY, the British consul, said today that his office had been fairly inundated with letters, telegrams and other messages expressing the highest esteem and regards for the late King. When asked as to the qualifications the new King brings to meet the problems of the throne, Consul Leay said that his official position precluded any opinion on this subject.

FREDERICK J. MACLEOD, president of the Intercolonial Club, said: "The new King is facing a tremendous crisis for an untitled man to have to encounter. The problems that are now arising out of the pending changes in the constitutional government of England appear destined to shake to the very roots many of the hereditary privileges that have been long associated with peers of England. These changes are bound to lead to exciting times in the House of Lords, and it is not too much to say that they will even cause the throne itself to shake."

"King George will have to face a problem of government such as has not arisen in England in a great many years. He will have to be the intermediary, the peacemaker, between the hereditary form of government on the one side and the House of Commons and the so-called lower classes on the other. His will be the responsibility of adjusting the almost irreconcilable differences that now exist between the opposing parties of England."

## EDWARD'S VISIT TO BOSTON FIFTY YEARS AGO RECALLED

KING EDWARD VII, then known as Albert Edward, Prince of Wales, visited Boston 60 years ago, accompanied by a distinguished suite of noblemen. He was royally entertained, although "traveling incognito as 'Baron Renfrew,'" for the advent of the future ruler of the United Kingdom was regarded as a notable event in society circles.

On Monday, Oct. 15, 1860, it was announced that arrangements had been made to have the prince leave the cars at a point outside the city, making his appearance about 5 o'clock on the following Wednesday, Oct. 17. The first battalion of Light Dragoons was to escort him and his suite.

Messrs. Amory, Bradley and Sanger of the city council of that period and Mr. Ritchie of the committee on the hall went to New York to arrange for the reception.

## Met by Mayor and Troops and Escorted to His Hotel

His train, which came over the Boston & Albany road, was met at Longwood in Brookline by Mayor Lincoln. The scene at the station was accentuated by the presence of a large gathering of ladies of Brookline and vicinity, who waved handkerchiefs and cheered the young man as he passed, escorted by a battalion of state dragoons and lancers.

The procession moved to the music of the national airs of England and America through Longwood and Roxbury, to Washington street, Boylston, Tremont and Court streets to the Revere house. The march was one continued ovation for the prince and his entourage. At 5 o'clock he was in his apartments, the British flag flying from the staff on the roof of the hotel.

The prince reached Boston by a roundabout route, visiting first St. Johns, Halifax, Quebec, Ottawa, Toronto and Ni-

agara, on the Canadian side. Crossing into the United States, he visited Detroit, Chicago, Cincinnati, St. Louis, Pittsburg, Harrisburg, Washington, Richmond, Philadelphia, New York and Albany.

## Received at State House Where Collation Is Served

On the succeeding day the city was in readiness for the official reception to the distinguished stranger. Many of the stores, banks and public buildings were closed, and from every point in the city the stars and stripes and the royal cross of St. George were displayed. The streets were crowded with people and on the Common tens of thousands sought places from which to get a view of the great military pageant.

At the State House the prince was welcomed by Governor Banks in a brief address. Then the party passed through Representatives hall, the Senate chamber and Doric hall to the southern entrance where horses were waiting. The prince rode Col. E. B. Lawrence's Black Prince, with Governor Banks riding a gray at the prince's right. Amid renewed cheering by the crowd, the royal party made its way to the Common to attend the grand review.

Following the parade the party returned again to the State House, where a collation was served. The company consisted of Governor Banks, the prince, Duke of Newcastle, Earl of St. Germans, General Bruce, Marquis Lonsdale, Major Teesdale, Captain Grey, Viscount Hinchenbrook, Charles Eliot, Dr. Ocland, Mr. Englehard, Mr. Brodie, Mr. Shaw, Lieutenant-Governor Trask, Charles A. Phelps, John A. Goodwin, Chief Justice Bigelow, Associate Justices Myrick, Dewey, Marwin and Hoar, Senators Sumner and Wilson, General Whitney, collector of the port, Commander West, Samuel Shaw, Edward Everett, Hannibal

## RECALLS THE PRINCE'S VISIT TO BOSTON IN 1860 AS YOUTH

FRANK B. HOMANS of Boston today said that he recollects the visit of King Edward, when Prince of Wales, to Boston.

"I was a boy nine years old in 1860," he said, "and went to school in Malden. The prince's visit made quite a stir among the children. I put up a plea to come in and see him, but of course could not. In those days coming to Boston was quite an event. I never got a glimpse of him and naturally was quite disappointed. All I recollect of the circumstances of his visit was what I heard from my brother, then

a clerk in the big dry goods store at Hinmark and Turnbull, Winter and Washington streets.

"My brother saw the prince, and when he came home naturally told us all about it. I remember hearing from him of the large crowds that met the prince at the station."

"It was on the occasion of the prince's departure from the Eastern depot, I remember, that I particularly wanted to see him, having heard in some way that this was to be his last appearance in the city. I can remember hearing of the dense crowds that turned out to see him."

Hamlin, Governor Dennison of Ohio, President Felton of Harvard, Maj.-Gen. Samuel Andrews and staff.

## School Children Furnish His Most Enjoyable Event

That afternoon, in Music hall, a musical festival was held under the direction of Dr. Upham. There was singing by school children from all the schools. The prince is quoted as saying that this was the most beautiful sight and the most thoroughly enjoyable event of his visit. With Governor Banks, Mayor Lincoln and his suite, he occupied a seat in the center of the platform, amid the profusion of decorations. An ode, written by Oliver Wendell Holmes, was sung.

When the prince visited the State House and appeared in the morning parade he was attired in the uniform of his rank as colonel in the British army, consisting of blue trousers, red coat and chapeau.

He is described by reporters of that period as "handsome, and not only that, but very pleasing in other respects. His proportions, although small and delicate, are symmetrical, while the play and expression of his features are of an order at once intellectual, refined and prepossessing."

## Ball at Boston Theater Is Climax to Reception

In the evening a ball was given in the prince's honor. It was known as the "Renfrew ball," and was held in the Boston theater. The parquet and stage were floored over.

The stage was arranged to represent an imperial tent, beautifully decorated and hung with crimson draperies. In the center of the balcony and opposite the stage was the royal box, surrounded by the American eagle and the British coat of arms.

The ball was a great success, and lasted until the late hour of 4:30 a. m., the prince doing justice to the dancing and the supper.

Distinguished Bostonians were on the executive committee, which consisted of James W. Paige, Alexander H. Rice, George B. Upton, J. Thomas Stevenson, Charles Amory, John Heard, G. Howland Shaw, J. Huntington Wolcott, Thomas E. Chickering, Patrick Grant, Harrison Ritchie, Horace Gray, Jr., Ives G. Bates, Samuel H. Gorkin, W. W. Clapp, Jr., William B. Fowle, Jr., and T. C. Amory. The committee on invitations was composed of F. W. Lincoln, Jr., mayor; Edward Everett, Lemuel Shaw, Robert C. Winthrop, David Sears, Dr. Jacob Bigelow, Prof. Jared Sparks, William Appleton, George Ticknor, Henry W. Longfellow, Pelham Bonney, Capt. W. L. Hudson, U. S. N., Marshall P. Wilder and Gen. John B. Tyler.

## Partners Vividly Recall Notable Tact and Charm

One of the pleasantest memories thereafter to those who were honored by a dance was the occasion of Edward's visit to this city. His affable and unaffected manner, and his notable tact and charm as a conversationalist are still remembered by many who attended the ball.

Of the partners of the prince at the "Renfrew ball" there are now residing in this city Mrs. John Quincy Adams, nee Miss Fanny Crowninshield; Mrs. Greeley S. Curtis, nee Hattie Appleton; Mrs. F. Gordon Dexter, nee Susan Amory, and Mrs. George W. Amory, who was Miss Carrie Bigelow.

Other partners were Mrs. Lincoln, wife of the mayor; Mrs. Banks, wife of the Governor; Mrs. Wise, wife of Lieut.

Wise, U. S. N., and daughter of Edward Everett; Mrs. Chickering, Mrs. Ritchie, Miss Lombard, Miss Fanny Peabody, Miss Kitty Fay, Miss Mary Crane, Miss Lilly Fay, Mrs. Frank Chickering, Mrs. I. C. Bates and Miss Nelly Gage.

## Holworthy Hall Picture Memento of Harvard Visit

As a memento of the visit of the then Baron Renfrew to Harvard on Oct. 19, 1860, there hangs in Holworthy hall the picture of a young soldier, and underneath the picture the inscription "Prince Albert Edward to Holworthy 12."

The tradition of the college is that the prince on his visit to the university spent the night in that room in the college yard, but the account of the period itself states that the prince spent a half-hour there through his desire to see a student's room. In that same room Grand Duke Alexis of Russia was welcomed a few years later.

On arriving at the college gate the prince passed through quadruple lines of students past the grandstand erected in front of University hall to Gore hall. Incessant cheering accompanied the singing of "God Save the Queen."

At the library door President Felton received the prince. In Gore hall he was met by the fellows, overseers, faculty and four ex-presidents — Josiah Quincy, Edward Everett, Jared Sparks and the Rev. Dr. Walker. The names of the prince and his suite are entered in the old visitors' book of the library as follows:

Albert Edward.  
Lyons.  
Newcastle.  
St. Germans, J. L. D.  
Robert Bruce, D. C. L. Orion.  
Teesdale.  
Hinchbrook.  
H. W. Ackland, regis professor of medicine, Oxford.  
J. N. Grey.  
Gardner Engleheart, late student of Christchurch, Oxford.  
Frederick Warre, first attaché to H. R. M. legation, Washington.

## Occupied Splendid Suite of Rooms at Revere House

The rooms at the Revere house occupied by the prince on his visit now contain very little of the furniture used at that time, and none of the pictures on the walls then are now to be seen.

Two rooms on the second floor to the left of the entrance overlooking Bowdoin square were placed at his disposal. A large parlor with many mirrors and draperies, a huge fireplace, and all the comforts that could be furnished were his, including a dressing case of rosewood, with a mirror and two compartments for knick-knacks; a marble top table at the foot of a high-posted, old-fashioned bed, and a huge wardrobe, also of rosewood.

Edward went to Portland, Me., on Oct. 20, where he embarked on a vessel of the royal fleet, which took him home.

MR. TAFT TO VISIT HOMESTEAD. BRATTLEBORO, Vt.—President Taft has expressed to Senator Dillingham and Congressman Foster his desire to visit his ancestral home at West Townsend, Vt., where his father, Judge Alphonso Taft, was born, and it is practically assured that he will go there in the fall, paying Brattleboro a brief visit as well.

GARDEN PARTY AT WHITE HOUSE. WASHINGTON—The President and Mrs. Taft gave the first garden party of the season at the White House Friday afternoon. There were several hundred guests and Mr. and Mrs. Taft apparently enjoyed the afternoon event greatly.

## Same Advertisers

## Same Place

## Same Days

**T**HIS is the best argument that can be presented as to the value of publicity. When you find your newspaper continually presenting the claims of a merchant it means at least two things:

- 1---He is getting results from his advertising.
- 2---He is anxious for the patronage of the readers of the publicity medium in which he purchases space

The Monitor has a loyal advertising patronage. These advertisers are being brought into touch with a particularly appreciative reading public, and as The Monitor is one of the most closely read newspapers in America, its readers cannot fail to familiarize themselves with continuously appearing advertising.

Our readers have confidence in our news columns, and we do not hesitate to say they are interested in our advertising columns.

Effort has always been made to safeguard this interest by establishing a censorship over advertising copy. As a result, Monitor readers have confidence in its advertising columns.

**N. B.** To the advertisers: Constant dropping wore away that much talked of stone. Constantly telling the public about your merchandise will reach the end you wish—sales.

BOSTON, MASS., SATURDAY, MAY 7, 1910.

## SMALL FARMS ARE GAINING GROUND IN NEW SOUTH WALES

SYDNEY, N. S. W.—In a speech delivered at the Glen Innes agricultural show the Hon. C. G. Wade, K. C., the state premier, said, in referring to the progress of closer settlement in the state, that comparing the year 1903 with that of 1907, he found that holdings of from 1 to 20 acres had increased by 4571, or 10.2 per cent of the total holdings; farms from 21 to 400 acres increased by 1926, or 5.4 per cent of the total; while holdings of from 400 to 1000 acres had increased 14,209, or 14.9 per cent.

Generally speaking, there had been increases in every class of small holding, but, taking the total number of areas larger than 7500 acres, there had been a falling off. In 1903 holdings up to 7500 acres aggregated 73,104 of a total area of 22,710,392 acres, while in 1908 there were 82,004 holdings of this description, totaling 20,417,769 acres; in holdings of 7500 and upwards there were 964 in 1903, totaling 24,797,219 acres; while in 1908 the number had been reduced, the holdings aggregating 24,992,083 acres.

## COPPE TREASURE SALE PRICES HIGH

LONDON—More high records were reached at Christie's Thursday during the sale of the art collection of the late Octavius E. Coppe. The offerings were confined to objects of vertu.

A two-handled rock crystal bowl fetched \$3150. A gold ornamented baton presented by George IV. to Earl St. Vincent, the admiral of the fleet, brought \$992.25. A miniature by Dumont depicting an astronomer went for \$2025. The grand total of the sale was approximately \$283,500.

## LUMBERMAN ADDS TO YALE GIFTS.

ST. PAUL, Minn.—F. E. Weyerhaeuser, the Minnesota lumberman, has added \$10,000 to his previous donations to the Yale school of forestry. This brings the total of his gifts to \$32,500.

## BOSTON CHAMBER OF COMMERCE IMPROVES LIBRARY

Progressive business organization installs librarian who will assist the members.

THE principal business organization of New England, the Boston Chamber of Commerce, which has ever been moved by the desire to promote just principles of trade, to advance in general the commercial and civic interests of the city and port, and finally to assemble valuable business information for the use of its members, today is turning its attention to the reading room as a channel for further benefiting its increasing membership. A librarian, L. B. Hayes, has been installed, and the members have been given to understand that it is their privilege to employ his assistance in making appointments, obtaining information on any subject, and in investigating any case of charitable claims as to whether they are genuine and deserving of the patronage of the members of the chamber.

The last branch of Mr. Hayes' duties is considered one of his most important functions. It is designed to relieve the business man of all the petty inconveniences foreign to his work and to enable him to use to the best advantage whatever sums of money he may wish to devote to the charities of his city. This same kind of philanthropic guidance has been established in Cleveland and San Francisco and is highly appreciated as a necessary adjunct to the affairs of the business men of those cities. The Boston Chamber cooperates with the Associated Charities.

The library, which has heretofore been accessible only by passing through the trade room, which is in turn open only to the certificate holding members, is now thrown open to all members through the double doors which lead into the outer corridor. Many large meetings of the various committees, either for the purpose of passing on some measure of civic importance or of registering the protest of the chamber to some unjust condition concerning the trade, have been held in this large room which is so easy of access to the business men from the floor or their offices in the building.

The leading periodicals, the newspapers of the neighboring cities of Montreal, Halifax, London and Glasgow, one or two journals of each trade, coal, grain, bay-

"FLOOR" OF CHAMBER OF COMMERCE.

fruit, and marine journals, maps, atlases, gazetteers, and the many federal and state reports, consular reports and a number of trade or business directories from the principal cities of the country are on file for ready reference. The journals and annual reports of the interstate commerce commission, and of the various chambers of commerce here and abroad, clippings of all items relating to the various committees of the chamber and the work they have in hand and clippings of the significant news of the day are also preserved for reference. Guides of Boston, convention programs, etc., are other features.

Mr. Hayes has received many queries which he has received and answered since the adoption of the information bureau, including the following: One letter asked for the list of simplified words that ex-President Roosevelt made

out; one letter requested information on goat raising; a letter was received from Khartum, Egypt, asking for a list of the importers of gum arabic in this section of the country.

A man came in to the reading room one day in the early spring to ask if the ice was out of Moosehead lake as yet, that he might be off with his fishing kit. He was directed to the passenger department of the Boston & Maine railroad at the North station.

The addresses of the leading florists and display men in the city, a telephone query to know what was the largest number of silk threads in a square inch of silk-bolting cloth, and a letter from Berlin, N. H., requesting the names of the dealers in coin operating machines are also recorded. Letters are constantly being received from the Pacific coast, two coming from California in one day asking for guide books of Boston and one from Los Angeles asking the names and addresses of the artist supply stores of the city.

A letter came from Atlanta, Ga., asking the kind of signs used on the street cars, one from Greenville, Ala., stating that the writer had smilax for sale this fall and winter and wanted the addresses of the leading floral decorators of the city, and one from Detroit, Mich., requesting the names of two or three of the strongest banking institutions of Boston.

A letter from Tuxpam, Mex., desired the names of the importers of castor oil beans, and one from Warsaw, Russia, wished the manufacturers of kid. A letter from Paris, in French, probably gave Mr. Hayes the best opportunity

to use his versatile aptitude, for he answered it in French. The French writer desired the names of the newspapers and journals here in which he might advertise; he wanted to export marble and fine building stone and requested the names of the builders, architects, etc., and the tariff on stone. He was referred to the French consul here and the American Chamber of Commerce in Paris.

The chamber, with a membership which is fast nearing the 4000 mark, provides through its floor rules that the rooms shall be open from 8 a. m. to 6 p. m. daily, except Sundays and holidays, with the provision that the rooms shall close on Saturday at 1:30 p. m. The choice of the sample tables, which are subject to rental for each sample drawer and the space above, is sold at auction during the month of December of each year under the direction of the committee on rooms.

The circulation of any petition to a member requesting the use of his name as a candidate for office in the Boston Chamber of Commerce is strictly forbidden.

A messenger in the regular employ of a member of the chamber doing business on the floor of the trade room is allowed for the purpose of carrying messages or copying commercial or marine reports for his employer's use upon the payment of an annual fee.

There are many special rules governing the trade of its members and general rules, all looking to the establishment of just principles of trade and the correction of abuses. The trade room, which is circular, is lighted by six tall windows and is equipped with all the conveniences of the trade as well as a platform and speaker's desk for use at the time of large meetings of the chamber.

## LORD MAYOR OF CORK LEAVES CHAMBER IN RIVALS' HANDS

CORK, Ireland—The lord mayor of Cork owns certain property in a suburb of the city which is not reached by trams. Being desirous that the residents in the neighborhood should be given facilities for reaching the city, he applied for permission to run a motor omnibus service from the city to the suburb. On the day that the item referring to his application came up for discussion before the Cork corporation an extraordinary scene was witnessed. The news of the lord mayor's request had caused the greatest excitement and roused the indignation of the "outside car" owners and hackney car drivers of the city.

When an Irishman has an objection to make, he usually makes it with considerable energy. Accordingly, when the question came up for consideration at a meeting of the corporation, some 300 owners of cars, leaving their vehicles and horses, proceeded to the buildings carrying their whips, and, disregarding police constables and others in charge of the entrances, found their way to the chamber, where they made their objections known to the lord mayor. The lord mayor, seeing that in the circumstance it was impossible to transact business, left the chamber, accompanied by all the officials. A Labor member of the corporation was then put in the chair, and in the place of an assembly of the council an indignation meeting was held.

## TRUSTEES INDORSE DR. NEEDHAM.

WASHINGTON—In accepting the resignation of Dr. Charles Willis Needham as president of George Washington University, offered April 27, to take effect Aug. 31, the trustees adopted resolutions indorsing his administration and expressing regrets.

## OBSERVE "MOTHERS' DAY" SUNDAY.

HYDE PARK, Mass.—Members of the Methodist church Epworth League will observe mothers day Sunday. Each member will wear a white carnation and will bring one to the league meeting.

READING QUARTERS ARRANGED FOR MEETING.

## EXPECT RECORD FRUIT CROP IN FOUR OF WESTERN STATES

SPOKANE, Wash.—Officers of state horticultural associations and commercial organizations in Washington, Oregon, Idaho and Montana say in reports to the Spokane Chamber of Commerce there is every indication that the fruit crop this year will be the largest and most profitable in the history of the four states. There is no prospect of a late freeze, but should the unexpected happen the owners of commercial tracts are ready to do battle with hundreds of thousands of smudge pots or orchard heaters.

F. A. Huntley, state horticultural commissioner, says that Washington will produce twice as much fruit in 1910 as in 1908, the year of the record crop. Including peaches, apricots, cherries, berries and other soft fruits the yield will be at least doubled, owing to the increased acreage, he adds, while the apple crop will show an increase of about 25 per cent. Oregon, Idaho and Montana will have equally large crops as the result of increased acreage and trees coming into bearing this season.

## PROPOSE SUBWAY IN STATEN ISLAND

NEW YORK—Prominent Staten Island men, meeting at Port Richmond, have organized the Bayonne Subway & Developing Company. William S. Van Cleaf is chairman.

The company will seek to have a subway built from Bayonne across the Kills to Port Richmond and connect with the McAdoo system and a system of electric roads on Staten Island. The estimated cost of the subway is \$600,000, with a like sum for the electric line.

## SENATOR THOMAS TAKES SEAT.

ALBANY—Prof. Ralph W. Thomas of Madison, who was elected senator at a special election in the Thirty-fifth district, called after the resignation of Senator Allis, has received his certificate of election and taken his seat.

## PHI BETA KAPPA REUNION.

Alpha chapter of the Phi Beta Kappa of Harvard University held its annual reunion Friday evening at Hotel Lenox with about 60 members present.

## SYRACUSE HOPES TO SECURE ROADS

Movement to Induce Two More to Enter the City Is Engineered by the Chamber of Commerce of That City.

SYRACUSE, N. Y.—A movement is under way to induce two more railroads to enter this city. The Syracuse Chamber of Commerce started the plan and has appointed a special committee to investigate and do all in its power to bring into Syracuse the Lehigh Valley and the New York, Ontario & Western railroads, both of which are important coal routes.

Both railroads at present come close to the city, the Lehigh Valley reaching Wrepsport, N. Y., only 20 miles distant, and the New York, Ontario & Western coming to Central Square, N. Y., which is but 18 miles away.

Louis Will made the formal move to induce the railroads to come to this city. He pointed out the help they would be to the manufacturing interests here, bringing not only larger traffic facilities, but also more and cheaper coal for home industries. It is thought that the railroads are favorable to the plan.

## PHILIPPINE COIN SENT TO ISLANDS

SAN FRANCISCO—Ten million dollars of treasure was carried by the army transport Sheridan, which sailed Thursday for the Philippine islands. It is the first shipment of the new insular coinage made this year. One million dollars is in gold, the remainder in silver. Besides the treasure there were over 2500 tons of stores for army posts and a large number of passengers. A detachment of 18 bluejackets is on board to relieve a like number of men at Guam whose time has expired.

## CLASSIFY NAVY'S MOTOR LAUNCHES

Officers at Charlestown Yard Express Satisfaction at New Nomenclature to Be Applied to Them.

The steady increase in the number of different types of small boats connected with the new dreadnoughts of the United States navy has caused conflict of names, and officers at the Charlestown navy yard expressed much satisfaction today with the new nomenclature which has been adopted for boats driven by other power than steam.

The barge of a flag officer will hereafter be known as a "motor barge." Service type launches built for heavy duty and speed and semi-speed boats will be known as "motor boats" and designated on board ship as the "first," "second" or other motor boat in accordance with the usual system for small boats.

Sailing launches with auxiliary power engines will be known as "motor sailing launches." Double-enders of the whale-boat type will be known as "motor whaleboats," power dingies as "motor dingies" and power dories as "motor dories." In correspondence about these boats the length of the boat will be stated as is now the custom with other boats.

## COLLEGIANS EARN MONEY TUTORING

PRINCETON, N. J.—Student tutors cleared \$14,000 last year through coaching backward fellow collegians in Princeton University, according to the report of the Princeton Tutors Association, made public today.

Tutoring is one of the best paying of any of the plans whereby students secure funds to work their way through college, and the association, made up of undergraduates, who, by having achieved high standing in their studies, attract delinquents in scholarship, conducts a summer school in conjunction with the regular winter course. Fourteen members each cleared \$1000 last year.

## HALL CAINE TO FINISH PLAY.

LONDON—The suit of Leveaux, the theatrical manager, against Hall Caine, the author, for \$25,000 damages because the latter failed to carry out an agreement to write a play called "The Unwritten Law" has been settled. Mr. Caine agrees to complete the play.

READING ROOM VIEW.

## JUNIORS AT YALE VOTE DOWN OVAL

Class Decides to Retain Vanderbilt Hall as Senior Dormitory Rather Than Changing to Several.

NEW HAVEN, Conn.—The junior class of Yale College has voted to retain Vanderbilt hall as a senior dormitory rather than occupy rooms in White Berkeley, Haughton, and Fayerweather halls, making that a senior oval. For two weeks there has been an animated movement in progress to bring about a great number of both upper classes, the faculty, and the Yale Daily News ardently advocated the change, the required two thirds vote of the junior class was not obtained.

A similar movement took place last year. This was defeated mainly through the efforts of Captain Coy of the football team and other influential members of the class. It has been a question of compactness vs. centralization, as a part of the senior class has always been separated from the other on account of insufficient room in Vanderbilt hall, while Berkeley oval is large enough to accommodate the entire class. Tradition and a sentimental attachment to architectural attractiveness appear to be the leading reasons why "Vanderbilt was saved."

## DRY PARADE FOR MINNEAPOLIS.

MINNEAPOLIS, Minn.—A temperance parade will be held in Minneapolis by the county option forces of the state on May 14. Anti-Saloon League forces will try to carry the state at the election next fall.

## REPUBLIC OF URUGUAY AIDS IN RAILROAD DEVELOPMENT

MONTEVIDEO, Uruguay—The republic of Uruguay pursues a liberal and encouraging policy toward railroad development, with the result that the country is the second in rank in Latin-America in the proportion of its railroad mileage to square miles of territory. Uruguayan railroads are exempt from trade and land taxes, and their construction material is admitted free of customs duties. The 1500 miles of line at present in operation represents an investment of \$98,000,000; of which sum \$28,000,000 is guaranteed by the government to earn interest at 3½ per cent per annum. This guaranty was formerly of 7 per cent, but in 1891, by an arrangement between the government and the foreign bondholders, it was reduced one half. This is effected by the government paying into the English bank in Montevideo 45 per cent of the customs duties. With the exception of one line of about 12 miles, the Uruguayan railroads are built by British capital, but American capitalists are reported to be about to bid for representation in the railroad enterprises of the country.

Until recently the policy in railroad construction has been to make Montevideo the terminus, as several million dollars have been laid out on improvements of the port facilities. Later, however, the government has granted concessions to other ports on the Atlantic or the Uruguay river.

The pioneer line of the country is the Central Uruguay company of Montevideo, which secured a concession in 1858. The early passenger traffic of the 10½-mile line was due largely, it is said, to

the novelty of the thing. The goods traffic yielded \$890, cattle transportation \$65, and the total receipts were but a trifle more than \$40,000, which was less than the operating expense. This line is now the largest foreign undertaking in the country.

There are five working railroad companies in the country, although 11 are registered as owning railroad property. The five include, besides the Central Uruguay, the Midland of Uruguay, the Uruguay East Coast Railway Company, the Norte Railway Company, which transports the fresh meat for the use of the population of Montevideo, and the Puerto Sauce to Minuano railway.

## TEACHERS OF ART IN FINAL SESSION

The members of the Eastern Art and Manual Training Teachers Association at the final meeting of their convention at the Museum of Fine Arts this afternoon will hear the following speakers: J. F. P. Lawton of Providence, R. I., who will speak on "Art and Craft and Modern Industrial Conditions"; Denman W. Ross of Harvard, who will give an illustrated lecture on "The Study of Pure Design," and John J. Enneking, the Boston artist, whose subject is "Art Instruction from the Artist's Point of View."

This afternoon the teachers in small parties will visit the North Bennet Street industrial school and places of interest in the Back Bay district.

# Page of Interest for the Boys and Girls

## Children's Camera Contest

DINNER-TIME.

From Louise Newhall, Newton, Mass., who gets the one-dollar award.

WHAT a fine flock of chickens is shown in today's picture. The hens are eager for their dinner which the curly-headed little girl sitting in the barn doorway is about to give them from the measure of corn in her lap. This photograph, sent in by Louise Newhall of Newton, Mass., was taken in Wolfboro, N. H., on a large farm where there are many hens, cows, horses and also numerous other animals. The hens were the favorite pets of this little girl, and she fed them every day. There were not any playmates for her, so she used to name all the hens and play school with them, although she found them to be rather difficult pupils.

Honorable mention: F. E. Webb, Needham Heights, Mass.; Elizabeth Kalb,

Crockett, Tex.; M. S. Brown, Cambridge, Mass.; Marion Kimball, Chicago. In the Monitor's camera contest, \$1 will be paid for the best photograph received each week. The subjects may be historic places, quaint houses, parks, picturesque landscapes, marine views, river views, old bridges, school gardens, or playgrounds, or children at play. With the photograph should be sent a title and the location of the view.

If a suitable descriptive story of not over 200 words comes with the picture and is used it will be paid for. Write name and address plainly and enclose stamps if return of the picture is desired. Send to "Children's Page," The Christian Science Monitor, Falmouth and St. Paul streets, Boston, Mass.

### DATE DELIGHT.

Two cups of light-brown sugar, 1 cup of milk, 1 cup of chopped date, 1 tablespoonful of butter, 1/2 teaspoonful of vanilla. Mix the sugar and milk together; put on to boil, just as it comes to the boiling point, add butter. Let this boil until, when tried in cold water, it forms a soft ball. Take from the fire, add vanilla and beat until creamy. Stir in the chopped dates, and pour quickly into a buttered pan. Cut into squares when cold.

### ODD MAIL DELIVERY.

One of the most remarkable mail routes in the world is that which a letter journeys in getting from Beebe Plain, Vt., to Beebe Plain, Quebec, Canada. While the two offices are within 10 feet of each other, are located in the same room, in fact—a letter mailed from one office to the other must make a trip of 294 miles—67 miles in Canada and the rest in the United States.

The plain old-fashioned store building, which is situated on the international boundary line, contains both the United States and Canadian offices. There are separate entrances to each, but both are in the same room, have the same lobby, and there are no partitions to mark the division between the domain of Uncle Sam and the possession of King Edward. "If you mail a letter from Vermont side addressed to the Quebec side," says the postmaster, "it goes from here to the junction, then to Newport, then to White River Junction and back to Lennoxville, Quebec, over the Boston & Maine. There it is transferred to the Grand Trunk and goes to a south-bound mail pouch, and comes to Stanstead Junction and then back to this same building, a distance of 294 miles.

"If we wish to mail a letter from the American side to Derby Line it must go to White River Junction and then come back over the official route."—American Boy.

### NATURE CUPS.

Did you ever hear of a cup or mug growing on a tree? Well, it really happens in the West Indies, or very hot climates, where it does not rain very often. These cups are much larger than the ones we use, and are quite deep, some of them holding as much as a quart. When the dew falls this cup receives it and a top, or valve, closes over it and prevents it drying up. Very often you can see birds stick their bills down through the tops of these cups and drink.—Exchange.

### PICTURE PUZZLE

What flower?

ANSWER TO YESTERDAY'S PICTURE PUZZLE.  
Pendulum.

## Old Viking Ship Is Restored and Placed in Museum

THE ship found at Oseberg, near Tonsberg, which was set up in June, 1907, is the third ship of the Viking time that has been placed in the Museum of Antiquities in Christiania. The ship was found in a place about half way between Tonsberg and Aasgaardstrand. The distance from the sea was about four kilometers, and the height above sea level about 50 feet. The barrow stood quite alone upon the cultivated level ground around, and was formerly a conspicuous object in the landscape. In the summer of 1903, the owner, who had just bought the farm plot, began to dig in the barrow. Large pieces of timber were soon discovered, and on the 8th of August the discovery was reported to the University Museum of Antiquities. The work of exhumation was begun in June, and on the 20th of December the entire find was successfully brought to Christiania for further treatment.

As the ship was buried in potter's clay and the mound built of peat, all the things made of wood or other perishable material were well preserved, but the ship itself was much damaged owing to movement in the soft subsoil. It was found that the prow and sternpost of the vessel were ornamented with carving, and almost every day interesting and beautiful old things were discovered. Among these things were weaving and spinning appliances, a four-wheeled vehicle, four sledges, several beds, bargeboards, a mill stone, kitchen utensils, tubs and pails, oak chests, some of them containing various implements and utensils, pieces of stuff, oars, and a well-preserved anchor and other articles of a ship's furniture. It is hoped that all these things will be ready for exhibition by next year.

After about nine months' labor the ship was restored. When the digging-out was completed, it was taken up in a couple of thousand of fragments, which were carefully numbered and marked, until it was time to move them to Christiania. The ship is entirely of oak, and the timbers have kept so well that they were able to bear being steamed and bent back into their original shape. Every

OLD VIKING SHIP.

Boat over a thousand years old now in the museum at Christiania.

part of the ship has been boiled bit by bit two or three times. With the exception of a piece about half a yard long, five or six little bits let in, and one of the beams, that are new, the whole ship from end to end consists of the old original woodwork. Even two thirds of the rivets are the old ones.

The vessel is 70 1/2 feet long, and about 16 1/2 broad. It consists of keel, stem and sternposts, ribs, knees, beams, planking, rudder and appliance for holding the mast firm. Between the beams are laid boards of deal. The third stake consists of a thick fillet, which forms a little ledge inside the ship, and is hollowed out outside. Toward the stem and sternposts this fillet is continued in ornamented pieces of beechwood. How these have been joined to the prows and stern and how these last have been ornamented unfortunately cannot be determined. There are 12 strakes in all, the holes for the oars being in the upper ones, 15 on each side. The appliance for holding the mast firm is very much the same as in the ships found previously, namely, a huge beam down on the keel with the step of the mast, and the so-

called "mastefisk" (mast-fish) above the beam. On the gunwale forked uprights have been fixed to which the oars were laid. The ship is rather flat-bottomed, but has a fine sheer, and must have been both stiff and easy-going, but she has certainly not been a vessel for long voyages. The whole get-up indicates that she has rather been a show vessel, a pleasure boat for use in the fjord. Under the prow is now hung the unusually well preserved iron anchor, the first anchor of the Viking time that has been found. On the planks in the stern of the ship can be fixed at about the year 800. It is therefore 1100 years old.

The picture represents the ship as it lay in the mound when the actual digging out was completed. It is seen from the northeast and shows in the foreground the port side of the stern. Farthest off is the prow.

The ship was purchased and presented to the university by F. M. Theschow, and the cost of digging it out has been defrayed for the most part by a government grant.

### COIN TRICK.

Place a coin between your teeth. Then have someone tie your hands behind you. Now say that you can grasp the coin in your hands without untying the cord that binds them. Simply drop the coin from your mouth upon a low chair; then walk backward close up to the chair, so that you may pick up the piece of money with your hands.

### JUVENILE LOGIC.

Little Mabel's mother was expecting Mabel's auntie on a visit. Just as she was almost due to arrive a telegram came, which read: "Missed train. Will start at same time tomorrow." Mabel hurried home from school, expecting to greet her auntie, instead of which she was shown the telegram. She read it through carefully and then she remarked:

"How odd of auntie, mamma!" "Why, dear?" inquired her mother. "Well, don't you see that if she starts at the same time tomorrow, she'll miss the train again?"—Illustrated Bits.

### DOT WITH A TAIL.

According to the Delineator, Leah was having her first lesson in punctuation. On her return from school she explained to her brother that a period was a dot, and a comma was a period that had sprouted.

### HIS FIND.

Tell me what you think I found Lying right on the weedy ground? Ho! It was new and red and round. A cent! Just peeping from the dew. Wasn't it jolly, I ask of you? I began thinking what I'd do. I'd buy some marbles, or else a top, A rubber ball or some corn to pop, Or a jumping monkey to hop, hop, hop. Or else a trumpet to make a noise, Or nuts, and divide them with the boys. Oh—well, you know, there's a lot of toys. But oh! as I stooped—I only meant To spin it—down in a hole it went. That was the last of my red cent. —Sydney Dayre.

## MONITOR BOOK OF GAMES

### CAT.

THE "cat" is a little billet of wood, about four inches long and pointed at the ends, which is to be struck with a light stick. A player stands at a little distance and endeavors to throw this missile into a hole or circle previously made. Another stands over the circle and defends it with his stick. If the cat falls in the circle, the batter is out. If, on the other hand, it falls out of the circle, he has the right to make a stroke.

Placing the cat within the circle, he hits it on one end with his bat; and, as it bounds upward, endeavors to strike it as far away as possible. If the cat is caught, he is out; otherwise, he is entitled to score a number proportioned to the distance which the cat has been struck, estimated in jumps or foot

lengths. This score, however, is subject to a peculiar negotiation.

The pitcher offers the batter a few points. If this is not accepted, he raises his bid as high as he thinks proper; but if his final offer is refused, the pitcher measures the distance (in jumps or lengths of the foot), and if he can accomplish it in a less number than that offered, the striker or his side loses that number of points. The game is an agreed number of hundreds.

Forfeit—Make a nosegay with any six letters of the alphabet that are given you. Thus, suppose the letters were L, W, G, F, T, N, you might fill them in with lily, woodbine, geranium, foxglove, tulip and nasturtium.

The Monitor prints one or two games each Saturday. Cut out and paste in blank book and soon you will have a good collection.

The First Church of Christ, Scientist,  
In Boston, Massachusetts, Announces

## A Lecture on Christian Science

By BICKNELL YOUNG  
Of London, England

A member of the Board of Lectureship of the  
First Church of Christ, Scientist, Boston, Mass.

## IN THE CHURCH EDIFICE

Falmouth, Norway and St. Paul Streets

Monday Evening, May 9, 1910

At Eight o'clock.

THE PUBLIC IS CORDIALLY INVITED.

## DARTMOUTH ISSUES THE OFFICIAL PLANS OF COMMENCEMENT

HANOVER, N. H.—The secretary of Dartmouth College has issued the official program for the one hundred and forty-first commencement. The program is very similar to that of last year, except that it contains the presentation of the Oedipus Tyrannus of Sophocles in Greek on the night preceding commencement, and that the ball game on Tuesday will be in the morning rather than in the afternoon. The program opens Friday, June 17, the time of the Sing Out and Wet Down. Although anticipating the exercises of commencement week by eight days, the Sing Out day rightly belongs to the commencement season.

Following is the program:  
Friday, June 17—5:00 p. m., senior class sing-out in Rollins chapel; 5:45 p. m., public initiation of the Palaeopitrus at the old pine; 7:15 p. m., classes assemble for the wet-down; 9:00 p. m., dinner to the senior class by the College.

Saturday, June 25—8:00 p. m., speaking in Dartmouth Hall for the class of 1896 prizes and the Barge gold medal. Sunday, June 26—10:30 a. m., baccalaureate sermon by the Rev. Hugh Bidek, D.D., of the Union Theological Seminary; 7:15 p. m., vespers service in Rollins chapel.

Monday, June 27—2:30 p. m., class day exercises; 4:30 p. m., reunion of Greek letter fraternities and college societies; 6:45 p. m., band concert, college hall terrace; 7:45 p. m., operetta: "The Pea-Grreen Earl"; 11:00 p. m., promenade concert in college yard.

Tuesday, June 28—8:30 a. m., meeting of the Phi Beta Kappa society; 10:00 a. m., baseball game; 2:00 p. m., annual meeting of the Alumni Association; 4:00 p. m., president's reception; 7:45 p. m., presentation of the Oedipus Tyrannus of Sophocles in Greek; 10:30 p. m., band concert, college hall terrace.

Wednesday, June 29—9:00 a. m., prayers in Rollins chapel; 9:30 a. m., the procession will form in college yard for the commencement exercises in Webster hall, including the conferring of degrees in course and honorary degrees; 12:00 m., lunch in College hall; 9:00 p. m., commencement ball.

### "The Crown Has It."

Traveling size, 1/4 lb.

Use nothing but the very finest in bath powder and that is Bathodora the bath powder that stands the test. It has fragrance and is cleansing.

In 2 sizes and 4 colors: Rose, Violet, Crab Apple Blossom and Mitcham Lavender.

Sold at Dept. and Drug Stores.

Generous sample of Bathodora and "Fashion Book of Perfumes" sent for 4c. (postage) and your dealer's name.

Crown Perfumery Co. of London.

Dept. X, 30 East 20th St., New York.

## The Boston Five Cents Savings Bank

30 TO 38 SCHOOL ST., BOSTON

Open from 9 A.M. to 5 P.M.

NOTICE TO DEPOSITORS

In accordance with the provisions of Section 43, Chapter 28B, of the Acts of 1908, requiring that all Savings Banks in Massachusetts shall call in the books of depositors for verification in the year 1910, depositors are hereby requested to present their books at this bank during the months of May and June, 1910, for verification.

Bank books may be sent by mail, and will be returned in the same way.

# "THE BOHEMIAN GIRL"

The favorite old ballad opera, once known as grand opera. Some notes of its history. Story of the opera. "Opera in English."

THE "Bohemian Girl" once on a time stood for the grandest of opera to the English speaking public. And can there be any better argument for opera in English—and by Anglo-Saxon composers, too, for English words do not really fit foreign music—than the worldwide familiarity among the English-speaking nations of "I Dreamed I Dwelt in Marble Halls," "Come with the Gypsy Bride," "Then You'll Remember Me," "The Heart Bowed Down"? It is the one opera by an English-speaking composer that is as well known to us as any work of a foreign composer. For this we owe it an affectionate remembrance and its performance by the Aborn Opera Company at the Boston Opera House may rightly win an interested hearing.

Michael William Balfe of Dublin was a violinist and a sweet singer in the delightful Irish way as well as a composer. He made other operas, but they had foreign words, and perhaps for this reason never won the same favor as "The Bohemian Girl." While the plot of this opera is by no means distinctively English, neither can it be said to have the flavor of any other land. Gypsies are citizens of the whole world, and characters like Balfe's are citizens of the world of romance, not of everyday. Where is the world whose folk talk like this bit that follows—except the land of the ballad sheet?

Down on thy knees, the gem restore,  
Even in thy shame amazed,  
Or long years of sin shall deplore  
The storm which thou hast raised.

Nobody outside gypsy land knows what that means, whatever language it may be translated into—and "The Bohemian Girl" has been sung in nearly every one of the leading European languages.

The opera had its first production at the Drury Lane theater in 1843 and Sir Augustus Harris had a gala performance there in 1893 to celebrate the fiftieth anniversary. Ben and Fingon Davies were of the cast and wrestled mightily with the situations to make them possible. The criticism was that nobody could make the story of the play seem probable. But opera in the days of Balfe was not supposed to be probable. One

could see probable things enough on every street corner. One paid \$1.50—or 6 shillings—to hear and see what never could be found off the boards of the theater. Else why the 6 shillings? The English critic on this occasion condoned the listlessness of the orchestra on the grounds that nobody could be expected to play the dreary repetitions of the secondary parts in this score with any animation. The gentleman who handled the drums alone gave an example of painstaking and unflagging energy.

A revival of the old work in Boston in 1896 is interesting for the criticism of a young and girlish singer whose "very small voice" was made up for by her charming piquancy of expression both as to voice and manner. This was Miss Alice Nielson, now a favorite of Boston's very own new opera company.

The libretto of this opera was written by Alfred Bunn, who also engineered its first production. The story is one that Cervantes and Beaumont and Fletcher as well as lesser lights have used, namely of a well-born youth who joins a gypsy band and there finds and loves the stolen daughter of a nobleman. Thaddeus is a Polish exile whom gypsies in the first scene save from pursuing soldiers. Then the hunting party rushes in full of terror because the count's child and her attendant have been attacked by a stag in the forest. Thaddeus shoots the stag, saves the child and receives the count's gratitude. He is asked to dinner, but refuses there to drink the health of the Emperor. The guests turn on him with wonderfully concerted disapproval, when the gypsy chief comes in and with Thaddeus. The count tries to arrest the gypsy, who escapes carrying off the count's child.

The second act shows the child grown to a lovely young girl in the gypsy band. Thaddeus, who has joined them, tells her how he saved her life but does not let her know who she is. They are betrothed. The gypsies encounter Florestan of the count's court, and rob him of jewels, including a handsome medallion. The gypsy queen, jealous of Thaddeus' love for Arline, gives the jewel to Arline, who wears it at the country fair, and is there accused by Florestan

of having stolen it from him. She is arrested and brought before the count. He finally recognizes her, when she tells the story of her rescue by Thaddeus.

The third act shows Arline restored to her home. Thaddeus rewarded for his guardianship of Arline by the bestowal of her hand by her father, and at the end the gypsy queen appears at the window, trying to shoot Thaddeus, but she is foiled by the gypsy chief and herself falls.

The opera has often been given in Germany. Balfe having written a special overture for its production there, which was highly praised for its contrapuntal merit, says a reviewer of the time. For a production in Italian Balfe wrote special recitatives, though in the English production the dialogue is spoken. In 1869 Balfe presented the opera by invitation at the Theatre Lyrique in Paris.

The programs and press clippings on file at the library show Emma Abbott singing her part in this time-worn old score, and Clara Louise Kellogg delighting people with "grand opera in English." The struggle to get grand opera in English has been a long one and is not yet fought out. The work of the Aborn company is forwarding the time when we shall be as high handed on this score and in all opera scores as the French people are, who will have everything in French. And then, too, we shall have music that fits the English language. For the genius of English is so different from the Latin languages at least, and even from German, that the phrasing of music for these languages will not permit words to be sung in their natural English order. Musical phrases, as a rule, develop toward the middle and fall away toward the close; English poetry has its phrases increasing in interest at the close, where most often a strong monosyllable ends the line. Music for English words has to be wedded to the otherwise the language is weakened and with this weakening comes a weakening of the musical effect. English songs must be a voicing of English verse. Then they have flavor and individuality.

## MONITORIALS

By Nixon Waterman

### THE "WHY" OF IT.

(The primary cause of the world-wide advance of prices since 1897 has been the increase of the gold supply.—Massachusetts Legislative Commission.)

Now all good folks who are too poor To keep the lean wolf from the door, And lack the coin to purchase meat And other high-priced things to eat, Will, as they nibble at their crusts, Be glad the tariff nor the trusts Have made them poor; for now they're told They're poor because there's too much gold!

The celebration of the hundredth anniversary of the establishment of the first savings bank in the world is about to occur in Scotland. But the "First National Bank" is to be found in many American towns and cities.

### FIRST PERSON SINGULAR.

Humpty—Knowitall is so conceited that he is constantly reminding me of one of the characters in mythology. Dumpty—Some one of the gods of learning? Humpty—No, of Argus, who had so many I's.

The telephone business appears to be prospering everywhere. None of the companies is going into bankruptcy, although it would be handy for them to do so since every phone has its own receiver.

### A FLIRTATION.

The meter man who reads our meter. Thinks, than our maid, no girl is neater; He plans to meet her when he can, And she to meet her meter man.

Since a Baltimore canner asserts that oysters may be canned and kept in cold storage ten years without losing any of their wholesomeness, the public may henceforth feel disposed to snap its fingers at the months without an "r" in them.

Hungry New Yorkers would be willing to pay a fresh price for bread several days old, no doubt, but there is no bread several days old in their city just now.

### TRUE RICHES.

Fiddledy—I am told that Goldman is one of our truly well-to-do citizens. Dee—Yes, indeed! He is a plutocrat. He owns a cow, a pig and several hens.

The greatly increased attendance which President Taft's presence called to the Pittsburgh ball park may induce other club managers to offer him a free ticket whenever he will attend, and charge up the same to advertising expenses.

### THE QUESTION.

He has hunted the lions fierce and strong, Hippos and rhinos, too, And now mid Europe's gay, glad throng, It's hip, hip, hurroo!

And soon will the joyous horns and drums, As he seeks his home again, Play, "See, the conquering hero comes!"

And then? Ah, yes! What then?

There may be those who will find it difficult to decide whether the New Jersey school pupils who voted to forego the use of explosives on the coming Fourth of July and receive instead their price in cash to spend for other purposes, were actuated by a truly patriotic sentiment.

### A PARADOX.

Hydon—Do I understand you to say that your son who is at college is contracting the habit of spending money? Seek—Yes, strange as it may seem, he is not only contracting the money-spending habit but he is expanding it at the same time.

It is safe to say that if the spirit of Hamlet's father had cared to venture to stroll through the castle Kronberg the day that Mr. Roosevelt held forth in Elsinore, the former would not have stood a ghost of a show in attracting the crowd.

### A STRANGER.

The "administration" railroad bill Has been chopped, pruned and patched until (Its greatly altered features show it) They say its father would not know it.

## MUSIC IN LONDON

THE opera season at Covent Garden opened with a performance of "La Traviata." Madame Tetrazzini's place being taken at the last moment by Madame Donald. The first cycle of the "Ring" will be given during the week, and there will be a performance of "Rigoletto" with Madame Tetrazzini in the cast, as well as a second performance of "La Traviata."

A large and enthusiastic audience was present in the Queens hall at the concert which brought to a close the fourteenth season of the Queens Hall orchestra, the program consisting almost entirely of overtures by Wagner, the only other work being the unfinished symphony of Schubert.

MM. Ysaye and Pugno gave the first of three recitals in the course of which the whole of the Beethoven violin and piano sonatas are to be played. On this occasion the first three sonatas in D major, A major, and E flat major were given, and the "Kreutzer" which will be given again at the third recital next month. The concert was a great success and the other two will be looked forward to keenly.

The second concert of the Classical Concert Society, given in celebration of the Schumann centenary, was perhaps a little less interesting than the first, in that all the works performed were more familiar than in the case of the first concert. The program was carried out by Leonard Borwick and Georg Henschel and the hall was crowded. Mr. Borwick gave an admirable performance of the fantasia in C and later in the program played the Kreisleriana, op. 16, and a group of pieces, including the Romance in B flat, as well as the one in F sharp, and the Tocatta in C. Mr. Henschel sang "Die Losenbraut," "Lust der Sturmnacht," "Auf dem Rhein" and other familiar songs.

The following works are to be produced at the Sheffield Musical festival: Handel's "The Messiah," "Ruth" by Georg Schumann, "Don Juan" by Strauss, the Bach Mass in B minor, closing scenes of "Das Rheingold," "Die Walkure," "Siegfried" and "Götterdämmerung," and Elgar's "King Olaf." The St. Matthew Passion will also be heard and the Grail scene from "Parsifal."

It is announced from Berlin that the first performance of "Poia" by Arthur Nevill took place at the Royal Opera house, but did not achieve a very great success. Herr Strauss' opera "Salome" is to be given this week in Paris with Miss Mary Garden in the title part, and meanwhile a French version from the pen of M. Antoine Mariotte has been given at the Theatre Lyrique Municipal but appears to have left the audience unmoved. M. Mariotte was formerly an officer in the French navy and he left the service in order to devote himself to the study of music. He has apparently cherished the idea of setting "Salome" to music since 1895, but to those who had

who had purchased seats for "Bright Eyes" on Monday evening may obtain the same seats by making the substitution at the boxoffice. The popular young men, who have been together at the Boston Museum, Park and more recently at the Colonial, have an especially strong attraction in the first presentation here by Robert Edson of his own new play, "Where the Trail Divides." They request that the transfer of tickets be made in advance so as to avoid all confusion on the evening of the benefit.

William Hodge, "The Man from Home" at the Park theater, was thoroughly in his element last Wednesday matinee. Fourteen of the little children of the Dorothy Dix school attended the performance of "The Man from Home," occupying the boxes as the guests of Mr. Hodge, and none in the large audience appeared to enjoy the play more than they did. At the close of the third act, Mr. Hodge made a speech and then asked the children if they thought "The Man from Home" was a good show. The smallest child in the lot replied in a clear voice: "Yes, sir! It is the best we ever saw."

### Mrs. Butler's May Festival Today.

Today is the day of days to the hundreds of tots who will dance in the annual May festival at Mechanics building this afternoon and evening. For weeks the many numbers have been in preparation and Mrs. Lilla Viles Wyman, who has entire charge of the production, is satisfied that her efforts will result in the most pretentious amateur affair ever given in this line. A decided acquisition to the list of solo dancers is Mabelle Patten, a former favorite dancer at the spring fetes, and for the past six months premiere danseuse of the Boston Opera Company. Another of Miss Wyman's professional pupils who will appear is Miss Virginia Tanner, who will on this occasion dance the cymbal and dagger dances from the Moorish pantomime recently artistically redefined at the Spanish festa. The afternoon performance begins at 2 o'clock and the evening at 8 o'clock. The hall has been beautifully decorated for the occasion by E. W. Campbell, the well-known architect, who designed the automobile show decorations.

heard Strauss' work M. Mariotte's opera appears to have been somewhat disappointing.

M. Piene has been appointed conductor of the Colonne orchestra. He was born at Metz in 1863 and gained the Prix de Rome at the Paris Conservatoire in 1882, and succeeded Cesar Franck as organist at Sainte Clothilde in 1890.

## BIG LAND DEAL NEAR SAN DIEGO

SAN FRANCISCO—Anticipating a rush of immigrants to California at the opening of the Panama canal, James A. Murray, the capitalist of New Monterey, has consummated one of the largest deals in land that southern California has witnessed this year.

Mr. Murray admitted on his arrival here that he has purchased 1400 acres of land near San Diego, with 40 miles of right of way and a complete irrigating system, for slightly more than \$300,000. The sale was made through Colonel Edward Fletcher of San Diego. It consists of the property of the San Diego Flume Company, comprising the famous Cuyamaca lake and the La Mesa dam.

This includes the 40 miles of flume and conduit which carry the water from Cuyamaca lake to supply El Cajon valley, La Mesa, Lemon Grove and practically all the territory between La Mesa and the San Diego city limits.

## COAST LINE UNDER BRITISH CONTROL

SINGAPORE—The treaty with Tringann has been signed by the Governor of the Straits Settlements, Sir John Anderson, and the Sultan in the presence of the executive council. Among the provisions included in the treaty are the acceptance by the Sultan of a British resident, regulations with regard to the alienation of land, both mining and agricultural, and the mutual surrender of certain fugitives from justice. British protection is clearly defined, so that the Malay peninsula is now entirely protected, and the coast line from the Persian gulf to the gulf of Siam is under British jurisdiction.

## WOMEN'S WORLD CONGRESS OPENS

GLASGOW, Scot.—Mrs. Lillian M. N. Stevens of Portland, Me., president of the National W. C. T. U. of the United States, will preside at the meeting of the World's W. C. T. U. congress in St. Andrews hall tonight, at which representatives from the United States, Canada, Australia, India, New Zealand and South Africa will speak.

The congress will close June 11, and will be followed by excursions into Scotland.

## ARMOUR TO ERECT SAN DIEGO PLANT

SAN DIEGO, Cal.—J. M. Purdy, local manager for Armour & Company, Chicago meat packers, announced that the company will erect a \$500,000 meat packing plant in this city on completion of the San Diego & Arizona railroad to Yuma.

## News of Plays and Players in Boston and Elsewhere

### BOSTON THEATERS NEXT WEEK.

Miss Ethel Barrymore, at the Hollis, in Pinero's latest drama, "Mid-channel," and Robert Edson at the Colonial in an entirely new play, entitled "Where the Trail Divides," will constitute the novelties in Boston theatrical offerings next week. Miss Charlotte Hunt will begin a season of summer stock productions at the Majestic on Monday with a performance of "The Blue Mouse." "The Three Twins" at the Boston, "The Man from Home" at the Park and "Herod" at the Shubert continue their runs. "The County Fair" will be played for a second week at the Castle Square.

### Hollis—Miss Barrymore in "Mid-channel."

A new drama from the pen of Arthur Wing Pinero is always an interesting event in the theater. Such an event Boston is to enjoy next week, when Miss Ethel Barrymore comes to the Hollis Street theater in "Mid-channel." The title is a metaphor for a point which the dramatist maintains comes in the lives of every married couple, when their happiness is subject to rough water, as are the boats that cross between Dover and Calais when they come opposite a hidden reef near the middle. How the domestic happiness of the Blundells was wrecked on this reef is the basis for "Mid-channel." Mr. Pinero is said to have developed his story with all the technical mastery that characterizes his work, and has managed to provide a background of truthful criticism of life to his action. Miss Ethel Barrymore takes the leading role of Zoe Blundell, the young wife whose selfishness is only equalled by that of her husband, who is played by Charles Dalton. Others in the company are: H. Reeves Smith, Eric Maturin, Miss Phoebe Coyne, Miss Louise Rutter and Miss Nina Severing.

### Colonial—Robert Edson in "Where the Trail Divides."

Robert Edson will blossom forth as a playwright on next Tuesday evening at the Colonial theater, when he will begin a limited engagement in the new play to come from his own pen, in the first four-act drama called "Where the Trail Divides," founded on Will Lillibridge's novel of the same title. In addition to marking his debut as a dramatist, the opening of "Where the Trail Divides" will signalize Mr. Edson's return to the impersonation of Indian character. The thousands of theatergoers who were delighted with "Strongheart" were always left wondering whether the white girl in that play should have married the athletic Indian

hero, as it was upon that unanswered question that the final curtain fell. In "Where the Trail Divides" Mr. Edson has attempted a partial solution of this problem, because the action of the new drama is based upon an unhappiness resultant from the marriage of a white girl and an Indian youth. The scenes of "Where the Trail Divides" are laid in the old territory of South Dakota in the days when the hardy and courageous pioneers were blazing their way through the wilderness for the settlement of a new empire.

Following his established custom, Mr. Edson will be surrounded by a supporting company of excellence, the cast including, among others, Menifee Johnson, Joseph Rawley, George W. Barnum, Edward Wade, Arthur Klein, Miss Cordelia MacDonald, and a new leading woman in the person of Miss Rose Tapley. During his stay at the Colonial Mr. Edson's matinees will be on Wednesday and Saturday. To permit the staging of the unusually elaborate scenic production required for "Where the Trail Divides," the Colonial theater will remain closed Monday evening and there will be a final dress rehearsal attended by a delegation of prominent New York theatrical managers.

### Vaudeville.

Keith's will have Jesse Lasky's "Country Club" as the leading attraction next week. This offering is said to be very seasonable, and to be one of the most elaborate productions of the kind ever seen here. Others who will appear are Tom Nawn and company in an Irish skit, Miss Whittaker in song and harp numbers, the Trombetas in European singing and mimicry, Doherty's poodles, Grecian feats of strength by Belleclair and Herman, and the Pantzer company in acrobatics.

### Other Boston Attractions.

William Faversham continues his engagement at the Shubert in his notable

MISS ETHEL BARRYMORE.

This young actress is reported to be doing the finest work of her career in Pinero's "Mid-channel," in which she appears next Monday at the Hollis.

production of the great spectacular drama by Stephen Phillips entitled "Herod." Mr. Faversham acts the title role and Miss Julie Opp as the queen, heading a company of 200.

"The County Fair" made such a hit this week at the Castle Square that Mr. Craig decided to keep it on for a second week. It is worth going to see twice just to see Donald Meek cavort in the role of Aunt Abbie.

"The Man from Home," with William Hodge in the title role, still continues its unlimited run at the Park theater. This is the eighteenth week of the engagement, and the end is nowhere in sight. This is the sort of play that people are glad to witness two or three times.

Miss Charlotte Hunt will begin an engagement in "The Blue Mouse" on Monday afternoon at the Majestic theater, beginning a series of summer stock productions at that time. There will be two performances every week day.

### THE POETIC DRAMA.

Music, poetry, painting and sculpture are the principal forms in which man's love for the beautiful are expressed. Why should the stage be the only place in life where these forms are not utilized? In fact, the ideal end of the stage should be to make it the place where most of the forms of expressing the beautiful may be used. When one comes to analyze the stage, he finds that this has

always been the aim, and at different times in the history of the world there has been an approach to the goal, says William Faversham, who is appearing at the Shubert theater in "Herod."

On the stage we can have most of these forms; poetry, music, painting, sculpture and the human form and face. If we put behind the forms beautiful thoughts, then we shall be doing a great good for the world—and for ourselves.

The ancient Greek drama combined music and poetry; its poetry was excellent, its music was less good because not highly developed; its painting was still more inferior because of a lack of stage mechanics that would enable them to utilize the genius of the artists; its sculpture was somewhat handicapped for the same reason.

Modern stage scenery and mechanisms, instead of adding to the idealistic and the beautiful in the theater has, for a time at least, had a tendency to detract from them by laying too much stress upon realism. A certain amount of realism is necessary and is good, but if we want to see a dog-fight we prefer to watch one in progress in a real street.

The development of the grand opera was an effort to appease the beauty-hunger of the people; but the grand opera is a little too much of a strain upon the credulity ever to become popular. Lovers of grand opera love it because of the music and not because of

## THE BELLEVUE

BEACH BLUFF, MASS. (Swampscott).  
 Mrs. Annie B. Olcott, formerly of Kennebunk Inn, having taken a long lease of this modern hotel, will open it June 1. Situated close to the broad ocean, fine bathing, tennis court, golf links, forest trees, splendid automobile garage, an ideal summer resort. Address until May 31, No. 31 Chestnut St., Boston.

## THE HAMILTON

12th and 13th Sts., N. W. Washington, D. C.  
 A HOME LIKE HOTEL fronting beautiful Franklin Park. Five minutes to White House. Quiet, refined; first-class table; modern appointments. Room and board \$2.50 up per day. Special rates for prolonged stay. Booklet.  
 IRVING O. BALL, Proprietor.

## Hotel Westminster

Copley Square  
 BOSTON  
 C. A. GLEASON

## NEW WESLEY

HERBERT A. CHASE, Mgr.  
 OPEN JUNE 28th "SEASIDE"  
 OAK BLUFFS—ISLAND

## Lexington Hotel

MICHIGAN BOULEVARD AND 72ND ST.  
 CHICAGO

500 Rooms (Strictly Fireproof) European Plan.  
 New Grill Room recently fitted up.  
 500 Rooms (Strictly Fireproof) European Plan.  
 READINGS ROOMS ON PAVILION FLOOR.  
 YOU WILL LIKE THE LEXINGTON  
 MONTROSE & M'WHIG, Proprietors; also, operating the Hotel Montrose at Cedar Rapids, Iowa.  
 HORACE WIGGINS, Asst. Manager.

## Hotel Sweetwater

BEDFORD SPRINGS, MASS.

Delightfully situated in a pine grove, large airy rooms en suite or single; strictly modern and up-to-date. Two hundred and fifty acres of grounds, with all the attractions of a high-class summer hotel.  
 TELEPHONE LEN. 21893.  
 R. L. BROWN, Proprietor, formerly of The Hotel Somerset, Commonwealth Ave., Boston.

## Turk's Head Inn

ROCKPORT, MASS.

Extreme point of Cape Ann. Forty-five miles north of Boston. State road.  
 C. B. MARTIN, The Wadsworth, Bostop.

## The Templeton Inn

TEMPLETON, MASS.

A summer resort "In the Heart of the Massachusetts Highlands." One of the finest and best appointed inns in New England. Send for booklet. PERCIVAL BLODGETT, Manager.

## Cape Cod

Falmouth Heights, Mass.  
 Highest and coolest location on Vineyard Sound. Exceptionally good table and service. Best roads in country. Moderate rates. Opens June 15. Illustrated booklet.  
 CRAIG HOUSE AND COTTAGES.

## Casco Bay, Littlejohns Island, Me.

Eight Miles by Daily Boat from Portland.  
 ROCKMERE HOUSE AND COTTAGES.  
 A quiet, restful place with country and sea combined. Moderate prices. Booklet. Opens June 15th.  
 362 Harvard St., Cambridge, Mass.  
 G. H. HAMILTON, Prop.

## Adirondacks—4th Lake

ROCKY POINT INN AND COTTAGES.  
 ALSO THE MOHAWK AND COTTAGES.  
 A Mountain Paradise. June to July 15 and after Sept. 1 the rates will be \$12 to \$14. After July 15, \$15, \$18 and \$25. H. H. LONGSTAFF, Eagle Bay, N. Y.

## Hotel Marlborough

ASBURY PARK, N. J.  
 Same management as Coleman House. Thoroughly equipped all year hotel. Luxurious suites, with bath; every accommodation for automobile parties; large sun parlors. Capacity 250. A. M. SEXTON.

## MAPLE CROFT NORWAY, MAINE.

Beautiful scenery, elegant location, near two lakes; good bathing and fishing; tennis courts. Excellent cooking, great attention given to dining room.  
 Rates furnished on application.  
 W. C. HOBBS, Prop.

## MAPLEHURST AND COTTAGE

CHOCORUA, N. H.  
 A delightful location for refined people; modern conveniences; reasonable rates. F. H. CARLE.

## THE ELMS BEACH BLUFF, MASS.

On the North Shore. Now open. New management. Unsurpassed location. Golf, tennis, bathing, fishing. Garage. Booklet.  
 J. H. McLEOD, Prop.

## THE NANEPASHMET

MARBLEHEAD NECK, MASS.  
 Opens June 15. Finest location on North Shore; every room ocean view; special rates for June; circular.  
 E. G. BROWN.

## THE SURFIDE, Winthrop, Mass.

Ocean Spray St. directly facing broad ocean. Bathing, boating; due location; cool rooms, excellent table; reasonable rates. Tel. 21353 Winthrop.

## THE ELMS BEACH BLUFF, MASS.

On the North Shore. Now open. New management. Unsurpassed location. Golf, tennis, bathing, fishing. Garage. Booklet.  
 J. H. McLEOD, Prop.

## Stop at Famous HOTEL

## IMPERIAL New York

Broadway  
 31st to 32nd Street  
 FIREPROOF  
 800 Rooms  
 600 with Private Bath  
 EUROPEAN PLAN  
 \$2.00 per DAY and up  
 One Block from New Penna. R. R. Station  
 ROBERT STAFFORD  
 Proprietor  
 Copeland Townsend Manager

## The Rustic

Estes Park, Colorado

A select little family hotel in the heart of the Rocky Mountains. Write for booklet and full information.  
 W. G. EDWARDS, Manager.

## The Coolidge

Coolidge Corner, Brookline

Furnished or unfurnished apartments, all modern improvements.  
 One to four rooms with bath, for permanent or transient occupancy.  
 Cuisine of Unvarying Excellence.  
 F. F. BRINE, Manager.

## THE PINES

Cotuit-by-the-Sea, Mass.

Open June 1. Special rates.  
 Splendid location on beautiful beach; bathing, boating, fishing; prices from \$12 to \$30 per month.  
 OCEANO LAND AND HARBOUR CO.  
 121 Merchants Trust Bldg., Los Angeles, Cal.

## THE WINTHROP

1601 Beacon Boulevard, BROOKLINE.

A FEW pleasant front rooms at reduced rates for the summer.  
 Telephone 22962.

## Hotel Graystone, 66 Geary Street

San Francisco

In the heart of the shopping and banking district, near all car lines; first class; all modern conveniences. For reservations and rates, write I. B. SLOCUM, Manager.

## ROCK CLIFF

Rose Mountain, M. A. Vennie.  
 PINE HILL, N. Y.

## YOUNG'S HOTEL WINTHROP

Only large hotel on crest, near yacht club and garage; 100 guests; steam heat; 10 minute train to Boston, Mass.; 10 cars. 20th season. Open May 1st. Write for booklet and terms.

## BEACON HILL

5 WALNUT ST., BOSTON.

Pleasant, attractive rooms. Cool for the summer. Tel. 1002-5 Haymarket.

## THE NANEPASHMET

MARBLEHEAD NECK, MASS.  
 Opens June 15. Finest location on North Shore; every room ocean view; special rates for June; circular.

## Educational Institutions

## MANOR SCHOOL

STAMFORD, CONN.

A boarding school for boys. Upper and Lower Schools comprise all grades from primary to college preparatory. Graduates now in all leading colleges. Work thorough, systematic and effective. Instruction college bred. Location overlooking Long Island Sound, unsurpassed. Buildings modern; hot and cold water in every bedroom. Bowling alley, shower baths, large gymnasium, athletic field, tennis courts, Manual Training Department, etc. Careful and sympathetic attention given to the needs of each individual boy along the lines of moral development.  
 For information and booklet, address LOUIS D. MARRIOTT, M. A., Headmaster, Manor School, Stamford, Conn.

## LELAND POWERS SCHOOL

177 Huntington Ave., Boston

EMERSON COLLEGE OF ORATORY  
 HENRY LAWRENCE SOUTHWICK, PRESIDENT.  
 Largest school of expression in the United States. Seventy teachers placed last year in positions ranging from high schools to universities. Courses in literature, oratory, pedagogy, physical culture, voice, dramatic art, etc. Summer school from July 11 to Aug. 5, immediately following N. E. A. CONVENTION.  
 HARRY SEYMOUR ROSS, Dean. Chickering Hall, Huntington Ave., Boston.

## Chauncy Hall School

Established 1858  
 Prepares boys exclusively for Massachusetts Institute of Technology and other scientific schools.  
 Every teacher a specialist.  
 HAGAR & KIRT, Principals  
 351 Boylston St. (Copley Sq.), Boston, Mass.

## Studio of Expression

Summer school, all branches Platform Art. Five weeks, beginning July 5th, Conducted by  
 EDITH M. HERRICK  
 Formerly of the Faculty of LELAND POWERS SCHOOL.  
 Send for circular 55 St. Stephen St., Boston

## THE ALLEN SCHOOL

A school where boys are taught to be self-reliant. Individual instruction. Thorough preparation for college or scientific schools. Athletic training. For catalogue, address Everett Starr Jones, Hingham, Mass.; Box 2, West Newton, Mass.

## Lasell Seminary

For Young Women  
 Auburndale, Mass.  
 Ten Miles from Boston.  
 A high grade school for young women, offering regular college preparatory and special courses, including music, art and elocution.  
 Home making in all its phases is thoroughly taught. The principles of sanitation, the science of foods, marketing, cooking, the art of entertaining, house furnishing and management, sewing, dressmaking and millinery are studied in a practical way, under the supervision of competent teachers.  
 Tennis, boating, swimming, riding and other sports are encouraged.  
 Beautiful suburban location. Address G. M. WINSLOW, Ph. D., Principal

## SUMMER CAMPS

## ALOHIA CAMPS FOR GIRLS

Lake Merris, Vt., and Lake Katherine, N. H.  
 Sixth season. Good location. Pure water. Safe sanitation. Water sports. Tennis, golf and handicrafts. Nature study, horseback riding, mountain climbing. Substantial house. Bungalow. Board foot tents. Experienced counselors. Girls' welfare our first care. MR. AND MRS. E. L. GULICK  
 80 Maple St., West Lebanon, N. H.

## CAMP CHOCORUA

In the White Mountains. Boys eight years up. Mental, manual, physical training, as desired. Good moral surroundings. Ninth season. Illustrated camp book free. G. DAVIDSON, M. A., Durham St., Mt. Airy, Philadelphia.

## Wildernesse Camp for Boys

In the White Mountains. Mountain climbing, canoeing, motor boating, all outdoor sports. Home cooking. Coaching trip to White Mt. Annual training. By direction, experienced leaders. Booklet. Address: FRED C. GOLDTHWAIT, S. L. 103 Tremont St., Boston.

## Camp Good Cheer for Boys

On the Coast of Maine. Good fishing, motor boating and all outdoor sports, always under competent and experienced instruction. Home cooking. Swimming taught if desired. Number limited. Send for booklet. Address: Mrs. M. L. MAER, 400 Pleasant St., Malden, Mass.

## CAMP HACKMATAK

FOR GIRLS—A summer outing in the White Mountains. Address: MRS. MAUD G. POTTER, Tamworth, N. H.

## AUTO ENGINE FLEXIBILITY ABUSE IS TOLD BY EXPERT

Gives Advice to Drivers That Will Prevent Undue Strains on the Delicate Parts of Motor Mechanism—Gear Change Hints.

Flexibility is the most desirable feature of the modern automobile engine but probably is one that is occasionally greatly misused, says a writer in the Autocar.

It is all very well for the salesman to show how it is possible and easy to run the particular car he may be driving at a mile per hour on top speed and yet accelerate readily by merely opening the throttle, but this alternate crawling and jumping, possible by reason of the "flexible" engine, is not accomplished without undue wear and strain to various parts of the mechanism of the car.

The object of this article is to point out to owners who are not already aware of it, and who have not given the question serious thought, the damage which may and generally does accrue by utilizing an engine's flexibility to too great an extent, to say nothing of the foolishness of actually abusing this, under certain circumstances, most desirable quality.

In the first place, consider the conditions obtaining in the engine of a car of average gear ratio and, say, 14 to 18 horsepower, pulling so hard that when nearing the top of a rise the revolutions per minute are down as low as 200 to 300. Admittedly the engine is not developing its power, but that is not the point. The torque is very irregular, and all the working parts of engine and transmission are being subjected to a series of separate and distinct hammerlike blows. The occupants of the car can feel each impulse due to the individual impulses in the engine, though unaware of the real cause of the vibration. But let those who are sufficiently au fait with the mechanism of a car consider for a moment, and they will agree that the wear, strains and stresses to which the bearings and connecting rods, shafts and couplings, gears and joints, to say nothing of the axles and wheels, are subjected, are positively abnormal.

When this condition occurs it is highly probable that the driver, in order to obtain the maximum power available, will have to adjust his ignition that the combustion of the gas commences as early as possible on the firing stroke, without actually causing that distinct series of "knocks" which arises from the ignition being too far advanced. But even granting that a knock is not apparent, there is a likelihood of damage arising or excessive wear occurring other than that emanating from the uneven torque, and a very fleeting consideration will confirm this.

The average driver does not manipulate his ignition lever by finely graded movements; therefore when he finds, as he probably will when the engine begins to pull hard, that with the lever at a certain point the engine does not pull so well as when the lever is at another point more advanced, he will, more often than not, have allowed the lever to

remain at the latter position until the ascent is completed.

A knock did not occur you may say. No, but when the engine was pulling at its very slowest and hardest at one spot on the hill—just at that time when the driver thought that after all he would have to change down—there may have been, and probably was, a portion of the charge fired on the dead center, or even earlier. This amount of premature combustion did not cause a knock—but it is harping on the point perhaps, but it is necessary to emphasize it—because it was sufficient to transmit a comparatively violent reactionary blow to the piston, gudgeon pin, and big end bearing and crankshaft. In effect it increased the unevenness of the torque in a similar manner to that in which an excessively high compression in one cylinder would do.

When one is running along at a comparatively low speed, say six to eight miles per hour, on top gear, the throttle is usually pretty well closed off and the spark well advanced. If the compression is well up to normal, any motorist can cause his engine to knock quite perceptibly by simply opening the throttle quickly. This is because of the then greater compression and consequent impulse pressure which is imposed before the engine can accelerate sufficiently to compensate for what is in effect a too early ignition, under these conditions. Much of the unnecessary wear from such manipulation would be avoided if the spark lever were retarded with the opening of the throttle.

## Mapping Route for 1910 Glidden Tour

CHALMERS "30" NEARING BONHAM, TEX.

Not long ago there appeared in the news columns of the daily papers throughout the country an item which told of a large purchase of automobiles by Texas cowboys. It was stated that the cowboy of the great Southwest was deserting his horse for the more modern gasoline buggy. Perhaps these reports were accepted only partially at the time that they were first made public. But they have been substantiated by the official pathfinding crew for the 1910 Glidden tour. Throughout Texas the passengers of the Chalmers "30" have found great motoring enthusiasm.

The entrance into Texas of the official pathfinder was one of triumph. The car was met on the Red river of Arkansas by the representatives of the Dallas Automobile Dealers Association.

"Dallas extends the glad hand," was their message. It sounded to the pathfinding crew pretty much like the greeting they received all along the line. But the Dallas enthusiasts had come 240 miles to deliver it. They brought with them complete road data from Texas, Kansas to Dallas. They promised good roads and they produced them. The trip from Texas to Dallas was a constant ovation from the small towns along the route.

This is the spirit which the pathfinders have found throughout the South and the Southwest. Ft. Worth, for some unknown reason, marks the line between the South and the West, but as the pathfinding car progressed in the further West, through northern Texas, Oklahoma and Kansas, the same enthusiasm was evident.

These goods are designed especially for us and embody many foreign ideas that are sure to appeal to the automobilist who desires quality, comfort and style.

Collins & Fairbanks Co.

383 WASHINGTON ST., BOSTON

## NEW ELECTRIC AGENCY HERE

During the past week H. C. & C. B. Castle, Inc., of 803 Boylston street, have secured the agency for the Rauch & Lang electric for Boston and vicinity. These electric are well known to Bostonians as many of these cars have been sold here and are in constant daily use.

William C. Little, the factory representative of the Rauch & Lang Company, who will spend some time assisting the new agency, is very enthusiastic over the ideal road conditions in and around Boston. Pittsburg and Kansas City have many more and much heavier grades than the hills in and about Boston, and the large number of electric sold by their agencies in these and other cities in the West speak eloquently for the stability, popularity and economy of these cars.

The Rauch & Lang Carriage Company have been building high-grade vehicles for 58 years and their electric embody the highest quality of workmanship and materials obtainable. The operation is the safest as well as the most simple of any electric pleasure vehicle manufactured. The Rauch & Lang Company manufacture electric pleasure vehicles ranging from the two-passenger stanchion to the six-passenger landulet, and, with the exception of one car, all of the electric displayed at their exhibition in the recent auto show in Boston, have been sold and delivered to residents of this city.

May 15. From 7:27 p. m. to 3:55 a. m.

History is replete with stories of special daring, of feats which have had more than ordinary bearing upon the fate and fame of nations, of valorous deeds which have made men's names synonymous with heroism. The stories of the early colonial days in this country are filled with these thrilling tales, but there is little doubt that in all the history of the revolutionary period there is no story better known than that of Paul Revere's famous night ride on the 19th of April, 1775. The bearing which this short trip had upon the succeeding days, and perhaps years, can only be conjectured, but it is certain that the preparations which were made by the colonial minute men in order to give a fitting reception to the British troops were made possible through the warning which Paul Revere and his companions spread throughout the district over which they rode.

The route which he covered on that memorable night can be followed to a great extent at present, although there are several deviations from the original route, caused by the shutting in of highways since that time. It took Paul Revere about three hours to go over the course which can now be covered in a motor car in about one hour, and this could be made in faster time if the roads were straight enough to permit it.

The scenes of the ride are simply examples of a particularly interesting portion of our country contained in those six states at its northeastern extremity. Moreover, there is no part of the country more famed for its picturesque beauty from the automobile tourist's standpoint, and over hundreds of miles of splendid highways in quaint old New England the motorist can secure more varied scenery and enjoy greater comfort in traveling than in almost any other section.

Its relation to old colonial times is particularly interesting and the patriotic scenes which were enacted there so many years ago will always thrill the true American. Recently a Boston automobile party in a Premier touring car started out to go over the route of Paul Revere's ride and to take photographs of the section through which he made his famous trip on horseback. It is now very difficult to try to cover the same course because of the changes which have been made from time to time. The old North church in Boston is probably the logical starting point inasmuch as it was there that Paul Revere hung to notify his compatriots on the Charlestown shore, and not, as was generally thought, as a signal for himself. He rode to a point in Charlestown now occupied by coal docks, and then started off toward Lexington to give warning to Hancock and Adams who were stopping there. Although he was nearly captured by three officers of the British army almost before he was outside of Charlestown, he was able by expert horsemanship to elude his pursuers and succeeded in reaching Lexington, alarming the entire country as he rode.

The motoring party endeavored to follow his route, but the points once so famous in many instances are not now upon the traveled highway, and the idea of covering Paul Revere's ride completely in a motor car was given up. But the tourists were taken over some historically interesting ground, such as the bridge at Concord, where the first gun for American independence was fired; the spot on the Lexington road where Paul Revere was arrested and which is now marked by a large tablet; Sleepy Hollow at Concord, and other equally interesting points on the road to and from those famous villages just west of Boston.

Announcement has been made by Sec-

## EXCEEDS TWENTY MILES PER GALLON

A record was recently made on fuel consumption by a valveless Amplex car. A customer's car, which is owned by James Brown, treasurer of the Hotel & Railroad News Bureau, was used for this purpose. The tank was filled to the top and the car driven out the boulevard to Weston, then across country through Wellesley, climbing many hills and grades, ranging in speed from 20 to 45 miles per hour and making an average rate of speed about 30 miles per hour covering the distance of 28 miles. On refilling the tank it was found that only five quarts had been used, making an average of 22.4 miles on a gallon of gasoline.

Mr. Turner, manager of the American Simplex Company, drove the car and feels very proud of his record, especially in view of the fact that they conservatively guarantee Amplex cars to travel between 10 and 12 miles to the gallon of gasoline. "It simply shows," says Mr. Turner, "what can be done with the Amplex car after one gets accustomed to handling it; 22.4 miles per gallon on a 50 horsepower car is very remarkable. We claim only half of this amount of mileage; however, Amplex owners are often greatly surprised with the economical running of their cars."

## AUTOS WANTED FOR CHILDREN

The announcement that the Boston Automobile Dealers Association was making extensive preparations for its annual outing for the children of Boston who seldom get out to the woods and fields on Wednesday, June 8, has brought many letters to M. B. Deming who has been in charge. Many children are longing to be included among the number who will enjoy the outing, but not started out to go over the route of Paul Revere's ride and to take photographs of the section through which he made his famous trip on horseback. It is now very difficult to try to cover the same course because of the changes which have been made from time to time. The old North church in Boston is probably the logical starting point inasmuch as it was there that Paul Revere hung to notify his compatriots on the Charlestown shore, and not, as was generally thought, as a signal for himself. He rode to a point in Charlestown now occupied by coal docks, and then started off toward Lexington to give warning to Hancock and Adams who were stopping there. Although he was nearly captured by three officers of the British army almost before he was outside of Charlestown, he was able by expert horsemanship to elude his pursuers and succeeded in reaching Lexington, alarming the entire country as he rode.

The members of the association and the private owners who have contributed to this outing in former years have enjoyed it as much as the children, and this year it is proposed to have a program of sports for the operators of the cars.

## Boating Notes

The Mego, owned by Edward West, was launched April 30. She has been thoroughly overhauled and has had a 30 h.p. Robertson engine installed. This boat has been a successful contestant in numerous races, and it is expected that she will be entered this season.

The fleet at South Boston, which three weeks ago comprised only two or three boats, has now increased to about 100 and its numbers are growing daily.

E. W. Graef of the Reeves Graef Engine Company of Trenton, N. J., has been in Boston during the past week. Mr. Graef was formerly editor of the Rudder, and is an authority on motor craft.

Announcement has been made by Sec-

## PROMINENT MOTOR CAR MAKER CRITICISES GLIDDEN RULES

H. H. Franklin Believes That Penalties Should Be Imposed for Tire Troubles and Running Schedule Should Be Fixed.

"The framers of the Glidden tour rules for 1910 have signally failed to correct some of the most glaring defects in the rules of previous years," declares H. H. Franklin, president of the company which makes the Franklin automobiles. "They had the opportunity to silence well-founded objections, but in several notable instances they have refused as persistently as heretofore to correct obvious faults."

"To begin with, tire defects and troubles are not penalized. A tire is as much a part of a motor car as any other part. A broken lamp or hood presents a much more insignificant injury, or defect, than does a blown out tire, but still they will not impose tire penalties, and they even allow unrestricted carrying and use of demountable rims and extra tires. Many hold to the belief that continued tire troubles are necessary, but such is not a fact. Right construction will minimize tire difficulties, and the imposing of tire penalties in the Glidden tour and similar contests will bring out this fact."

"Another particularly conspicuous defect is in the fact that the running schedule is not fixed. It can be varied by the

referee as he sees fit. He can readjust the running time because of weather or roads or because of nothing at all. This arrangement becomes more farcical the longer it is continued. The time has come when a competing car should be required to go through on schedule or be penalized. Enforcement of such a rule when heavy bad roads are encountered will show at once what cars are able to withstand the conditions and make apparent the real motive of those who object to a fixed time schedule.

"Under the rules brakes and carburetors can be adjusted; batteries can be recharged; spark plugs can be cleaned. Of these, brakes particularly should appear in the penalty schedule. A weak and defective brake is a serious menace. Brakes call for penalties as much as any part of the car, and much more so than most, but still they are left out of consideration by the people who make Glidden tour rules.

"As they stand they do not determine anything about the automobile as a whole. The public wants a Glidden tour which when completed will show by the score the relative performance of the competing cars and show it fully and exactly."

## Speedy New England Motor Boat

THE BOOMERANG OWNED BY GEORGE S. VAN VOORHIS.

The Boomerang, owned by George S. Van Voorhis of the Boston Yacht Club, which is said to be the fastest small boat in local waters, is being painted and renovated and will go into commission about the twentieth. This yacht has never failed in her speed trials to surpass 30 miles an hour and over a measured course has done a mile in two minutes. She will be entered in many of the races this season.

Mr. Van Voorhis has also recently acquired a new 11-ton scow, Chieftain, which is equipped with a 10-horsepower Frisbie auxiliary engine. She will be ready for the water very soon.

Stary T. H. Campbell of the Columbia Yacht Club that the schedule for June is as follows: June 4, club race, officers' cups; June 12, ladies' day; June 25, club race, officers' cups, and June 26, a stag party.

Arthur Oldham of the Columbia Yacht Club has bought a 28-foot speed boat, equipped with a 68 h.p. engine, which is claimed will have a capacity of 34 miles an hour. She will go into commission about June 1.

It is expected that the Shoshone, a racing cat owned by Edwin Gibb, will be in the water next week.

The Wa Shi Shi Ma, a 44-foot launch owned by Frank Smith of the Boston Yacht Club, was launched May 5 at Baker basin, Quincy.

## Used Chalmers Cars

Overhauled, Repainted and Guaranteed by Us.

We have a few 1909 Chalmers Cars which belonged to satisfied owners who, desiring to be strictly up-to-date, have exchanged for 1910 models. These cars have been completely overhauled in our shops, put through severe tests, and having passed a rigid examination have been painted.

The Cars are completely equipped, including magneto, lamps, horn, gas tank, top, wind shield, speedometer, tools, pump and jack, with tires in good condition.

Our list includes: One "Forty" Roadster, one "Forty" Touring Car, one "Thirty" Roadster, and four "Thirty" Touring Cars. This is an excellent opportunity to secure, at a reasonable price, an exact duplicate of the car whose performance last year gave the Chalmers the unanimous decision of first place, and made 1910 a Chalmers year.

# BUNGALOWS

One of Many Styles  
\$495.00

At this price, \$495.00, we will manufacture for you a bungalow like the one here shown, made according to our standard system of stucco or clapboard exterior, with walls four inches thick and the interior artistically finished.

These bungalows contain 2 bedrooms (with closets), living room, kitchen, bath and spacious porch.

Enjoy the summer in the privacy of your home.

## OWN A BUNGALOW

When the summer is over you can pack it up and store it until the next year.

(Many Styles to Select From)

Quick delivery and satisfaction guaranteed. Write for descriptive matter.

STANDARD CONSTRUCTION COMPANY,

511-512 TREMONT TEMPLE BUILDING

BOSTON, MASS.

ORIENTAL DOMESTIC

## RUGS

We believe that we speak conservatively (and we say it in all seriousness) when we state that we would not be able to take care of all the business that would come to us could we quickly bring the majority of the readers of this advertisement to a realization of the fact that their dollars will do more for them here than elsewhere.

It's only a matter of time when we will convince them, for we are convincing some every day.

And it is not surprising if some hesitate to take our statements, relative to our ability to show a saving in their purchases, at their face value, when for years so large a majority of merchants have been advertising that they sell cheaper than anyone else.

The buying advantages we possess as a wholesale house together with our wholesale location (one block from Washington Street and Temple Place), carrying a very low rent, have a marked influence on our prices.

## QUAINT FURNITURE

\$17.50

\$17

\$18.00

Well made, well finished pieces in excellent taste, particularly for summer homes—Inexpensive, too.

Natural birch, mahogany finish, white enamel beds, four-poster beds—also dressing tables, cheval mirrors and sofas to match.

Morris & Butler  
97 SUMMER STREET.

"Charge Accounts Solicited"

## Beauty of Parasol

Did you ever stop to think how very finished a costume is if a parasol be added?

Handbags fill a certain place, of course, but a parasol, lace ruffles of chiffon, and a soft brush and warm sun.

Pay particular attention to the strand down the center where the fold comes when closed. Now mop it off with clear water, being careful not to touch it again with the hands.

If the parasol can be fastened or held out of doors for this final operation it will best be rinsed by turning the hose on it full force, both inside and out. If a particle of soap is allowed to remain in the fabric it will turn yellow in the sun.

Let it dry without touching. Linen and silk will stand this laundering very well, but any chiffon flouncing there may be, needless to say, must be removed.

## Avoid Too Many Clothes

It is a great mistake to have too many garments at one time. People who dress well on moderate means never do this.

They have what they need, take good care of their belongings, and mend them when necessary. When their clothes wear out they buy new ones, but they never care to have large stocks of clothes. Large supplies of underclothing are only an anxiety. They need constant attention, or they get out of order. If laid away for a long time they may become useless.

Yet good housewives are still careful to have a sufficiency of underclothing, because it is quite as great a mistake to have too few garments of one kind as to have too many.

People who have exactly what they require for a change, and no more, always get into difficulties when their clothes begin to wear out, because they constantly have to mend them. And it should also be remembered that linen, cotton and flannel wear longer when they have an occasional rest between their periods of service.

## Saving Stocking Wear

A great deal of time and trouble is saved and the lives of stockings doubled if the toes and heels are run with mending silk, or even with cotton, before they are worn, says the Indianapolis Star.

Silk will not shrink as mending wool does, and it is not nearly so bulky. Washing, too, has a great deal to do with the wear of stockings. They should first of all be well shaken in order to remove any dust and then soaked for 15 minutes in a lather of warm water and soap to which a little ammonia has been added.

Next make a fresh lather of soap and water and squeeze the stockings in this. Rinse in two lots of warm water, dry and press with a moderately hot iron before they are quite dry.

Never use soda for socks or stockings; it injures the color.

## Using Lace on All Garments

LACE probably has never been used so generally and for such a large variety of purposes as at the present time. The touch of lace is evident on almost every part of woman's costume. Lace has left the ballroom and the boudoir, and can be seen on the streets in irresistible combination with different parts of an outdoor costume.

Few things seem to escape the fascinating frill, and the wearers may revel in it to their hearts' delight. It is used as an undersleeve for broadcloth street gowns. For lace is gathered into a velvet ribbon band and a ruffle of lace falls over the hand.

Even the hat is under the spell of the lace. The lace has been pleated and is used to outline the velvet buckle form on the front of the hat. There is a certain freshness supplied by lace in this instance; and, moreover, a continuation is possible by the removal of the lace and a return after cleaning.

Lace is also used to fill the space between the lapels of the short coat. Net edged with gold lace falls in a becoming plisse.

Blue and white checked linen frocks are made beautiful by the insertion of very coarse Cluny motifs.

The breastplate on a curiously cut model with the new high bolero effect is of Cluny.

The sleeve panels repeat the design of a skirt panel on each side of the lower skirt that holds in the gathered portion of the side gores, hinting a slight panner.

When Cluny lace is inserted, it is merely placed upon the finished model, sewed around its edges with fine stitches, and the material beneath it is cut away and the edge rolled.

## Old Glove Markings

The meaning of the three marks on the back of a glove and the clocks on a stocking were two of the little mysteries of dress explained at a lecture in London recently on clothes.

The lecturer said that the three marks on the back of a glove correspond to the fourchette pieces between the fingers, and in olden days these pieces were continued along the back of the hand, braid being used to conceal the seams.

A somewhat similar origin was assigned to the ornamental clock on the stocking. In the days when stockings were made of cloth the seams came where the clocks do now, the ornamentation then being used to hide the seams.

The useless little bow in the leather band lining a man's hat is a survival of the time when a hat was made by taking a piece of leather, boring two holes through it and drawing it up with a piece of string. The uniform of a modern page boy can be traced back to the costume fashionable for little boys in the first years of Queen Victoria's reign.—Toronto Mail and Express.

## Street Etiquette

It is no longer considered proper for married people to walk arm in arm in the streets, and only when it is absolutely necessary should a woman accept the offer of a man's arm.

"Don't use too much. One tablespoonful is enough for three full plates"

## Remember

Dart's Pulverized peas and beans is the solid, concentrated food part of ripe, juicy peas and beans and nothing else. A tablespoonful contains as much real food and more of the delicate, luscious flavor than a quart of dried peas and beans.

Dart's

Pulverized Peas and Beans

(FIVE DIFFERENT KINDS)  
Green Pea, Yellow Pea, White Bean, Black Turtle Bean and Lentil.

Every housekeeper knows the time it takes and the drudgery involved in preparing dried peas for soup. "Dart's" new process enables you to buy the only valuable part of the pea or bean, put up in a handy package, with over half the preliminary work already done. All that is left for you to do is to mix with a little water, season and boil a half an hour.

TRY A PACKAGE. For sale at all grocers 15c a package.

On receipt of One Dollar we will express prepaid five full packages, one of each kind.

DART CEREAL CO.

Mills: Flemington, N. J.

100-100 Hudson Street, New York

## THE JUNE BRIDE

## Homes in the Country

In planning to beautify a farmhouse the first point is to get rid of the impression that it costs a great deal of money to make a country home beautiful, says the Los Angeles Herald. Oftentimes a country home can be made very attractive by a little personal trouble with no large expenditure or care. One of the first things to do is to clean up the place. A little order in arranging the front yard, and back yard as well, can get rid of any confusion. Once the grounds are cleaned up it remains only for a little system to be inaugurated in keeping things in place to have the grounds remain clean.

So far as landscape planting is concerned, most country homes are so situated as to have views of natural landscapes that are in themselves beautiful. Sometimes it is necessary only to clear out a few trees, opening up vistas, to give views from the windows and porches to distant hillsides or water-courses, in order to secure beautiful landscape effects. In planting shade trees immediately about the house it is well to group them in such a way that one may see out between the groups over the surrounding landscape.

## Fruit for Dessert

Smart hostesses are now serving fruit for dessert and almost entirely supplanting all the cake and pastry which heretofore has been on the menu.

Fruit at this time of the year is particularly enjoyable as dessert and is really a decided relish from the heavier desserts of the winter season. Italian and French chefs always serve fruit at the end of the dinner, and in England fruit is almost the cornerstone of the dining table.

## A WARM WEATHER GOWN.

Fashionable shirtwaist gowns that are made of linen, of soft finished pique, of cotton pongee and all similar materials are sure to be in demand with the coming of the warm weather. Here is one that is both simple and smart. The skirt is very new, giving a panel effect, yet is simple and can be easily laundered. The blouse can be worn either with or without the frill and this frill can be made from any pretty thin material. The waist is tucked after a novel and most effective manner, and altogether the gown is one of the best possible for its purpose. Also the skirt makes an excellent model for the coat suit and the waist for the odd one to be worn with any skirt and made from any seasonable waisting material, so that the model serves many purposes.

Patterns for this gown may be obtained from any May Manton agency. Waist pattern is No. 6556 and skirt pattern No. 6552.

## Fashions on the Sea

Harriet Quimby says in Leslie's: Every season brings out its special styles for steamer wear. This winter an up-to-date girl crossing on a Hamburg liner set a fashion which is likely to prove popular—that of wearing her long, fur motor coat and her very prettiest motor bonnet while on deck, instead of the usual hat with veils. And extremely smart did she appear, and sensible, too, with her quaint shaped poke shielding her rosy face from the wind, and at the same time making a pretty picture as the ends of the soft chiffon streamers, which were knotted in a coquettish bow under her chin, floated out on the breeze as she walked. Another smart deck costume worn by an English girl consisted of one of the long coat sweaters reaching to the hem of her trottier skirt. On her head she wore a soft, white wool cap, such as is worn for the winter sports in Switzerland. Long-wristed, white wool glove mittens completed the outfit, which was at once sensible and picturesque.

## Dainty New Neckwear To Go With Shirt Waists

It looks as if the designers had spent their energies this season upon the creation of dainty neckwear, for the domestic and French pieces are exceedingly good-looking, says the New Woman's Magazine.

For wear with the tailored shirtwaist of linen or madras there is nothing more chic than the so-called mufti tie—the linen or pique stock with its attached tie. While this is not distinctly a novelty with the season, it is a decided favorite. The ascot and the stock with its attached four-in-hand will also be in demand by those who care for soft collars.

The stiff linen collars in high and Dutch variety are always in good taste supplemented by the small bow tie, the four-in-hand, or one of the new rabats.

There are soft collars of handkerchief linen, lawn and Swiss, with plaited rabats attached, in plain white or adorned with an effective bit of needlework. Embroidered polka dots and small conventional designs in white and colors, such as are purchasable by the yard, finish many of these jaunty affairs.

The plaited side frills in lingerie and lace represent another popular bit of neckwear. These dress up a waist wonderfully and are truly serviceable, as they will launder excellently with a little care. Both single and double frills characterize them and they are made with and without the attached collar. The cuffs to correspond are a dainty addition. The chemisette with its side frills is excellent for the frock demanding a washable yoke or guimpe.

Many of the shirtwaists and blouses are collarless, which permits of the soft flat collars and jabots of lingerie and lace. If becoming, these are particularly desirable for summer wearing.

Among the belts there are many novelties in linen, webbing, kid, and leather. Those in linen show fancy stitching and embroidery, while the leather ones are fashioned in odd outlines, but well shaped to fit the figure. Excellent color combinations are to be seen in many of the new models in linen.

## Novel Idea for Sachet

THE use of blotting paper in the construction of drawer sachets is something a bit novel, and really commendable, says the Woman's Home Companion. The paper absorbs and retains the sachet odor to a remarkable degree, and for this purpose alone is well worth using. Then it insures a smooth, neatly fitted sachet, always in place and very easily made.

For a dresser drawer, procure the large sheet of blotting paper, 18 by 24 inches in size, which can be found in many colors at any stationer's. By careful measurements, cut the blotting paper to fit the bottom of the drawer. Should piecing be necessary, it may be done by pasting a strip of thin paper over the closely joined blotting paper edges.

Cut a single thickness of sheet wadding the exact size and shape of the blotting paper. Tear wadding apart carefully and sprinkle in the sachet powder.

The outer covering, which may be of any dainty material—China silk, Japanese print or silk—should be cut an inch or two larger all around than the blotting paper and wadding.

Turn the edges of this cover in around the wadding and baste loosely. This pad of wadding and silk is now laid upon the blotting paper foundation and stitched through and through on the sewing machine, with a long stitch and a somewhat loose tension, about three-eighths of an inch from the edge.

A set of sachets for dresser and chiffonier drawers made with matching blue blotting paper and silk or silkoline, either plain or figured, is a charming acquisition to a blue room.

Trunk sachets would be a most appropriate gift to a traveller, and a single sachet that fits a hat or shirtwaist box, could scarcely fail of welcome anywhere.

## Russian Women's Courage

Russian women show an unceasing activity in their struggle for freedom and reform, and their courageous persistence seems wonderful when one considers that it is in the face of much opposition. There is a "Women's Equality League" which has forwarded a petition to the St. Petersburg town council pleading for the equal footing of men and women in matters of local administration. One would suppose such a request would be considered almost incendiary. Yet a reply was received expressing sympathy with the demand and a promise to give it favorable consideration. Then a new society for the protection of women's rights was started in the beginning of winter. That also smacks of liberty. It is said it has the support and sympathy of several of the best professors in St. Petersburg, who seem to the outsider to be rushing on to their doom. The fact that movements of all kinds are frowned upon by the government makes the western women wonder at the constant efforts toward higher education, for it is the educated class that strive the most indefatigably for liberty and are the most suspected. Yet the women's higher educational courses at Kieff are continued, and are to be converted into the university of St. Olga with the graduates' rights and privileges to be the same as the students in other universities.—Victoria (B. C.) Colonist.

## How to Fold a Dress

To fold a dress skirt properly for packing and to avoid the crease down the middle of the front breadth, fasten the skirt band and pin the lace to the middle of the band in front. Lay the skirt on a table or other flat surface, right side out with the front breadth down. Smooth out all creases and lay folds flat. Then begin at the outer edges and roll each side toward the center back until the rolls meet. In this way the hand of the skirt is not injured, there are no wrinkles and the front breadth is smooth and flat. If the skirt is too long for the trunk fold it over near the top and place a roll of tissue paper under the fold.—Newark Star.

# THE HOUSEHOLD

## Hints on the Reweaving Of Old Carpets Into Rugs

WHILE it is generally known that old carpets can be reweoven into handsome, serviceable rugs, there are a few housekeepers to whom this information may be of benefit, says the Memphis News-Simitar.

To begin with, any kind of carpet can be utilized. Those that can be reweoven into serviceable rugs that can be used on both sides are Brussels and Ingrain. Carpets that make up on one side only are velvets, moquettes, Axminsters and Wiltons.

Smyrna rugs, when not too much worn, can be used by combining with carpet and adding chenille. This process is done entirely by hand, so an extra charge of 25 cents a square yard is made, but the result is usually a beautiful rug.

Brussels and Ingrain cannot be united in the same rug. They must be woven separately. To calculate how many square yards of rug can be produced from an old carpet one must figure as follows:

Six running yards or eight pounds of Brussels carpet will make one square yard of rug. Allowances must be made for worn-out and threadbare parts. When such exist one to three yards more must be added to the amount as stated above in order to get a rug of the desired size.

Pieces as small as one inch wide and 12 inches long can be used. Should the length of the old carpet fall short of the amount necessary for weaving into a rug of desired size, then the quantity can be made up by the weaver, who charges five cents a pound for carpet cuttings, which are usually in stock. This is a convenience. Handsome rag rugs can be woven from old cotton and woolen rugs. To prepare these for weaving the rag should be cut into strips an inch wide, lapping the ends, one over the other, and sewing down. Next wind into balls. It requires a pound and a half to make one square yard.

Few women, perhaps, know that old, soiled, faded chenille curtains and draperies can be woven into handsome reversible rugs, but this can be done at a house where the carpets are made. It requires five pounds to make one square yard, which, roughly estimated, is usually the weight of one curtain. Rugs from old carpets can be woven plain or with borders, and with fringe or fringed ends, as the customer wishes.

## Cool Housefurnishing

A HOUSE occupied during the summer should have entirely different furnishings from those used in winter, as in warm weather rooms that are crowded seem cold and hot.

For in warm weather every one wants light, airy appearing rooms—the exact opposite of snug, cozy fittings so desirable when the days are cold. Color, too, has much to do with the cool effect, and a woman who is so fortunate as to possess a summer home should select no heating colors, such as reds and dark blues. A touch of green has the desirable effect of heightening the brightness of certain light colors. A brown chair, for example, emphasizes the green shade in which room may be done, and with yellow a touch of brown is desirable. But brown walls, excellent in winter, are to be avoided for summer homes, as are dark greens.

Light green and yellow, also gray, are the three colors best suited to cool schemes of decoration for country or seashore homes. When the house is out of town and is to be lived in all the year, certain combinations may be so worked as to be excellent at all seasons.

A living room done in a yellow gold is no longer expensive, and is artistic and cool. There is yellow gold grass cloths and plain dull gold papers, no longer expensive, though when first made the latter was costly. Some of these have a bronze effect that is beautiful. Some self-toned designs are pretty, but nothing is better than plain grounds, the shade being dull and not bright.

This is on the walls of the living room in a house just being finished, and the window hangings are charming. They are white draperies of fine lawn, having a band of Valenciennes lace an inch wide heading a hem two inches wide. A four-inch ruffle having one lace band and a lace edge an inch wide goes down the edge and across the bottom. They are draped with a "sash" of fine lawn with frilled ends. The sash is five inches wide.

Hanging straight over these draperies are silk curtains in gold color. They have been embroidered by the owner with designs not larger than the palm of the hands. All the designs are yellow. The furniture is white, with exception two brown chairs and cushions and covers are blue or white.—Pittsburg Sun.

## Fresh New Hints From Home-Makers

Peach stains may be easily removed by soaking sweet milk an hour before washing.

For most fruit stains, pour boiling water rough the spots.

For chocolate, cocoa or tea stains, wash in cold water.

Cover grass stains with cream of tartar, wet with cold water and place in the sun.

Stove blacking, if mixed with a little ammonia, will have a brighter luster and will not burn.

## Lecture to Farmers' Wives

The University of Missouri has detailed a woman student of the home economics department to lecture to the farmers' wives, the object being to help the women and girls interested in better work and the lessening of the drudgery of their country homes.—Exchange.

## Household Hints

The annoyance of creaking drawers can be eliminated by rubbing common soap upon the top, bottom and sides.

Creaking hinges on anything should be well oiled, while the grating noise of a sewing machine can be overcome in a similar manner.

## THE HOUSEKEEPER

Hints That May Help.

### HOUSE GOWN OR WRAPPER.

The morning gown that closes at the left of the front is one of the latest and it is always a graceful and satisfactory model. This one is made all in one, held at the waist line by a belt, or ribbon, as preferred. The neck can be finished as illustrated or with a collar, and in place of the three-quarter full sleeves long plain ones can be used if better liked. A pretty bordered washable material makes this one, but all the simple fabrics that are adapted to morning wear are appropriate.

The quantity of Gown or Wrapper, material required for the medium size is 10 yards 24 or 27, 6 1/2 yards 32 or 5 1/2 yards 44 inches wide, with 3 1/2 yards of banding. The pattern, No. 6550, may be had in sizes from 34 to 44 inches bust measure, and can be obtained at any May Manton agency or will be mailed to any address on receipt of price (10c). Address 132 East Twenty-third street, New York, or Masonic Temple, Chicago.

### SOME TRIED RECIPES.

#### VEAL LOAF.

Three pounds of veal, both fat and lean. Chop fine with one half pound of pork, eight small crackers rolled, two eggs, a piece of butter the size of an egg, 1 1/2 tablespoons of salt, two teaspoons of pepper, a little nutmeg. Work all well together in a loaf, put bits of butter on top, grate over crackers. Bake slowly two hours and when cold cut in slices.

This loaf may be made of beef instead of veal if preferred.

#### SPANISH OMELET.

Take six eggs, one medium sized tomato or a half cup canned tomato, a small onion minced fine, a dash of black pepper, three tablespoons of milk, four or five mushrooms, a quarter of a pound of bacon chopped fine; a saltspoon of salt.

## Russian Style Coat

### FOR SPRING WEAR.

What are known as modified Russian coats or belted and bloused coats that are opened at the front, are exceedingly smart for spring wear. This costume shows one such together with a box-plaited skirt. The material illustrated is one of the new mixtures of mohair and wool that are very smart and exceedingly handsome, but the model is adapted to every seasonable material, to the pongees and the like of the later season as well as to the wools of the earlier. The revers can be faced with silk or satin or any contrasting material, or the revers and the cuffs could be made of the same braided or embroidered. The skirt can be made with a yoke at the sides, making perfectly smooth fit over the hips, or without as liked. The pattern may be had from any May Manton agency. Coat pattern is No. 6591 and skirt No. 6438.

and a green pepper, also minced. Cut the bacon into small pieces and fry until brown. Add the tomato, mushrooms, onion and pepper, chopped fine, and stir and cook 15 minutes. Beat the eggs vigorously and season with salt and pepper. Put a tablespoonful of butter in the omelette pan and let it melt, tipping the pan so that the sides are well greased. Pour in the eggs, stirred with the milk, and shake over a quick fire until set. Now pour quickly the mixture from the other fryingpan over the omelette, fold over once and turn into the center of a heated platter. Sprinkle with a little minced parsley and serve at once.

ROLLED APPLE DUMPLING. Make a rich baking powder biscuit dough, roll out in a thin sheet, cover thickly with chopped apples, roll up compactly, then cut into slices about two inches thick. Place in well greased baking pan, not too close together and pour over the following: Mix one tablespoonful of flour with one cupful of sugar, add one cupful of boiling water, stirring until it boils and thickens smoothly. Flavor with nutmeg or cinnamon. Bake and serve with cream and sugar.

RICE GRIDDLE CAKES. For rice griddle cakes, boil half a tea-cupful of rice and when cold mix with one quart of milk, the yolks of four eggs and two tea-cupfuls of flour, into which two tea-spoonfuls of baking powder and a little salt have been sifted. Beat the whites of the eggs to a froth and add last. Fry on a griddle.

FRIED BANANAS. Remove the skins and coarse thread from the bananas and cut them in halves lengthwise, sprinkle with powdered sugar and lemon juice and let stand a few minutes. Egg and bread crumbs the pieces, fry in smoking deep fat, drain on soft paper and serve on a hot dish covered with a dollop. They can be eaten with sweet sauce if desired.

BUTTER KUCHEN. Beat half a pound of butter and a quarter of a pound of castor sugar to a cream. Add the beaten yolks of two eggs and the white of one. Then work in slowly half a pound of flour and a tea-spoonful of powdered cinnamon. Grease and flour some small square tins and fill them with the mixture. Cover with split almonds and crushed loaf sugar, then bake in a moderate oven for 20 minutes.

## Wash Petticoats

If you expect to make your own petticoats select white muslin, blue chambray, tan chambray, white insertion or unbleached muslin and gingham for bands. In making the unbleached muslin petticoat cut the skirt in gores and attach a flounce. Trim the flounce with a narrow band of gingham and head it with a fold of gingham. Both materials will wash nicely. In selecting a muslin by all means eliminate lime-filled. It is cheap and soon turns yellow. If a ruffle of Swiss embroidery is used select the kind with small notched edges and it will be less liable to tear. If faces are wanted the valenciennes are durable, but a heavier linen variety can be used over and over again. For a chambray petticoat a net ruffle gives a pretty effect. Certain net will serve the purpose. Hem it and head the hem with a very narrow fold of petticoat material. Three small bands look pretty on it. A serviceable petticoat is made of black or navy blue silk. It wears well, has a silk finish and may be washed.—Detroit News Tribune.

## Chat About Girdles

Of yearly interest to the mothers who make pretty afternoon frocks for their daughters is the subject of the girdle to be worn with the sheer muslin gown.

The girdle is good this year and it belongs alike to the dance frock and to the simple afternoon dress of lawn. It is made of plain or fancy ribbon, or of bias silk or liberty satin.

Ribbons vary from glossy taffeta in some plain color to brocades and moires and those of gauzy fabric, embroidered. The girdle is made either as a crushed belt or as one form of sash, but its primary purpose is to give a note of color to the white garment of contrast to the novelty cotton.

Careful observation of the girdle will enable the home dressmaker to copy the most elaborate.

## Trimming for Shields

The girl who wears transparent blouses should have her shields lace trimmed. Shields of fine muslin have a deep insertion and frill of valenciennes or chuney lace at all edges. They may be bought or easily made at home. If tied around the arm with ribbon, still another dainty touch is added.

No. 15-16x20 Cottage, also Kitchen Hill 7x9. Price \$540.

## Pantry Planning Of Today

IT is interesting to note where economy is first considered in house planning. After an opportunity to look over a large number of new houses of varying cost, I believe that the pantry is the first point at which a saving is made, says Alice E. Whitaker, in the Chicago Inter-Ocean. Any pinching in size or appointments of the bathroom is resented by the whole family, but the housewife is less likely to grumble at a small or inconvenient pantry, especially if she gives up this part of the house to a maid.

In many city houses, attractive and convenient in almost every way, and especially in flats, the apology for a pantry is a closet without light or ventilation. This arrangement is a long remove from the pantries and storerooms of our grandmothers, but they did not buy potatoes by the quart or meat by the pound or less. In their day the family was poor, indeed, that did not buy flour by the barrel, butter by the tub and vegetables by the bushel. Today the ice chest and a narrow closet contain all the food on hand, and it is the exception now to find, in the newly-built house, a convenient pantry with a good-sized window and shelves and drawers below.

In city houses all pantries and cupboards should have doors, glass preferred, in front of shelves, to keep out the dust, which in congested localities is flying all the time. The doors are important if the pantry is located between the kitchen and the dining-room and is also made a passageway to the front part of the house. The country home is not so exposed to dust, but it often happens that more flies gain entrance to the farm house than the house in town.

The pantry of today is finished in oiled or varnished wood or white enamel paint. The shelves are not covered with paper, but are kept clean by frequent wiping with a damp cloth, while brass hooks of various sizes hold things that can be hung out of the way. The kitchen dresser, with shelves and glass doors and a space below for cooking utensils, is a great convenience. The dingy pot closet has disappeared along with iron stove-ware, and hidden plumbing.

## Monograms on Linen

The engaged girl who is leisurely preparing her home and table linen may be glad to know that the monogram is now worked in the center of table napkins instead of in one corner, as formerly. To show it the napkin is folded in three folds lengthwise and then in three crosswise, thus bringing the napkin in the center of a square as the napkin is placed on the table.—Harper's Bazar.

## Vote by Themselves

Women may now vote in Laibach, the Diet of the Austrian crown domain of Krain, of which Laibach is the capital, having granted the privilege. They have certain hours of the day when they vote, men keeping away from the polls at the time, which solves a difficulty that has been suggested by the antisuffragists in this country.—Exchange.

## Some English Recipes

Some excellent souffles may be made in the following manner, says the London Standard: Convert some cooked asparagus sprigs into a puree, pressing the heads and soft parts of the stalks through a sieve, and adding salt and pepper. To a tea-cupful of cream add an ounce of butter, and bring to the boil. Make an ounce of flour into a paste with a tea-spoonful of cream, work into the asparagus, and stir over the fire for a few minutes, adding afterwards half an ounce of grated Cheddar cheese. Set on one side. When cold, season with salt and pepper, a few grains of cayenne, and drop in the yolks of two eggs. Butter some fireproof cases. Beat the whites of the eggs to a froth, and fold them lightly into the mixture. Fill the small cases three-quarters full and bake for about 10 minutes in the oven.

### POTATO SALAD.

Boil a pound of new potatoes. Grate about 2 tablespoonfuls of onion. Boil 2 eggs hard. Then prepare a sauce of the yolks of 2 eggs, a gill of cream, 2 table-spoonfuls of salad oil, the juice of 2 lemons and 1 1/2 table-spoonfuls of sugar. Add pepper and salt, and stir in a cup placed in a saucepan of fast-boiling water. When smooth, turn the potatoes into the salad bowl, pour the hot sauce over the top, and, when cold, decorate with chervil and rounds of beetroot.

CHEESE AND EGG TOAST. An inexpensive luncheon dish may be made of eggs, cheese and tomato puree. For 4 people, 2 fair-sized tomatoes will be necessary. Stew in a little butter, pass through a sieve. Make 4 large pieces of thick toast. Scoop out a little of the center, and remove the crust. Butter the toast and spread with the tomato puree. Break 4 eggs separately into a cup taking care to leave a ridge of the puree all around. Slide them on to the rounds of toast, the tomato preventing the white from escaping. Sprinkle freely with grated cheese and breadcrumbs, pour over a little melted butter, and set in the oven. CURRIED CARROTS AND MUSHROOMS. Toss half a pound of cooked young carrots in butter for a few moments. Roll them in minced parsley. Peel half a pound of mushrooms, toss in salt and pepper, and fry in the same butter in which the carrots were sautees. Then strain off the butter and stock. Prepare a little Indian sauce with butter, flour, stock, curry powder, and salt. Make a puree of potatoes, bind with an egg, and dish the carrots and mushrooms on it, pouring the sauce over the top.

### EGG TOAST.

Toast three rounds of bread. Butter them. Boil three eggs hard. Separate the whites from the yolks, cutting the former into strips. Make a rich white sauce with butter, flour, milk, salt, pepper, and cream. When thick add the whites of the eggs and a little minced mint or parsley. Pour on to the toast, and sprinkle the flaked yolks of the eggs over the top.

### NUT SAVORY.

Make some round croutons. Chop a cupful of nuts and mix with a good curry sauce. Spread on the croutons, and cover with the flaked, hard-boiled yolk of egg.

# SARDINES

THERE IS NOTHING ELSE SO GOOD.

You must taste these toothsome fish to appreciate their excellent flavor. RAINBOW BRAND IMPORTED SARDINES are so irresistibly delicious that even the most fastidious appetite will respond—linger and enjoy.

RAINBOW BRAND IMPORTED SARDINES—The palate charming morsels that win the heart of every epicure. Only the most perfect fish, selected from the choicest catch, cured by a secret process in strictest conformity to sanitary requirements and packed in pure Olive Oil of the highest excellence in the distinctive round can. Tender, wholesome, nourishing; absolutely the only Sardines packed under the direct supervision of an expert chemist.

JUST WHAT YOU WANT FOR QUICK SPREADS, PARTIES, LUNCHEONS, ETC. SERVE RIGHT FROM CAN. Ask your Grocer for Rainbow Brand Imported Sardines.

If he does not stock them, send us your name and address, with your grocer's name and 25c., and we will send you a medium-sized package. (Large family size, 40c.)

DE LONG, SEAMAN CO., 156 Milk Street, BOSTON, MASS.

## The Flower Garden

Flowers will grow and bloom for any one that understands their care and requirements. One of the most important things to be considered before planting a flower bed is the location. Blooming plants require sun. Some foliage with partial shade. By this we mean sun a part of the day; say shaded by the building for a few hours. The well known scarlet geranium that has been used for many years, is one of the very best. It is a single flower, but it makes an immense head of bloom, glories in the hottest sun and is always in flower. If you plant 100 plants in the bed you will be pretty sure to average 100 heads of bloom in the bed the entire summer. The plant, sometimes called double Grant, is similar to the above, has double flowers, a pretty zone in the leaf, is quite largely planted and is good, but does not have the vigorous habit of the Grant.

A variety called Brantii is also largely planted for massing, is a double flower of immense size; color, light scarlet, with a very strong stem to the flower. It looks very promising when first planted out, but grows very coarse before the season is half over.

Geraniums should be planted about six or ten inches apart, according to size of plants, but canna must be 18 inches. While canna make a pretty bed of themselves they are often planted in combination with other plants, making what you call a sub-tropical bed.

Take the centerpiece, a castor bean or a strong growing variety of banana, then the canna, and around them ecuculentum or elephant's ear, then scarlet sage, and for a border a low-growing foliage plant. The above combination makes a bed high in the center, sloping off to the outer edge, and is very effective. These beds require little care beyond watering if the weather is very dry.

## Think of Last Summer--

You can remember days when the heat inside your kitchen was so great you could hardly bear it. With the right stove you would have made a better hostess. Do away with this. Don't put up with the drudgery of a coal range. You can have a clean, cool, pleasant kitchen. The

## New Perfection WICK BLUE FLAME Oil Cook-stove

Cautionary Note: Be sure you get this stove—see that the name—plate reads "New Perfection."

BOSTON HENRY W. SAVAGE BROOKLINE

# WABAN, NEWTON

The most beautiful part of Greater Boston. It is a strictly high-grade residential section. Lots of 10,000 ft. and upward. I have sold since Jan. 1, 1909, to date more than 500,000 sq. ft. of land, on which people are to build homes. Don't make the mistake of buying your home or land on which to build it too close to the city. Get out where you can find room and good surroundings. For sale, house of 9 rooms, every improvement; 4 fireplaces, large piazza, beautiful grounds of upward one-half acre, house connected with city street, near station. Price \$1000 less than actual value. This is a bargain for whoever acts quickly, as owner is obliged to go away. For sale, lot, 100 ft. wide, 100 ft. deep, with good fireplaces, hardwood floors, good plumbing, hot water heat; corner lot, 14,778 sq. ft.; price \$5000; terms satisfactory. Also for sale, lot, 100 ft. wide, 100 ft. deep, with good fireplaces, hardwood floors, good plumbing, hot water heat; corner lot, 14,778 sq. ft.; price \$5000; terms satisfactory. If you cannot find on my list a house which meets your needs we will build for you from your plans and on easy terms. For appointments telephone 3307 Main or 238-2 Newton St.

FOR SALE—A good 11-room house, near the lake; party wishing to leave; sell at a bargain. 288 Main st., So. Haven, Mich.

# JORDAN MARSH CLUB MEETING

Five hundred boy and girl employees of the Jordan Marsh Company, all members of the Success Club, held a meeting Friday evening which fully justified the name of the association. There were recitations, songs, duets, buck and wing dances and a supper served by the firm to the members of the club.

With the exception of the brief addresses by Frank I. Coburn and Head Master W. Stanwood Field of the Charlestown evening school and the continuation school on Bedford street, the entertainment was entirely in the hands of the members of the club.

# DEBT OF THE CITY CUT DURING APRIL

The monthly statement of City Auditor Mitchell, made public today, shows the gross funded debt of the city of Boston on April 30 last as \$110,769,072, the same as the preceding month. The net debt is \$71,367,567, a decrease of \$232,347.

Since Dec. 31, 1909, the gross debt has increased \$609,106, while the net debt has increased \$211,328. The city has the right to borrow \$2,260,545.

RUSSIA OPENS PRESS BUREAU.  
ST. PETERSBURG—The Russian government has organized a press bureau as a department of the foreign office and placed in charge thereof George Nelidoff, son of the Russian ambassador at Paris.

## Fisher Hill District, Brookline

Since Jan. 1, 1900, I have made cash sales of \$38,000 in the

from the land bought on that date. Others in a position to know say this is the largest sale from any one tract in this time. Well informed buyers have been quick to take advantage of the combination of high class locality, desirable neighbors, ease of access and prices lower than market rates. Before Dec. 1 I wish to make further sales equal to the above sum. This opportunity is attractive to investors, high class builders and one to be seized by each person wishing to establish a home under exceptional conditions. REAL ESTATE MEN SAY THIS COMBINATION OF ADVANTAGES CAN NOT BE DUPLICATED TODAY. It will be difficult to equal it in the future. Large or small restricted lots at from 30c to 45c. A few at even less. Terms of payment to meet the convenience of buyers. The Fisher Hill district has been carefully developed with attractive single houses, many of them costing a large sum, which are occupied by their owners. This land, quiet, secluded, free from all objectionable features, is but from one to 10 minutes from South Station, and near Beacon Street electric at Deane Road. A RARE CHANCE FOR MEN WHO ACT QUICKLY. JOHN D. HARDY, 10 High St., junct. Summer, Boston.

## NEWTON CENTRE

**FOR SALE**—New House, gas and electric fixtures, h. w. floors throughout; will paper to suit; 9 rooms and bath; very near steam station; schools, churches; over 2500 sq. ft. land; price \$6500. Apply to I. C. PAUL, Newton Centre.

## CONTINENTAL ROADS

## BLUE BOOK IS ISSUED BY BOARD OF TRADE

Question of Public Utility Rather Than Profit Takes Precedence in the Case of Belgian Railways.

LONDON—Reports on the railway systems of Belgium, France and Italy have been issued as a blue book by the London board of trade. These reports have been drawn up as the result of instructions issued by a committee of the board of trade railway conference that certain investigations should be made on the subject of continental railway conditions.

It appears from the reports that in the case of the Belgian railways the question of profit has been considered by the state to be of secondary importance, while the question of public utility has been treated as of primary importance. Belgium possesses a greater length of line in proportion to its area than any other country.

In France there are at present six great systems in existence, working under the conventions of 1883, and these agreements with the state terminate between the years 1950 and 1960. At the end of 1906 there were over 33,000 miles of railway in France.

With regard to the Italian state railways, of which there is a total length of 7833 miles, the administration is still in an experimental state, so that it has not been possible to make out a report as to the advantage or otherwise to the state of the present system on which they are worked.

## BACK-TO-THE-FARM PROJECT FORMED BY MISSOURI GOVERNOR

Meeting Is Called to Organize a National Farm Homes Association With Philanthropic Intent.

ST. LOUIS—A general "back-to-the-farm" enterprise, to be sponsored as a nation-wide movement by philanthropists of the United States, will be inaugurated in this city May 5 at a preliminary meeting of interested parties called by Gov. Herbert S. Hadley.

Governor Hadley long has been an ardent advocate of a return of city dwellers to the farm, and for months has been working out the details of a plan which he believes will solve the high cost of living problem and at the same time bring about more high-grade farming.

He proposes to organize the National Farm Homes Association, with the philanthropists of the country as stockholders, to furnish farms, equipment and instruction for worthy applicants who are seeking to get away from the cities.

Prominent men are taking an active interest in the plan. Addresses will be made at the preliminary meeting by Secretary of Agriculture Wilson, William J. Bryan, Jacob Riis, B. F. Yonkum, Lyman Abbott, Jane Addams, Joseph W. Folk, Governor Hadley, Immigration Commissioner J. H. Curran and others.

A committeeman from each state will be named at the meeting, and a call will

be issued for a final meeting, at which the association will be formally organized.

Governor Hadley's plan is made up of the best features of similar ideas in use in Europe, with minor additions by himself. It is proposed to incorporate the association for \$1,000,000, the stock to be divided into 10,000 shares of \$100 each. These shares, it is expected, will pay dividends, which either will be taken out by the stockholders or added to the capital.

It is then proposed to locate colonies on model farms in Texas, Missouri, Alabama and other states where land is cheap and fertile. Each farmer will be allotted 40 acres; a home will be erected for him and fences, utensils and live stock furnished. Thirty-two of these 40-acre colonies will constitute a colony.

Each colony also will include a central farm, presided over by an expert agriculturist, who will oversee the work on the farms, the proper rotation of crops, etc. Tenants will be given ample time to pay for their farms, and their profits have been figured out by Mr. Hadley as averaging \$3500 a year.

Entertainments will be provided for the colonists, so that farm life will lose the monotony that is now largely responsible for the rush to the cities.

Each group of 32 farms will cost complete, it is figured, \$50,000, thus allowing 20 colonies, or 600 farms, on the original investment, the number of farms to constantly increase as the tenants pay off their indebtedness.

Applications for farms will be passed on by a committee appointed for that purpose.

## LETTER CARRIERS

## CONVENE SUNDAY

Unusual interest is being shown in the eighteenth convention of the Massachusetts State Letter Carriers Association, to be held at Salem tomorrow, because of the prominence of the speakers. Congressman John W. Weeks, chairman of the committee on postoffices and post-roads, and Congressman Augustus P. Gardner of Essex county will be the principal speakers.

The delegates from the Boston postal district will be: President Nicholas S. Lawless and Secretary J. E. Granahan of Boston branch, No. 34; William J. Byrnes and Dennis Meehan, Essex street station; Christopher D. Murphy, station A, South End; William J. Sullivan, South Boston branch; Walter H. Barney, Newton Center office; Richard Daley, Roxbury station; Cornelius Foran, Donald J. McGilvray, Devonshire street office. President Lawless is located at the central office and Secretary Granahan at Braintree.

The Boston delegates will meet at the North station Sunday at 9 a. m. The business meeting will be held from 11 a. m. until 1 p. m., after which the gathering will adjourn to the banquet hall. One of the important questions to come up will be the civil service retirement pension system.

# Supplies for the Women Folk

## HOUSEHOLD NEEDS

## MOORE'S MURESCO

Is the Acknowledged Standard  
WALL and CEILING  
FINISH

Used in more paint shops throughout the U. S. than all other Kalsomines combined.  
The SATISFIED PAINTER will tell the reason.  
Supplied by ALL DEALERS as follows:  
16 TINTS, 16 COLORS and WHITE.  
Beautiful, Sanitary, Economical.  
Can be used over wall paper. Ask your Dealer or Painter for Tint and Color Cards. The Trade Only Supplied by N. E. Agents.  
Gould & Cutler 105 North St. Boston.

YOU MAY NOT BE AWARE THAT YOUR RUGS however soiled or worn, can be restored to their former usefulness and beauty through our native process and expert workmanship at moderate cost. The proper renovation of Oriental Rugs, Hangings, Embroideries and Tapestries has been our specialty for the past 15 years. We are, in fact, the firm that introduced into New England the Eastern way of treating these goods—an absolutely sanitary process which brings out the color, raises the nap, removes stains and disagreeable odors, without causing any injury such as shaking, beating on the line, or use of machinery are sure to do.

Our process of cleansing, together with our special method of packing, is a safeguard against moths.  
Call up 3025 Oxford, and we will call to give estimates without charge.

## Armenian Rug & Carpet Renovating Works

Office, 15 Temple Place Works, 16 Waltham Street  
We employ no agents and have no branch offices.

215 West Newton St., Boston, Mass.  
Telephone 1448-3 Tremont.

## FOOD PRODUCTS

## MALDEN DESIRES MORE NIGHT CARS

A committee of three members has been appointed by the Linden Improvement Association of Malden to secure better night car service for the easterly section of the city. The committee is composed of D. E. McCarthy, A. A. Graydon and Chester L. Lathan. They will wait upon the officials of the Boston Elevated railway to see if it will be possible to have some of the cars that end their route on Broadway, Maplewood, sent into Linden.

The association voted to request the mayor to have more policemen in that section at night. The surface drainage being done by the city and the laying of new sewers in that section were commended.

**MRS. SAGE GIVES HALF MILLION.**  
ASHEVILLE, N. C.—At the convention of the Methodist Episcopal church, South now in session here, it was announced that last Monday Mrs. Russell Sage sent the American Bible Society her check for \$500,000, the society having arranged a pledge of a like amount as stipulated.

## DO YOU DRINK CLEAN WATER?

UNGLAZED POROUS PORCELAIN FILTERS  
DOES  
Careful families USE IT.  
We have a new 100-page CATALOG TO WRITE FOR.  
BOSTON FILTER COMPANY  
CHELSEA, MASS. U.S.A.

## IF YOU DO YOUR OWN IRONING

You Should Have QUICK-CATCH CLIPS  
A hundred thousand women now use QUICK CATCH CLIPS on their ironing boards. With the clips they can change covers in 30 seconds, and covers are held without sewing or tacking. A woman's invention for women. Fit any board. Last indefinitely. Any woman can attach the clips, and they work as easily the first time as the hundredth. Send 25 cents today—You'll never regret it.  
THE IRONING BOARD CLIP CO., STATION B, CLEVELAND, O.  
We can use a few more good agents.

THE CHRISTIAN SCIENCE MONITOR Classified Advertising Columns bring returns. A telephone call to 4330 Back Bay will give you information as to terms.

## ASK ABATEMENT OF PROPERTY TAX

Petitions against the city of Boston were filed Friday in the superior court by Nathan Matthews and Albert Matthews, who ask for the abatement of taxes on 30 parcels of property that they own as trustees. Of these 28, with buildings, were valued by the assessors at \$283,600, and two other lots at \$20,500, making a total of \$304,100. The total taxes are \$5017.65.

The allegation of the petitioners is that the valuation of these parcels is excessive and they ask the court to fix the proper valuation and direct the city to return the taxes paid on the excess valuation.

**THOMAS E. MARR PASSES AWAY.**  
Thomas E. Marr, for many years a specialist in landscape photography, passed away at the home of his son, Arthur E. Marr, 16 Hiawatha road, Mattapan, Thursday night.

**IMMIGRANT RUSH TO CANADA.**  
LIVERPOOL—The steamship Empress of Ireland sailed for Canada Friday with 1582 passengers, of whom 940 are emigrants, a record for this line.

## HOUSEHOLD NEEDS

## "BURLINGTON" Venetian Blinds

THE PERFECT BLIND FOR PIAZZAS & SUMMER HOMES  
The first cost of "Burlington" Venetian Blinds is a little more than the cheap Split Bamboo blinds, but "Burlingtons" do not have to be replaced every year; with ordinary care they should last ten years.  
We always advise the Burlington Rolling Venetian Blind for veranda use. Made of soft wood and painted "any color" you desire. Paint will stand the weather much better than any varnish, and soft wood makes a blind of less weight than any hard wood and thus easier of operation.  
The slats may be arranged so as to admit light at any part of the blind and at any time; whether entirely or partially excluding the light, air can pass freely through them, thus affording superior ventilation.  
Write for booklet "C," which gives detailed information.  
T. W. O'CONNOR CO.  
123 HAVENHILL ST., Opposite North Union Station.

## WATER SUPPLY

and Electric Lighting Plants  
For Country Houses  
No elevated tank to freeze or leak. Tank located in cellar, 60 lbs. pressure. Furnishings with hand, gas, or electric pump. 100 ft. Fire Protection.

## THE HOME FORUM

## THE Y. M. C. A.

Japanese Here It Has Played Good Part in America.

The Japanese have been styled the most imitative people in the world. It is not imitation so much as a marked ability to adapt to their needs every good thing. Imitation is a quality of early childhood, but there is nothing reminding of the child in the way Japan has appropriated western civilization.

During the Japanese-Russian war, Japan became deeply interested in the work of the Y. M. C. A., and there is no country today where the association receives more encouragement.

Baron Shibusawa in a recent speech said he had been greatly impressed with the material progress of America, but in analyzing it had come to believe the result was due more to the character of the people than to natural resources. He looks upon splendidly equipped Y. M. C. A.'s as playing an important part in the developing of the kind of character which has made us great.

Because national prosperity does not hinge upon rich natural resources, the baron has confidence in a greater Japan through the enterprise and character of her citizens, and hopes, in order to develop such men, that Young Men's Christian Association, as efficient as those in America, might be multiplied.—Leslie's Magazine.

## Prophetic Repartee

One of Lord Carmarthen's astute constituents once asked the youthful candidate: "Does your mother know you're out?"

"Yes, she does," was the instant retort, "and by Tuesday night she will know I'm in."

His prophecy proved correct and he headed the poll by a large majority.—Ladies Home Journal.

## The Coming of the Comet

CURRENT LITERATURE for May has a very interesting and not too difficult article on the comet which reassures the world on the point of possible anticipation of trouble from our contact with the tail of this remarkable visitor. One forgets how many millions square miles of the material composing the tail could be put into a thimble, but certainly it is something which utterly discounts the

old "tale" of the fairy silks contained in a hazel nut.

May 18 is the day of most interest, for then the actual transit across the sun will occur. This will be visible chiefly along the Pacific coast and on the Pacific ocean. The flight of the comet is so swift that it will probably not remain in sight to unaided eyes longer than July first.

An English paper points out the fact that Halley's great contribution to human knowledge was not merely in predicting the periodic return of the comet, but in placing "upon an irrefutable basis the Newtonian hypothesis of gravitation," for of course the calculations which enabled Halley to trace the course of the comet eventually proved the exactitude of the laws of gravity, as enunciated by his friend Newton.

One rather amusing proposition with regard to the passage through the comet's tail is that samples of the atmosphere at that time shall be preserved in bottles, in order to find out what is really in the comet's tail.

## The College Man

While attending a recent Lincoln celebration I asked myself if Lincoln would have been as serviceable to the people of this country had he been a college man, and I was obliged to say to myself that he would not. The processes to which the college man is subjected do not render him serviceable to the country as a whole. It is for this reason that I have dedicated every power in me to a democratic regeneration.—Woodrow Wilson, president of Princeton College.

## The Manly Man

The world has room for the manly man, with the spirit of manly cheer; The world delights in the man, who smiles when his eyes keep back the tear;

It loves the man who, when things go wrong, can take his place and stand With his face to the fight and his eyes to the light, and toil with a willing hand;

The manly man is the country's need, and the moment's need, forsooth, With a heart that beats to the pulsing tread of the lillied leagues of truth;

The world is his and it waits for him, and it leaps to hear the ring Of the blow he strikes and the wheels he turns and the hammer he dares to swing;

It likes the forward look in his face, the poise of his noble head, And the onward lunge of his tireless will and the sweep of his dauntless tread!

Hurrah for the manly man who comes with sunlight on his face, And the strength to do and the will to dare and the courage to find his place!

The world delights in the manly man, and the weak and evil flee, When the manly man goes forth to hold his own on land and sea! —American Israelite.

If we want to work well and rapidly, the sense of leisure should always be in the background. We can prove its being there by the ease with which we can receive an interruption. Such detachment of mind gives a sense of easy and strong activity.—Annie Payson Call.

## WHEN THE CHESTNUT IS IN FLOWER

CHESTNUTS IN FLOWER.

Thousands of Londoners view this sight on "Chestnut Sunday."

ANY one who has driven through the Chestnut avenue in Bushy park, London on "Chestnut Sunday" will have seen a view not easily forgotten. The avenue is one of the four which meet at Hampton Court Palace, and is by far the finest of them. The trees are in two broad bands separated by an open space, down the middle of which runs the public road. The sides of the avenues facing the

roadway form straight uniform walls of magnificent horse chestnut trees, probably some of the largest in the world, for nearly 1800 yards from end to end. On "Chestnut Sunday," which occurs in May, these trees should be in flower; their dark green foliage being relieved by countless pyramids of large white and pink flowers. No wonder that Lon-

doners come out in their thousands to enjoy the sight.

The avenue was planted at a time when this tree was becoming a universal favorite in England. Though only introduced in the seventeenth century, Miller describes it as already very common in 1748, and its popularity has never waned. The profuse and lovely flowers, the dense shade of its foliage, its remarkable hardiness under different conditions, the cleanness of its litter, and the ease with which it can be propagated are all characteristics prized by the gardener and, when united in one tree, make it at once his paragon. That it is a quick grower can be seen at a glance. Its large sticky buds are developed during the summer and autumn and remain through the winter ready to burst open at the first touch of spring. Often, when a boy, has the writer opened a winter bud to see next year's leaves and flowers perfect in miniature.

During April the five-fingered leaves are pushed out in pairs on their long stalks. In the center presently appears the pyramid-shaped bunch of delicately marked flowers, which are succeeded by a few large prickly fruits. When the buds for the following year have been formed and the fruit matured, the leaves have done their work and the leaflets fall one by one, followed finally by

CHESTNUT AVENUE.  
Beautiful driveways at Bushy Park, London.

their common leaf stalk. The scar left on the stem when this stalk falls off is like a horseshoe, and it is supposed by some to be the origin of the tree name.

The horse-chestnut was first brought to England from Turkey, where it had probably been anciently cultivated. Its origin as a wild tree was long a matter of speculation, since all the specimens known showed evidence of having been planted for shade or ornament. It was not until

the flora of Greece became better known from the labors of Heldreich that its true home was found. It is in the remote uninhabited regions of northern Greece that the traveler must search if he wishes to see this now familiar tree in its aboriginal state. There, in damp sheltered ravines, it may be recognized, growing in wild profusion in mixed woods of walnut, plane and oak, and it is from such surroundings that it has come through varying fortunes into our city parks.

## A New Progressive Magazine

The Twentieth Century Magazine for May has an unusual number of articles worth reading for those who have waked up to the importance of good government and to what the people can do to gain it. This magazine seems to be one of the most fearless and at the same time least sensational in its way of presenting the facts about things that need to be made better. Publicity of this sort is more likely to serve its ends than the hectic journalism which brings literary and artistic skill to bear on this propaganda with a view of making a bad story as bad as possible. A plain tale plainly told is more deeply convincing.

Wrongs unquestionably seem to exist everywhere; but it is Christian love alone that will harmonize the relations of mankind; and reformers that work with an animus of hate and rouse that feeling in others will not find the millennium of human happiness established by such means. And happiness, we take it, is the real object of all reform.

## The Crawford Library

Marion Crawford's library has been removed from Sorrento to London, where it will be sold at auction on May 9 and 10. The collection of 4000 volumes is essentially a writing man's library. All the poets are there. History and Americana are strongly represented, showing Crawford's personal taste. It is notable that modern American authors except Henry James are lacking, but Borrow, Bronte, Cooper and Hugo figure largely. There is only one book by Dickens ("Our Mutual Friend"), but Thackeray's works are complete. Only two of Crawford's works will be offered, editions de luxe of "Ave Roma" and "Rulers of the South." Among the parties is a folio copy of the charter granted by Charles II. to the English colony in Rhode Island, printed at Newport, R. I., in 1744.—Detroit Free Press.

## A Morning Song

I wake this morn, and all my life  
Is freshly mine to live;  
The future with sweet promise rife,  
And crowns of joy to give.

New words to speak, new thoughts  
To hear,  
New love to give and take;  
Perchance, new burdens I may bear  
For love's own sweetest sake.

New hopes to open in the sun,  
New efforts worth the toil,  
Or tasks with yesterday begun  
More bravely to fulfill.

Fresh seeds for all the time to be  
Are in my hand to sow,  
Whereby, for others and for me,  
Undreamed of fruit may grow.

In each white daisy mid the grass  
That turns my foot aside,  
In each uncurling fern I pass  
Some sweetest joy may hide.

And if, when eventide shall fall  
In shade across my way,  
It seems that nought my thoughts recall  
But life of every day;

Yet if each step in shine or shower  
Be where Thy footstep trod,  
Then blessed be every happy hour  
That leads me nearer God.  
—Chambers Journal.

## Refused at First to Change a Comma

In spite of Mr. Winston Churchill's statement, the government, it is asserted, has decided to withdraw a few commas from the budget, realizing, apparently, that the only alternative would be a full stop.—Punch.

Sloth makes all things difficult, but industry all easy.—Franklin.

## Raising Trees to Save a Country

John L. Mathews says in August Everybody's. I wish that those who have ruined the seaboard flats of Florida, Georgia and the Carolinas could be transported to Gascony and made to understand what wonders can be wrought by the proper conducting of a turpentine forest. On the sea face of the sand ridges, which extend in unbroken whiteness for 75 to 100 miles, bunch-grass is planted in regular rows, to hold the sand from drifting. On the top of the first ridge is a low wattle fence and a fire-break and back of this a narrow belt of dwarfed and stunted trees, cut off four or five feet from the ground to make their branches spread over wide areas. After 100 yards of this, one comes to a more open forest of crooked and stunted maritime pine, and beyond this again to the great, free forest full of big trees ripe for cutting, and of smaller stuff ready either for bleeding or for reproducing the big timber.

All of this forest is worked carefully on a worked out system; and during the very years when our reckless and ignorant methods have been destroying our southeast coast, these foresters of France have been developing a profitable and useful forest of this same maritime pine out of nothing.

## Literary Tests

An interesting hint from a "Life" book review man advises one to read over every ten years or so the books that used to delight one. Here is a test of one's advance or the reverse. The reviewer, by the way, finds one mark of progress which we should all be likely to discover. He says that we have now become so familiar with stories of "elemental men fighting with the elements" that we are less likely to "accept gratuitous brutality as strength" than we did even a few years ago.

## THE POINT OF VIEW

THE point of view of the infant is so limited that he cannot see even his own little hand before his eyes. It is only after continued presentations of it that he becomes aware of it as an object.

His very awareness indicates a step into the so-called mental realm. So the child from the very beginning acquires his point of view, and without realizing it is dwelling in a certain area of consciousness, the consciousness of matter. All the processes of mind which become habitual to him he accepts without question. The world of matter becomes his reality, and all his reasoning is done from a material basis. To this individual with his limited point of view any doubt or question concerning the reality and permanence of matter can come only as a kind of shock, or as an idea too ridiculous to be considered. Yet this is the very question now presenting itself to the materialist, and, moreover, presenting itself in a way which will admit of no gainsaying. Matter is gradually dissolving from view. Expressed in terms of the atom it had very little hold on its position because it was invisible to the material senses, and could be apprehended only as the smallest portion of matter conceivable by the human mind. As the electron it seemed to have little less of itself in it and a larger proportion of something which appeared to attenuate it. In the last few years that infinitesimal amount which could be recognized as material substances disappeared. According to Mr. Balfour "matter" not only is explained, it is explained away.

While matter as a theoretical substance thus has been taking to itself wings, chemistry has been concerned with new and elusive forms and activities. To one who has become used to looking into Mind and its phenomena for all cause and effect, the constant wonder is that the physical scientist, finding matter so mystifying, should cling with such persistency to the material theories and to matter itself as substance. As the theories of physical science reach more and more into the region or area of the higher attenuations of matter, thought is turned necessarily more and more toward the realm of Mind as containing the solution of all problems. As the elusive atom disappears under analysis, so also will disappear the elusive point of view based upon it. It has been found by those who have experienced the requirement of the spiritual point of view that it involves the greatest step yet taken for advancement. The knowledge arrived at in this way must destroy much that has appeared to be true. This is the process that the human mind seems to resist, but one is forced to admit that all of the conclusions deduced logically from material premises are erroneous.

It scarcely can be argued that the view of the universe formerly entertained was satisfactory or soul satisfying. We were in the position of helpless observers of a material world filled with material objects and governed by material law. Our own bodies appeared to be a part of this gigantic material scheme over which we had little or no control. We seemed to be the helpless victims of an inexorable conspiracy of forces.

Now Christian Science, in accordance

with the teachings of Christ Jesus, is proving to the world that much depends upon the point of view, in fact much more than we have been in the habit of thinking. In the last few years physicists have been proclaiming loudly what Mrs. Eddy in her book, Science and Health, quietly stated 40 years ago, namely that matter itself is nothing, no thing. The physical scientists have exploded their own atomic theory and then successively each new theory taking its place. They now have reached a point where they no longer need a new theory to explain matter. Matter has come to the vanishing point. They now need something to explain.

Mrs. Eddy, from the viewpoint of intuitive or a priori certainty, a spiritual point of view, states: "There is no life, truth, intelligence nor substance in matter. All is infinite Mind and its infinite manifestation, for God is All-in-all" (Science and Health, p. 408). She discovered also what no materialist has yet found out, that the belief in the reality and substance of matter and the consequent denial of the everpresence of Spirit is the continuing cause and source of all our woes. She prophesied that material views would be found to be dissolving views, and insisted that man was unsafe in forming any conclusions based on material premises. And many years ago in a sermon entitled "People's Idea of God," that is now in her published works, Mrs. Eddy said: "Religion and medicine must be dematerialized to present the right idea of Truth; then will this idea cast out error and heal the sick." Since then the truth of this saying has been abundantly proved.

## RARE OLD BILLS

Colonial Notes, Long Concealed, Found by New Yorker.

In an old "History of America," picked up in some remote corner of the world years ago, two old revolutionary notes were found recently by an assistant manager of the Hotel Knickerbocker, or, rather, by his little son, the New York Sun says.

Before he settled down to the militant occupation of a New York hotelkeeper the owner of the book followed the sea, having been for many years purser on far eastern ships, and in some port or other he picked up this old book. For the last three years it had lain packed in a trunk in Providence. The trunk was not unpacked until the other day, when, coming across this old history, the manager gave it to his son to play with. The youngster turned over the leaves and came across the bills.

The latter are about the size of the "shipmasters" of a generation ago and printed on thick white paper. One is a \$4 bill issued by the colony of Maryland pursuant to an act of the "provincial convention at Annapolis, the 7th day of December, 1775." Its number is 4900 and it bears the signatures of "J. Duckett," or "Dinkett," and "J. Brice." On the face of the note is a seal containing a hand grasping a sheaf of wheat. Above is the denomination, "Four Dollars," which is explained below as "equal to 13 shillings sterling." At one side is "Annapolis" and at the other is the information that the bill was printed by F. Green.

The other note is one of "2 shillings and 8 pence, New York currency, or one-third of a dollar." It was printed by Samuel Loudin "in the year MDCC-LXXVI."

Be thankful for past mercies before you plead for new favors.—Selected.

## Duty of a Decimal Point

THE old story whose burden is "All for the want of a horseshoe nail" is discounted by a true story reported in World Today apropos of the work of the United States naval observatory. Capt. Joshua Slocum of the Spray speaks:

"I was right in the middle of nowhere in particular," said the captain, "and was working out an observation. I did it every clear day for three years, and got safely into ports I was working for, so it is to be supposed I knew how. Well, when I worked out this position I was 70 miles from where I ought to have been, and that without any wind or gale or storm or anything to account for it. I knew I hadn't drifted 70 miles out of my course in the last 24 hours. Either my work was wrong, my observation faulty or the tables from which I worked were wrong. But I didn't believe any of them were. But I went over them all. And it was the table from which I worked. There was a misplaced decimal point—it was a fly-speck! Of course, I had to light on that particular table and that particular set of figures in a book containing millions of them; you can figure on the chances of a man being on that one spot on that one day and making an observation at that particular hour which would make the use of that particular set of figures necessary! But I was glad my work wasn't wrong."

Now, suppose that fly-speck had been a real error? Suppose the Spray had been a battleship? And suppose those 70 miles had meant the difference between deep water and plenty of sea room and a rock-bound coast in a storm? It

## Automatic Ticket Agents

The Great Western Railway Company will install at Snow Hill station, Birmingham, England, a railway ticket printing machine which it is contended will render almost superfluous the ticket agent as we know him today, and do away with the somewhat cumbersome system of storing the thousands of different tickets which may be called for by the traveling public. The machine is a small and unpretentious looking contrivance. It is 3 feet 6 inches long, barely 2 feet broad and 4 feet in height. When a ticket to a certain station is required, an indicator, which carries the name of every station upon the system arranged in alphabetical order, is touched, the clerk slips a blank into a slot in the printing carriage, a small handle is turned and a completely printed ticket drops out, ready for use. That is all the work required.

At the same time the ticket is printed a record of the sale is placed in duplicate upon a continuous strip of paper, together with the fare and all information required for bookkeeping. As a result, when the clerk goes off duty all that he has to do is to total the continuous strip and to count his cash. The machine is capable of printing 3000 different tickets.—Victoria (B. C.) Colonist.

Boston, Mass., Saturday, May 7, 1910.

### Edward VII.

George V.

To understand the great affection which has gone out from the heart of the British people, from the days of his boyhood to the hour of passing away, toward Albert Edward as prince, and Edward VII. as King, we must first of all understand that he was the most representative Englishman who had occupied the throne since the time of the Tudors. He was typically and characteristically English. Others had been King before him, and some unworthily; but not only in his own land and among his own people, but throughout the broad empire which he was called upon to rule, and in every country on earth where his innumerable and lovable and really royal graces of character were known and appreciated, he was regarded as the First Gentleman of Europe.

All of his people loved him because in many thousand ways his tastes, his sympathies, his emotions were theirs. They could anticipate what he would think and say and do under certain conditions, he was sensitive to the yearnings and to the needs of those around because he was one not only among them but of them. His fine demeanor under stress—for he had to meet trials incident to his exalted station—no less than his calm demeanor in times of national peril endeared him to the millions.

With the power which came to him through the confidence and the affection of a great democracy, as well as through his royal inheritance, came also a high sense of responsibility to his country and to his God. He could have won what the world calls fame as a warmaker. He preferred to be a peacemaker, and as a peacemaker his name will be revered when the names of those who have courted and encouraged human strife shall be forgotten. Only one name other than that of Edward the Peacemaker is appropriate to the career just ended, and that carries with it a meaning much akin—Edward the Beloved of His Times.

With the passing of Edward VII., one of the most efficient men ever occupying the English throne, after a reign of nine years, his second son assumes the title of King of Great Britain and Ireland and Emperor of India, as George V. At the age of forty-five this man becomes ruler of one of the most powerful nations of modern times, and monarch of one of the most enlightened peoples of all times, with a record untarnished and a character unsullied. George V. gives promise of being an able successor and without doubt will measure up to the highest ideals of modern Britain.

George V. enters upon his reign under circumstances which from a superficial view might seem disadvantageous. His father, a natural democrat, a popular idol, held such a commanding and absorbing place in the world's attention and esteem as to overshadow the son. But it is far from being indicative of the absence of any of those qualities that contribute to the making of a king that the son should have been content to occupy an inconspicuous and self-forgetting place before the people while the father was compelling their regard and inviting their confidence and affection.

Responsibility such as now falls upon the shoulders of the son will, it is safe to assume, reveal and develop a character that has been silently but none the less certainly forming for the emergency just arisen. George V. has emerged. He cannot be judged by his past. He is on the threshold of his career as a ruler. The future only can tell the story of that career. In the light of the past, however, it must be viewed as one full of hope for the British empire, for the English-speaking world and for humanity.

It is gratifying to the people of New England and of the whole nation to know that the fleet of warships now in Boston harbor are on a peaceful mission and that they are all flying the American flag; and furthermore, that at no spot in the seven seas encircling the globe is their presence required to keep the peace of the world. May our warships never have to do anything more strenuous than to engage in holiday maneuvers.

MAKING a night ascension by balloon to get a "near view" of the comet is no doubt much enjoyed by those who improve their opportunity, but the average citizen will be quite content to remain on terra firma even if he has to look a mile or two farther to see the object in which so many are just now interested.

A CERTAIN feeling of doubt and uncertainty has pervaded business circles the past few weeks. It has been brought about by the liquidation that has been in progress in the commodities and securities markets. However, if one were to disregard the pessimistic sentiment long enough to analyze conditions he would not be long in determining that the lower prices which have been quoted recently for both commodities and securities indicate a more healthful state of affairs than has prevailed for a long time past.

Business conditions are sound. Prospects are bright for a still greater volume of trade. And it is not difficult to bring plenty of proof in the larger railway earnings, increased bank clearances, larger retail business and splendid crop outlook to sustain this contention. The principal cause contributing to the feeling of uncertainty prevailing in commercial lines is the slackening in demand for commodities. There has been some falling off in orders for certain manufactured products. But this is what should be expected in view of the high prices which have prevailed. The law of supply and demand regulates prices in nearly all cases. People have complained loudly against the high cost of living. This complaint has been general. It has been indulged by both the rich and the poor. Instead of the feeling of pessimism there should be general rejoicing that a lower cost of living is now promised. It means greater purchasing power for the individual and greater prosperity for all.

The most unfavorable condition at present, one that is most dwelt upon by those who look upon the dark side of things, is the unfavorable trade balance of this country. But with lower prices for our foodstuffs and other products there will be a better demand for our goods abroad and it will not be long before the trade balance will adjust itself in accordance with normal conditions.

The business pendulum which swings from one extreme to the

other as conditions change is now coming back to a more normal range. The overproduction of copper, pig iron and coke may mean some hardship for the producers but the lower quotations resulting are a blessing to consumers. The prospect of a nine-billion-dollar crop this year may bring a lower price per bushel for the farmer's grain, but it will give the railroads more business and the public cheaper foodstuffs. There is no cause for worry but every reason for rejoicing over the situation.

### The French Elections

THE partial result of the French elections, as known from the first ballots, has fulfilled the general expectation. M. Briand, the premier, has been returned for Saint-Etienne by a majority of 9426 out of a total vote of 14,434, his collectivist opponent only polling 2504. Saint-Etienne is a vast industrial constituency, and the collectivists represent that division of the various socialistic bodies which is pledged not to accept office, in any circumstances, under a bourgeois government. His victory may, therefore, be taken to indicate the triumph of the moderate Republicans, a possibility foreshadowed by him in the speeches he delivered before the polls. For the 597 seats to be filled 363 members have so far been definitely elected, leaving 234 seats to be further contested at the second ballot. Among these is that previously occupied by M. Delcasse at Foix, where owing to the destruction of certain ballot boxes a new election may be necessitated. The party which has suffered most heavily, not so much perhaps in actual loss of seats as in a marked reduction of votes, is the Radical-Socialist, but there has also been a marked decrease in the majorities of all the groups which may be termed anti-Republican. When the returns are finally made up it will probably prove that the smallest conceivable alteration has taken place, and that M. Briand will return with a possibly increased majority.

Perhaps the most interesting question before the electors, though it did not take any definite shape, was that of the franchise reform. It is still difficult to judge what the ultimate verdict of the constituencies will be, but out of the 363 deputies so far elected only some 120 are avowed supporters of proportional representation. These 120 are largely members of the Right, but the figures scarcely represent the strength of the demand for this reform even among those so far elected. The remarkable success of the leader of the reform party, M. Charles Benoist, in the sixth arrondissement of Paris, proves that the idea has taken considerable hold of that constituency. The argument of the opponents of the scheme that the change would militate against the success of the more capable in favor of the mediocre, is one which has been used of most reforms, in most countries and in most epochs. It was one of the great arguments against the reform of the House of Commons, but it can scarcely be said to have been justified. Just as Pitt in a great political crisis was nearly excluded from the House under the old regime in England, so in the elections which have just taken place in Paris deputies of such undoubted distinction as MM. Brisson, Doumer, Millerand and Jaures have failed to obtain the majorities necessary to insure their success at the first ballot.

The unsatisfactory element in the polls may probably be described as the enormous number of abstentions. In the constituency of Saint-Etienne, where the candidature of M. Briand might have been expected to produce peculiar interest, some 10,000 electors, or about 40 per cent of the electorate, remained unpolled. It is possible that this is the result of the certainty that the republic has reached a point when it is in no danger of an assault from any of the reactionary groups. An attempt to interfere with the status quo would probably bring these electors like so many Achilles from their tents.

By the surprising vote of 663 to 287, the school children of Montclair, N. J., to whom the question had been submitted, decided in favor of a "quiet Fourth." It had been expected that the balance would turn the other way.

IF THE belief that his appointment to a place on the supreme bench would interfere with Governor Hughes' advocacy of the direct nominations bill, or cause him to abandon support of it, or weaken his influence in its behalf, has ever been seriously entertained, there is sufficient evidence at hand now to prove the utter groundlessness of such an opinion. It must be apparent to the most prejudiced opponent of the measure that Governor Hughes is now in a better position than ever to press the reform that has engaged so much of his thought and time, and that he is more disposed than ever to do so.

There is some question as to whether the Hinman-Green bill in its present form affords the best means of bringing about the end aimed at by the Governor and others who are believers in the direct primary idea. It has been recommended by some whose loyalty to the proposed reform and to Governor Hughes is beyond question that it would be better to test the plan by applying it first of all to the nomination of members of the Legislature. Applied in a radical way, it is thought that it might possibly fail to work out satisfactorily at first, and that any weakness in its operation might encourage its enemies and, perhaps, enable them to repeal the law. Whether Governor Hughes has been impressed by this recommendation and argument will probably be revealed in a speech which he is expected to deliver shortly with the purpose of urging speedier action than is promised now on the Hinman-Green bill. But, even assuming that he may agree with the extreme conservatives, there can be little question as to his determination to give the direct nominations system a good start before his departure from Albany.

SENATOR CARTER, chairman of the postoffice committee, says it costs about \$241,000,000 a year to run the postoffice department, but he asserts that "a good business man who would conduct this business on the merit system, as the Pennsylvania railroad is conducted, could give us a better service in every respect, and make a profit besides, for \$125,000,000."

IN THE Cercle at Aix-les-Bains women who persist in wearing big hats at matinees must sit on one side of the house: "avec chapeaux" sit to the right; "sans chapeaux" to the left. The plan is said to work well.

THE unofficial estimate of this city's population, based on the new census, is 629,867, a gain of 34,487 in five years. Boston hopes to reach the 700,000 mark by 1915.

### The Hughes Direct Nomination Bill

It is generally conceded at Washington that action on the railroad bill will determine the disposition of the insurgents, the regulars and the administration during the remainder of the session. Senators Clapp and Cummins, in reply to President Taft's appeal for a Republican line-up on this measure, say that the railroad bill they will vote for must be one that has been subjected to insurgent amendment. Senator Clapp and President Taft differ as to what a good railroad bill should be. Senator Cummins makes it clear that he is going to be guided by the insurgent rather than the administration point of view.

In the meantime, the regulars claim that they never have had the support that the President could give them, and that he, in withholding from them his unqualified indorsement of their course, has strengthened the hands of the insurgents and made it possible for the latter to defy and to defeat the program of his friends. It seems to be settled now as one of the conditions upon which the regulars will carry out their plan to ride roughshod over insurgent opposition that he shall come out squarely against the insurgents. It is understood that he will be told in so many words that the time has come when he must make a choice between regular and insurgent support. Put into plain language, what the regulars hope for is that the President shall repudiate the progressives.

It is a rather difficult thing at this time to attempt to analyze public sentiment, and a still more difficult thing to make prophecies concerning it. More satisfying to the thinking people of the country would it be were the President altogether free from factional entanglements. And no doubt if Mr. Taft's personal feelings were consulted he would much rather be President of the whole people than political chief of any part of them.

THE preservation of the scenic grandeur of Niagara Falls seems assured by the ratification of the international waterways treaty between the United States and Great Britain.

### League of Peace

THE address of Theodore Roosevelt on Wednesday before the Nobel prize committee at Christiania in Norway, wherein he dwelt upon methods by which peace may be advanced throughout the world, probably marked the culminating point of public interest in his foreign tour. Colonel Roosevelt presented no hasty views; the ideas he offered were the outcome of long and varied experience, thorough study and deep thought. He is not an idealist—he is a man of high ideals, but he goes about working them out through what must be recognized as practical means. He has been criticized for destruction of animal life during his hunting expedition in Africa; his object, which was to secure for the benefit of the present and coming generations specimens of many species that are likely to disappear soon, was a creditable one, and he knew there was no other way in which it could be accomplished.

Colonel Roosevelt, whose symbol has come to be the "big stick" with all that it implies, is the holder of a Nobel peace prize. The splendid idea advanced and advocated by him on Wednesday was the formation by the great powers of a league of peace. True to his policy of progress by practical methods, Colonel Roosevelt would have this league organized "not only to keep the peace among themselves, but to prevent, by force if necessary, its being broken by others." He went on to state that the supreme difficulty in connection with developing the peace work of The Hague arises from the lack of any executive power, of any police power to enforce the decrees of the court. "In any community," said he, "the authority of the courts rests upon actual or potential force." Colonel Roosevelt is a believer in arbitration, and has earnestly spoken and worked for its employment between nations. He thinks that the great powers should find no insurmountable difficulty in reaching an agreement that would put an end to the present costly and growing extravagance of expenditure on naval armaments. But Mr. Roosevelt is convinced that each nation must keep well prepared to defend itself until the establishment of some form of international police power, competent and willing to prevent violence as between nations.

It is the formation of this league that he now urges. Heartily desirous of world peace, he perceives that we cannot attain it at one leap, and counsels that we advance toward it step by step, "reasonably content so long as we do actually make some progress in the right direction."

THE treaty between the United States and Great Britain with relation to waterways along the Canadian boundary has at length been fully ratified and is now in force. The most important feature of this convention, beyond the fact that its conclusion settles several very delicate points, is the provision it makes for the creation of an international commission to which hereafter shall be referred practically all questions in which the United States and Canada are commonly concerned. This commission is to consist of six members, three from this country and three from Canada. It will be, by the treaty just ratified, clothed with authority to investigate and report on any question arising between the United States and the Dominion along their common frontier and to hear and determine any question whatever between the two countries with the consent of both. Thus, while the commission is the outgrowth of conditions arising from the waterway dispute, and while it was intended primarily to adjudicate differences of this character, it becomes in fact a tribunal of arbitration for settlement of any differences that may arise between the neighboring countries.

It will be recalled that the terms upon which the controversy arising from the alleged lowering of the level of the Great lakes was settled gave rise to considerable adverse comment in Canada and to a demand that henceforth in all matters of great import to that country it should be consulted before treaty agreements were entered into by the imperial representative at Washington. The proposed commission, as stated, will contain a sufficient number of Canadian members to insure justice for the Dominion in all disputes.

This treaty is another step in the direction of a closer friendship between the United States and the Dominion.

THE turning of New York's racing parks into building sites for dwellings is a sign of progress.

### The Crisis at Washington

### A Waterway Agreement
